

## Hydraulic Cutting Metal Sheet Roll Forming Machine PLC Control Trapezoidal Roll Forming Machine

### Our Product Introduction

For more products please visit us on [roll-formermachines.com](http://roll-formermachines.com)

#### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Roof Panel--002
- Minimum Order Quantity: 1 Set
- Price: USD12000--USD18000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Warranty: 1 Year
- Applicable Industries: Hotels, Garment Shops, Building Material Shops, Construction Works, Advertising Company, Manufacturing Plant, Food & Beverage Factory, Retail, Others
- Main Frame Material: 350H Steel
- Cutting Tolerance:  $\pm 2$ mm
- Cutting Method: Hydraulic Cutting
- Control System: PLC Control
- Forming Method: Roll Forming
- Material: PPGL; PPGI; AL
- Name: Trapezoidal Roll Forming Machine
- Highlight: **Hydraulic Cutting Metal Sheet Roll Forming Machine**

## Product Description

### YX35-200-1000 Metal Sheet Forming Machine Trapezoidal Roofing Sheet Roll Forming Machine

#### Product Description:

The Color Steel Roll Forming Machine is equipped with 20 roller stations that ensure a smooth and efficient production process. The roller stations are designed to provide a consistent and accurate shape to the metal sheet. With the help of the Roll Forming Method, the machine is capable of producing high-quality corrugated roof sheets that are durable and long-lasting.

The Corrugated Sheet Roll Forming Machine has a cutting tolerance of  $\pm 2\text{mm}$ , which ensures that the final product is of the desired size and shape. The machine is capable of producing a wide range of products, including corrugated roof sheets, wall panels, and floor decking sheets. The product type of the Roll Forming Machine is Roll Forming Machine.

The Metal Sheet Roll Forming Machine is a versatile machine that can be used for a variety of applications. It is suitable for producing metal sheets that are used in the construction industry, advertising industry, and manufacturing industry. The machine is also ideal for producing metal sheets that are used in the food & beverage industry and retail industry.

The Color Steel Roll Forming Machine is designed to be easy to use and maintain. The machine is equipped with a user-friendly interface that allows operators to control the machine with ease. The machine is also designed to be easy to maintain, which ensures that it operates at peak performance for an extended period.

In conclusion, the Metal Sheet Roll Forming Machine is a product that is designed to cater to the needs of various industries. The machine is equipped with 13-18 roller stations that ensure a smooth and efficient production process. The Roll Forming Method ensures that the final product is of high quality and the cutting tolerance of  $\pm 2\text{mm}$  ensures that the final product is of the desired size and shape. The machine is suitable for producing a wide range of products, including corrugated roof sheets, wall panels, and floor decking sheets. The Color Steel Roll Forming Machine is easy to use and maintain, which ensures that it operates at peak performance for an extended time.

### Features:

Product Name: Metal Sheet Roll Forming Machine

Material: PPGL;PPGI;AL

Roller Stations: 20 Stations

Power Supply: 380V, 50Hz, 3 Phase

Production Speed: 10-15 Meters Per Minute (as Your Require)

Main Frame Material: 350H Steel

**Technical Parameters:**

Product Type	Color Steel Roll Forming Machine
Control System	PLC Control
Forming Method	Roll Forming
Material	PPGL;PPGI;AL
Roller Material	GCr15 Bearing Steel With Quench Treatment
Tile Type	Colored Glazed Steel
Power Supply	380V, 50Hz, 3 Phase
Production Speed	10-15 Meters Per Minute(as Your Require)
Warranty	1 Year
Cutting Tolerance	±2mm

**Applications:**

The Metal Sheet Roll Forming Machine is applicable to a wide range of industries, including hotels, garment shops, building material shops, construction works, advertising companies, manufacturing plants, food & beverage factories, retail, and others. With its double layer roll forming machine and cold roll forming machine features, it is perfect for a variety of applications. It is also suitable for making floor decking, with its floor decking roll forming machine feature.

The Metal Sheet Roll Forming Machine is made with high-quality materials, ensuring its durability and longevity. The roller material is made of GCr15 bearing steel with quench treatment, while the main frame material is made of 350H steel. This machine also features hydraulic cutting, making it easier and more efficient to cut materials. The Metal Sheet Roll Forming Machine comes with a 1-year warranty, giving you peace of mind.

#### **Packaging and Shipping**

1. Anti-corrosion oil is sprayed during transportation to prevent oxidation of the machine
2. Packaging isolation film to prevent machine oxidation during transportation
3. Fixed on the container with wire to prevent damage to the machine during transportation

#### **After-sales Service**

1. Technical Support: Our experienced technical team is available to provide assistance and guidance on product installation, operation, and maintenance.
2. Spare Parts Supply: We maintain a stock of genuine spare parts to quickly solve any equipment issues and minimize downtime.
3. Training Programs: We offer training programs for your staff to ensure they are proficient in using and maintaining our equipment effectively.
4. Warranty Coverage: The warranty is one year after the client receives the machine. All our products come with a warranty period,

during which we provide prompt repair or replacement services for any defects covered under the warranty terms.

5. Regular Maintenance: We recommend and offer scheduled maintenance services to keep your equipment in optimal condition and maximize its lifespan.

6. Customer Feedback: We value your feedback and continuously strive to improve our products and services based on your input.
