

Hydraulic Cutting Sheet Metal Roll Forming Machines PLC Control 13-18 Stations 380V

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

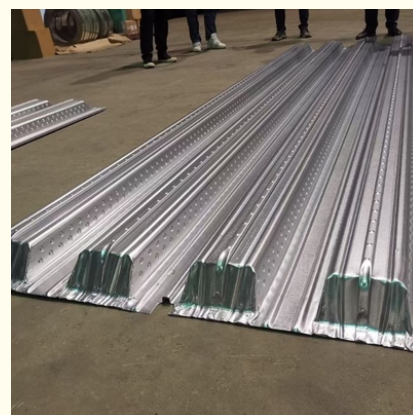

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Minimum Order Quantity: 1 Set
- Price: USD30000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Power Supply: 380V, 50Hz, 3 Phase
- Main Frame Material: 350H Steel
- Production Speed: 10-15 Meters Per Minute (as Your Require)
- Product Type: Roll Forming Machine
- Control System: PLC Control
- Cutting Method: Hydraulic Cutting
- Forming Method: Roll Forming
- Roller Stations: 28 Stations
- Highlight: Hydraulic Cutting Sheet Metal Roll Forming Machines

Product Description

Hydraulic Cutting Roll Forming Machine With PLC Control 13-18 Stations 380V Power Supply

Product Description:

The floor deck roll forming machine is a piece of specialized equipment designed to produce high-quality metal floor decking panels used in a variety of construction projects.

One of the key features of this Metal Sheet Roll Forming Machine is its production speed. With the ability to produce 10-15 meters per minute, this machine can easily handle high-volume production runs. This makes it an ideal choice for businesses that need to produce many metal sheets quickly and efficiently.

Another important attribute of this Metal Sheet Roll Forming Machine is its cutting tolerance. With a tolerance of $\pm 2\text{mm}$, this machine can produce precise cuts that meet your exact specifications. This level of accuracy is essential for applications where precision is critical.

The Metal Sheet Roll Forming Machine is designed for use with a 380V, 50Hz, 3-phase power supply. This ensures that it can be used in a variety of different settings and applications, making it a versatile and flexible piece of equipment.

Finally, the Metal Sheet Roll Forming Machine is capable of working with a range of different materials, including PPGL, PPGI, and AL. This means that you can use it to produce a variety of metal sheets for different applications and industries.

Features:

