

Roof / Wall Metal Roofing Sheet Making Machine Trapezoidal Roofing Sheet Roll Forming Machine

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Roof Panel--002
- Minimum Order Quantity: 1 SET
- Price: USD18000--USD30000
- Packaging Details: Nude Packaging in a 40 feet container
- Delivery Time: 60 work days
- Payment Terms: T/T, , L/C
- Supply Ability: 30 sets per month

Product Specification

- Name: Trapezoidal Roofing Sheet Roofing Roll Forming Machine
- Type: Tile Forming Machine
- Applicable Industries: Hotels, Garment Shops, Building Material Shops, Construction Works, Advertising Company, Manufacturing Plant, Food & Beverage Factory, Retail, Others
- Tile Type: Colored Glazed Steel
- Forming Speed: 0-70m/min
- Warranty: 1 Year
- Core Components: PLC, Engine, Bearing, Motor, Pressure Vessel, Gear, Pump
- Control System: PLC
- Highlight: CE Metal Roofing Sheet Making Machine, ISO9001 Metal Roofing Sheet Making Machine, Trapezoidal Roofing Sheet Roll Forming Machine

Product Description

High Speed Roof&Wall Metal Roofing Sheet Making Machine Trapezoidal Roofing Sheet Roll Forming Machine

High Speed: This machine operates at a remarkable forming speed of 25 meters per minute, significantly increasing production efficiency.

Stable Forming: The roller stand is constructed from vertical cast steel and driven by a gearbox. This robust design ensures strong, stable forming processes, resulting in precise and accurate final products.

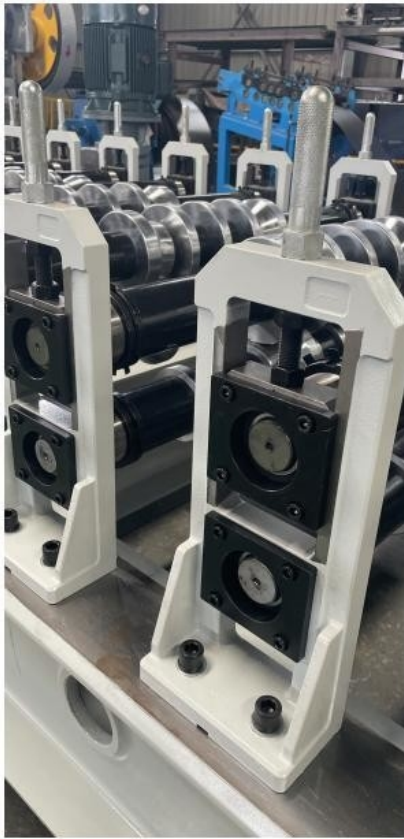

R Panel Roll Forming Machine Hot Sale To America

Raw Material	PPGI, PPGL
	Material Thickness:0.3-0.8mm)
Machine Frame	350mm H beam structure
Material Of Rollers	No.45 forged steel with quench treatment, Chromed treatment
Roller Stand	Vertical cast steel structure
Forming Stations	16 stands
Diameter Of Shafts	Φ80mm Solid
Material Of Shafts	No.45 fine steel, with Heat Treatment
Forming Speed	0-70m/min
Voltage	380v/50hz/3p (As Requested)
Transmission Way	By gearbox
Main Motor	11 KW
Cutting Blade Material	Cr12 Mov with quenched treatment
Cutting Type	hydraulic post cutting
Installation Structure	Torri Structure

Installation Structure

The roll forming machine offers two installation structure options: The Torri Structure and The Wall-panel Structure. Each has its own advantages. The torri structure is durable and aesthetically pleasing, while the wall-panel structure is simpler and more cost-effective.

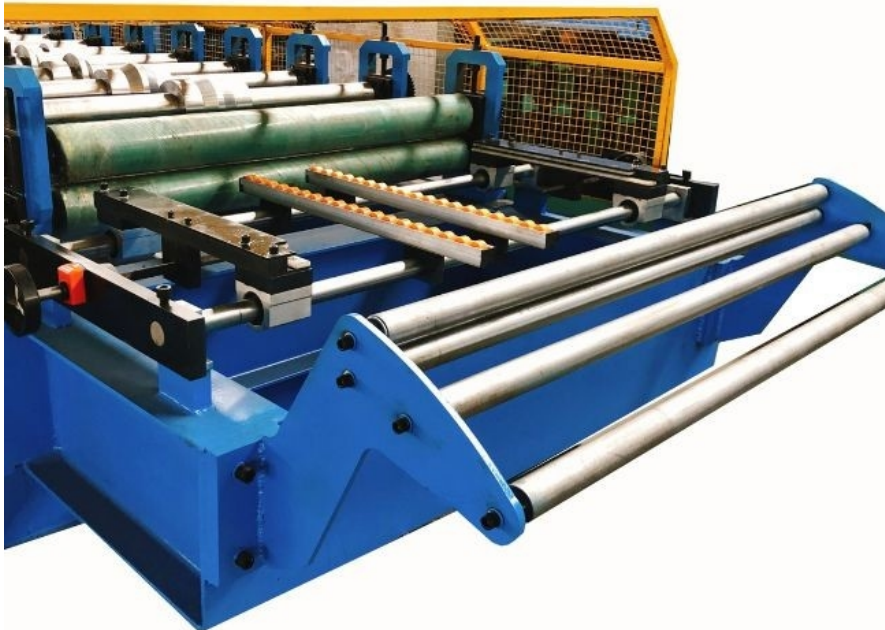

Feeding

guide

Feeding Guide Device

1. Handwheels on both sides allow for precise adjustment of the feeding width.
2. Four stainless steel rollers ensure the material enters the machine smoothly and prevent surface scratches.
3. Three rows of orange plastic rollers facilitate the smooth feeding of the steel coil into the machine.

Packaging and Shipping

1. Anti-corrosion oil is sprayed during transportation to prevent oxidation of the machine
2. Packaging isolation film to prevent machine oxidation during transportation
3. Fixed on the container with wire to prevent damage to the machine during transportation

After-sales Service

1. Technical Support: Our experienced technical team is available to provide assistance and guidance on product installation, operation, and maintenance.
2. Spare Parts Supply: We maintain a stock of genuine spare parts to quickly solve any equipment issues and minimize downtime.
3. Training Programs: We offer training programs for your staff to ensure they are proficient in using and maintaining our equipment effectively.
4. Warranty Coverage: The warranty is one year after the client receives the machine. All our products come with a warranty period, during which we provide prompt repair or replacement services for any defects covered under the warranty terms.
5. Regular Maintenance: We recommend and offer scheduled maintenance services to keep your equipment in optimal condition and maximize its lifespan.
6. Customer Feedback: We value your feedback and continuously strive to improve our products and services based on your input.
