

PPGL PPGI AL Metal Roofing Sheet Roll Forming Machine Double Layer Forming Machine

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Double layer roof
- Minimum Order Quantity: 1 Set
- Price: USD15000--USD30000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Roller Material: GCr15 Bearing Steel With Quench Treatment
- Main Frame Material: 350H Steel
- Power Supply: 380V, 50Hz, 3 Phase
- Product Type: Roll Forming Machine
- Applicable Industries: Hotels, Garment Shops, Building Material Shops, Construction Works, Advertising Company, Manufacturing Plant, Food & Beverage Factory, Retail, Others
- Cutting Tolerance: $\pm 2\text{mm}$
- Material: PPGL; PPGI; AL
- Tile Type: Colored Glazed Steel
- Highlight: **PPGI Metal Roofing Sheet Roll Forming Machine**
, AL Metal Roofing Sheet Roll Forming Machine,
ISO9001 Double Layer Forming Machine

Product Description

PPGL PPGI AL Metal Roofing Sheet Roof Tile Colored Steel Double Layer Roll Forming Machine

Product Description:

The Metal Sheet Roll Forming Machine features a cutting tolerance of $\pm 2\text{mm}$, which means that you can expect precise and consistent results every time you use it. This machine is a double-layer roll Forming Machine, which means that it is capable of producing two different types of metal roofing sheets simultaneously. This is ideal for businesses that need to produce a variety of different products quickly and efficiently.

Whether you're looking to produce Colored Glazed Steel tiles or other types of metal roofing sheets, the Metal Sheet Roll Forming Machine is the perfect tool for the job. This Color Steel Roll Forming Machine is easy to operate and requires minimal maintenance, making it an excellent choice for businesses of all sizes. With its high-quality construction and advanced features, this machine is sure to provide you with years of reliable service.

In summary, the Metal Sheet Roll Forming Machine is a highly efficient and versatile piece of equipment that is perfect for producing high-quality metal roofing sheets. With its Roll Forming method, cutting tolerance of $\pm 2\text{mm}$, and Double Layer Roll Forming Machine capabilities, this machine is ideal for businesses that need to produce a variety of different products quickly and efficiently. Whether you're looking to produce Colored Glazed Steel tiles or other types of metal roofing sheets, this Color Steel Roll Forming Machine is the perfect tool for the job.

Features:

1. Product Name: Metal Sheet Roll Forming Machine
2. Production Speed: 10-15 Meters Per Minute (as Your Require)
3. Power Supply: 380V, 50Hz, 3 Phase
4. Cutting Tolerance: $\pm 2\text{mm}$
5. Tile Type: Colored Glazed Steel
6. Warranty: 1 Year
7. Other Products: Floor Deck Roll Forming Machine, Color Steel Roll Forming Machine, Double Layer Roll Forming Machine

Technical Parameters:

Forming Method	Roll Forming
Production Speed	10-15 Meters Per Minute(as Your Require)
Roller Material	GCr15 Bearing Steel With Quench Treatment
Material	PPGL;PPGI;AL
Cutting Tolerance	$\pm 2\text{mm}$
Applicable Industries	Hotels, Garment Shops, Building Material Shops, Construction Works , Advertising Company,Manufacturing Plant, Food & Beverage Factory, Retail,Others
Roller Stations	13-18 Stations
Main Frame Material	350H Steel
Power Supply	380V, 50Hz, 3 Phase
Product Type	Cold Roll Forming Machine, Double Layer Roll Forming Machine, Double Layer Roll Forming Machine

Applications:

Our metal sheet roll forming machines are designed for various application occasions, including:

Corrugated Sheet Roll Forming Machine: Our roll forming machines are perfectly suited for creating corrugated metal sheets. These sheets are commonly used for roofing and siding on industrial, commercial, and residential buildings. Our machines can produce corrugated sheets in various colors and materials, including PPGL, PPGL, and AL.

Floor Decking Roll Forming Machine: Our machines can also create floor decking. Floor decking is used in the construction of buildings to provide support for concrete floors and roofs. Our machines can produce floor decking in various sizes and materials, including PPGL, PPGL, and AL.

Corrugated Roll Forming Machine: Our corrugated roll forming machines are designed for creating corrugated metal sheets used in various industries. These machines are capable of producing corrugated sheets in a range of sizes and materials, including PPGL, PPGL, and AL.

Our metal sheet roll forming machines are perfect for use in various scenarios, including construction sites, manufacturing facilities, and metalworking shops. We offer a minimum order quantity of 1 set and package our machines in a 40 feet container for safe transport. Our delivery time is 60 workdays, and we accept payment via T/T or L/C. We have a supply ability of 30 sets per month, making it easy for our customers to purchase our machines when they need them.

The main frame material we use for our machines is 350H steel, which is known for its strength and durability. Our machines are also capable of working with a range of materials, including PPGL, PPGL, and AL. This makes them versatile and suitable for use on various projects.

Support and Services:

The Metal Sheet Roll Forming Machine is a high-performance product that requires technical support and services to maintain its optimal performance. Our team of experts is dedicated to providing comprehensive technical assistance to help customers optimize their machine performance and minimize downtime. We offer a range of services, including:

Installation and commissioning services to ensure proper set-up and operation of the machine

Regular maintenance and inspection services to prevent equipment failure and maximize longevity

Repair and replacement services for faulty or damaged equipment

Technical training and consultation to help operators and maintenance personnel improve their skills and knowledge

24/7 technical support and emergency services to address any unexpected issues that may arise

Our goal is to provide our customers with the support and services they need to keep their Metal Sheet Roll Forming Machine running smoothly and efficiently. Contact us today to learn more about our technical support and services.

Packing and Shipping:

Product Packaging:

The Metal Sheet Roll Forming Machine will be carefully packaged in a sturdy wooden crate to ensure safe transportation. All parts and accessories will be securely fastened to prevent any damage during shipping.

Shipping:

We offer worldwide shipping for the Metal Sheet Roll Forming Machine. Shipping costs will vary depending on the destination and delivery method. Please allow 5-7 business days for processing and packaging before the machine is shipped out. Once the machine has been shipped, we will provide you with a tracking number so you can monitor the delivery status.