Product Name: Metal Sheet Roll Forming Machine

Roller Material: GCr15 Bearing Steel With Quench Treatment

Control System: PLC Control

Cutting Tolerance: $\pm 2\text{mm}$

Product Type: Roll Forming Machine

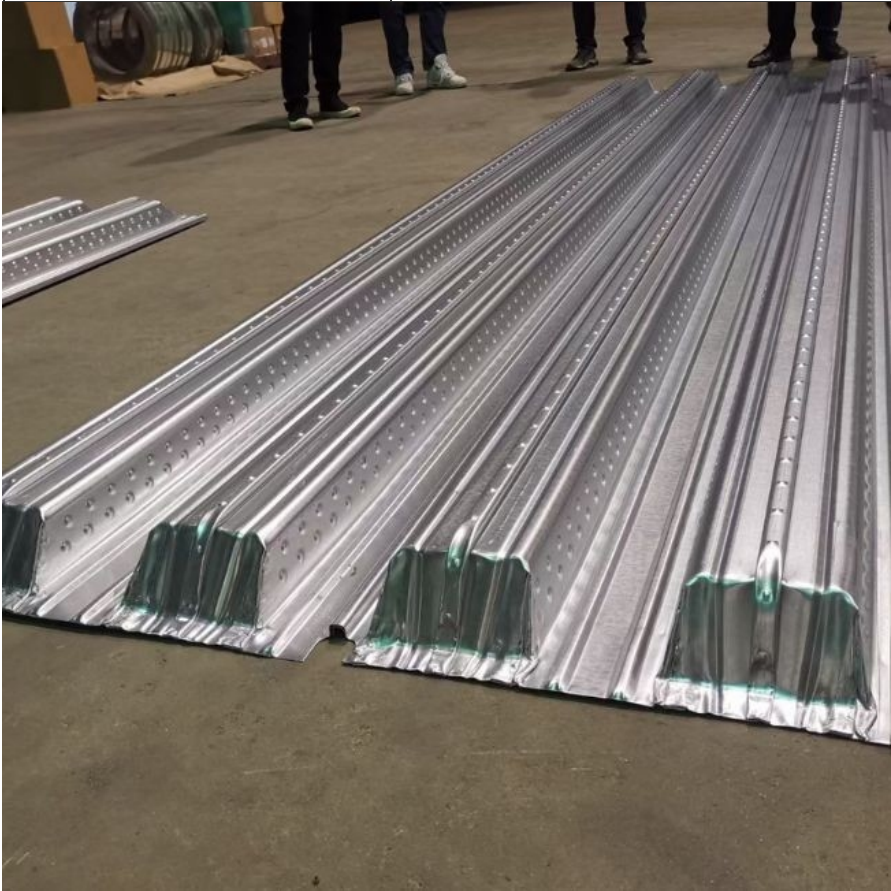

Warranty: 1 Year

Product Types:

Corrugated Roll Forming Machine

Technical Parameters:

Product Type	Roll Forming Machine
Forming Method	Roll Forming
Power Supply	380V, 50Hz, 3 Phase
Roller Stations	28 Stations
Main Frame Material	350H Steel
Cutting Tolerance	±2mm
Cutting Method	Hydraulic Cutting
Production Speed	10-15 Meters Per Minute(as Your Require)
Tile Type	Colored Glazed Steel
Control System	PLC Control

Applications:

Our metal sheet roll forming machines are suitable for a variety of application occasions and scenarios. For example, our Floor Deck Roll Forming Machine is perfect for creating floor decks for buildings, warehouses, and factories. Our Double Layer Roll Forming Machine is ideal for producing roofing sheets for commercial buildings, residential houses ,and industrial construction. Our corrugated roof sheet roll forming machine is suitable for creating roofing sheets for all kinds of buildings.

The control system of our metal sheet roll forming machines is equipped with a PLC control to ensure efficient operation and accuracy. The power supply required is 380V, 50Hz, 3 Phase. The machines are made of high-quality materials such as PPGL, PPGL, and AL. The main frame material is 350H steel, which ensures strength and durability. The tile type used is Colored Glazed Steel, which provides a beautiful finish to the final product.

We accept T/T and L/C payment terms and have a supply ability of 30 sets per month. Our metal sheet roll forming machines are easy to operate and require minimal maintenance. They are the perfect choice for businesses looking to increase their productivity and streamline their operations. Contact us today to learn more about our metal sheet roll forming machines and how they can benefit your business.

Support and Services:

Our Metal Sheet Roll Forming Machine comes with comprehensive technical support and services to ensure that our customers are satisfied with their purchase. Our team of experts is available to assist with any troubleshooting or technical issues that may arise during operation.

We offer installation and commissioning services to ensure that your machine is properly installed and running smoothly. In addition, we

provide training services to ensure that your staff is fully trained on how to operate the machine safely and efficiently. We also offer maintenance and repair services to keep your machine in top working condition. Our team can provide regular maintenance schedules and perform any necessary repairs to keep your machine running smoothly. Overall, we are committed to providing our customers with excellent technical support and services to ensure that they get the most out of their Metal Sheet Roll Forming Machine.

Packing and Shipping:

Product Packaging:

This Metal Sheet Roll Forming Machine will be carefully packaged to ensure safe and secure delivery. The machine will be wrapped in protective materials and placed in a sturdy wooden crate to prevent damage during transit.

Shipping:

We offer worldwide shipping for our Metal Sheet Roll Forming Machine. The shipping cost will depend on the destination and the weight of the machine. Once the order is placed, we will provide you with a shipping quote and estimated delivery date. We work with reliable shipping companies to ensure timely and secure delivery.
