

Gearbox Driven Steel Storage Rack Roll Forming Machine With Advanced Punching Capability

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Upright rack
- Minimum Order Quantity: 1 SET
- Price: USD30000-USD55000
- Packaging Details: Nude Packaging in a 40 feet container
- Delivery Time: 60 work days
- Payment Terms: T/T, L/C
- Supply Ability: 30 sets per month

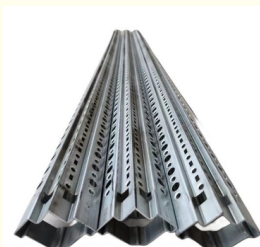

Product Specification

- Condition: New
- Punching: 1 Set, 110T
- Machine Name: Pallet Rack Upright Roll Forming Machine
- Cutting Blade Material: CrMov12, HRC58-62
- Product Type: Storage Racking Shelves Roll Forming Machine
- Driven Type: Gearbox
- Final Product: Shelf Standing Rack, Beam, Shelf Panel
- Operating Thickness: 2.0-3.0mm
- Highlight: **CE Storage Rack Roll Forming Machine, ISO9001 Storage Rack Roll Forming Machine**

Product Description

Gearbox Driven Steel Storage Rack Roll Forming Machine With Advanced Punching Capability

Product Description:

As a new machine, the Pallet Rack Upright Roll Forming Machine is equipped with the latest technology and features, making it one of the most advanced storage rack roll forming machines on the market. With an operating thickness range of 2.0-3.0mm, this roll forming machine is capable of producing storage racks of all sizes and shapes, according to your specific requirements.

The Pallet Rack Upright Roll Forming Machine also comes with a punching set that has a capacity of 110T, which allows you to create custom holes, slots, and other shapes in your storage rack components. This feature can be particularly useful if you need to create storage racks that have specific design requirements or if you need to produce racks for a particular industry.

When it comes to performance, the Pallet Rack Upright Roll Forming Machine is second to none. Its high-speed roll forming process ensures that you can produce large quantities of storage rack components quickly and efficiently. This machine is also very easy to operate, thanks to its user-friendly interface and intuitive controls. Whether you are a seasoned professional or a beginner, you will find this storage rack roll forming machine to be very easy to use.

The Pallet Rack Upright Roll Forming Machine is a reliable and durable machine that is built to last. Its rugged construction ensures that it can withstand the rigors of heavy use, making it ideal for use in factories, warehouses, and other industrial settings. This machine also requires minimal maintenance, which helps to keep your operating costs low.

Overall, if you are looking for a high-quality storage rack roll forming machine that can produce top-quality storage rack components quickly and efficiently, the Pallet Rack Upright Roll Forming Machine is the perfect choice. With its advanced features, easy operation, and rugged construction, this machine is sure to meet all your storage rack roll forming needs.

Features:

Product Name: Storage Rack Roll Forming Machine

Product Type: Storage Racking Shelves Roll Forming Machine

Cutting Blade Material: CrMov12,HRC58-62

Coil Type: Galvanized Steel

Function: Shelf Panel,Upright,Beam

Punching: 1 Set, 110T

This storage rack roll forming machine is ideal for industrial storage rack roll forming plant.

Technical Parameters:

Product Attributes	Specifications
Materials	PPGI/GI
Final Product	Shelf Standing Rack, Beam, Shelf Panel
Product Type	Storage Racking Shelves Roll Forming Machine
Function	Shelf Panel, Upright, Beam
Punching	1 Set, 110T
Export Market	Global
Cutting Blade Material	CrMov12, HRC58-62
Condition	New
Operating Thickness	2.0-3.0mm
Coil Type	Galvanized Steel

Introducing our industrial storage rack roll forming plant, equipped with a heavy-duty storage rack roll forming mill. This machine is perfect for producing shelf-standing racks, beams, and shelf panels with PPGI/GI materials. The machine has a punching set of 1, 110T and uses CrMov12 cutting blade material with HRC58-62. The machine is brand new and can operate with a thickness range of 2.0-3.0mm using galvanized steel coils. It is perfect for the global export market.

Applications:

Our steel storage rack roll forming machines are equipped with cutting blades made of CrMov12, a high-grade material with a hardness of HRC58-62. This ensures that our machines can cut through the toughest steel coils with ease, delivering accurate and precise cuts every time. The result is a perfectly formed shelf-standing rack, beam, or shelf panel that meets the highest standards of quality and durability.

The applications and scenarios for our steel storage rack roll forming machines are virtually endless. They are ideal for use in warehouses, factories, logistics centers, and other industrial settings where space is at a premium. With our roll forming machines, you can easily produce custom storage racks that meet your specific needs and requirements. Whether you need a simple storage solution for your garage or a complex racking system for your warehouse, our machines can get the job done.

Our steel storage rack roll forming machines are in high demand in the global export market. We have customers from all over the world who trust us to deliver the best machines at competitive prices. Our machines are designed to be easy to use and maintain, making them a popular choice among both small and large businesses. We are committed to delivering the highest level of customer satisfaction and ensuring that our machines meet your needs and exceed your expectations.

Support and Services:

Our Storage Rack Roll Forming Machine product comes with comprehensive technical support and services to ensure optimal performance and efficiency. Our team of experienced technicians is available to provide installation, training, and maintenance services to ensure that your machine is running smoothly and minimizing downtime. Additionally, we offer troubleshooting and repair services to address any issues that may arise. Our goal is to provide you with the necessary support and services to maximize the value of your investment in our Storage Rack Roll Forming Machine.

Packing and Shipping:

Product Packaging:

The storage rack roll-forming machine will be packed in a wooden case to ensure safe transportation. The machine will be securely fastened and protected with foam padding to prevent any damage during shipping.

Shipping:

We offer worldwide shipping for the storage rack roll forming machine. The shipping cost will vary depending on the destination and shipping method selected by the customer. We will provide a tracking number once the machine has been shipped so that the customer can track their order.
