Basic Information

- Place of Origin: Jiangsu,China
- Brand Name: Hangzhou Maxwell
- Certification: CE,ISO9001
- Model Number: Downspouts
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T;L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Material: Steel
- Hydraulic Motor Power: 7.5KW
- Roller Material: GCr15 Bearing Steel With Quench Treatment,HRC58-62
- Forming Stations: 22stands
- Control System: PLC
- Shaft Material: NO.45 Fine Steel
- Speed: 15m/min
- Warranty: 1 Year
- Highlight: Roofing Water Gutter Roll Forming Machine, ISO9001 Square Downspout Machine, Steel Square Downspout Machine

Product Description

Roofing Water Gutter Making Machine Steel Square Gutter Downspoutline And Elbow Roll Forming Machine

Product Description:

The Rain Gutter Downspouts and Elbow Roll Forming Machine is an advanced piece of equipment designed to produce custom downspouts and elbows for roofing systems. This machine offers the flexibility to customize downspout sizes according to specific customer requirements, ensuring a perfect fit for any project.

The Square Downspout Roll Forming Machine is perfect for those who want to produce high-quality downspout and elbow roll forming products quickly and efficiently. This machine is designed to be easy to operate, making it the perfect choice for those who want to produce high-quality products without any hassle.

Overall, the Square Downspout Roll Forming Machine is a reliable and efficient machine that is perfect for those who want to produce high-quality downspout and elbow roll forming products quickly and efficiently. With its durable construction, easy-to-use design, and powerful hydraulic motor, this machine is the perfect choice for anyone who wants to produce high-quality products with ease.

Features:

Product Name: Gutter Downspout Roll Forming Machine

Control System: PLC

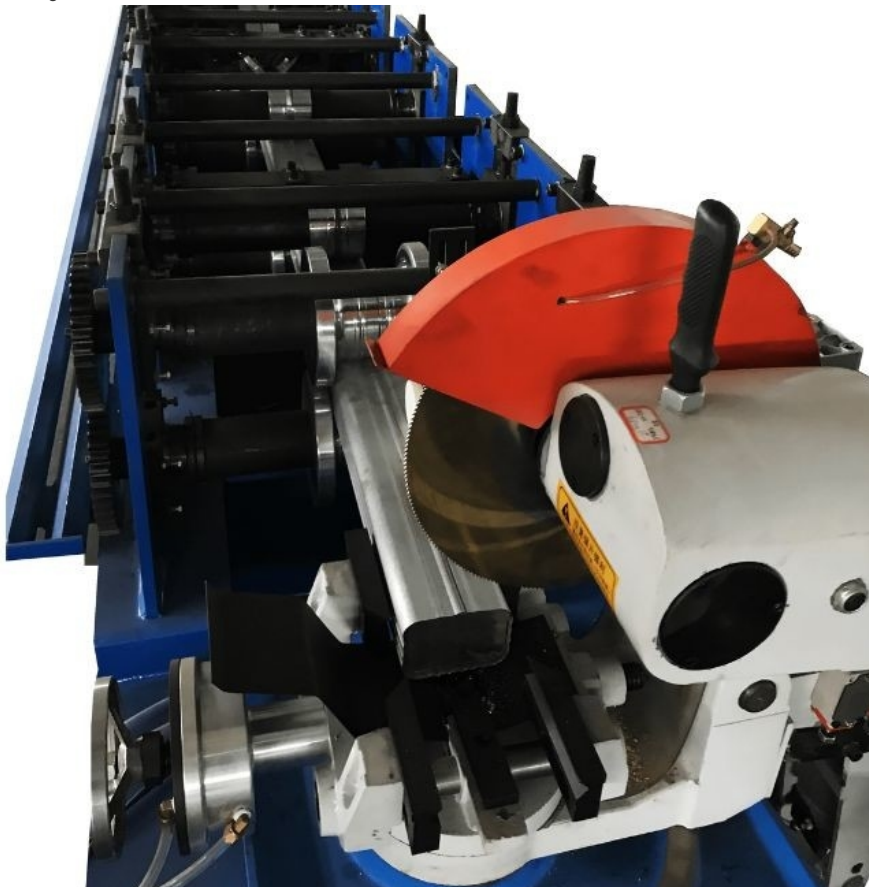

Forming Stations: 23-26 stands

Voltage: 380V/50Hz/3Phase

Thickness: 0.4-0.6mm

Shaft Material: NO.45 Fine Steel

This Gutter Downspout Roll Forming Machine is also known as a Round Downspout Roll Forming Machine or Metal Rain Gutter Roll Forming Machine.

Technical Parameters:

Product Name:	Half Round Gutter Roll Forming Machine, Metal Rain Gutter Roll Forming Machine, Square Metal Downspout Roll Forming Machine
Color:	Customizable
Speed:	15m/min
Hydraulic Motor Power:	15KW
Control System:	PLC
Forming Stations:	23-26 stands
Roller Material:	GCr15 Bearing Steel With Quench Treatment, HRC58-62
Main Motor Power:	7.5KW
Voltage:	380V/50Hz/3Phase
After-Sales Service:	Engineers Available To Service Machinery Overseas
Warranty:	1 Year

Applications:

The Downspout and Elbow Roll Forming Machine is a state-of-the-art piece of equipment that is designed to help you produce high-quality downspouts and elbows. This machine is perfect for companies that require a reliable way to produce downspouts and elbows consistently.

Our Downspout Roll Forming Machine is manufactured in Jiangsu, China, and comes with CE and ISO9001 certification. The minimum order quantity for this product is one set, and it is packaged in a nude packing in a 40 feet container. The delivery time for this product is 60 workdays, and we accept payment terms of T/T and L/C. Our supply ability for this product is 30 sets per month.

This machine is customizable in terms of color, and it operates on a voltage of 380V/50Hz/3Phase. The speed of this machine is 15m/min, and it comes with a 1-year warranty. The control system for this machine is PLC, which makes it easy to operate and maintain.

The Downspout Roll Forming Machine is ideal for use in various industries, such as construction, roofing, and guttering. It can be used to produce downspouts and elbows of different sizes and shapes. This machine is perfect for those who want a reliable, efficient, and cost-effective way to produce high-quality downspouts and elbows.

In conclusion, the Downspout Roll Forming Machine is a must-have for companies that require a reliable and efficient way to produce high-quality downspouts and elbows. It is easy to operate, maintain, and customize, making it a perfect investment for any business.

Support and Services:

The Gutter Downspout Roll Forming Machine is a highly efficient and reliable machine designed for manufacturing high-quality gutter downspouts. It is equipped with advanced technology and components to ensure consistent performance and product quality. Our technical support team is available to assist you with any issues or questions you may have regarding the operation and maintenance of the machine. We provide training and installation services to ensure that your staff is knowledgeable and capable of operating the machine safely and efficiently. In addition, we offer a range of services such as machine upgrades, repairs, and spare parts to keep your machine running smoothly and minimize downtime. Our team of experts is dedicated to providing you with the best possible service to ensure your satisfaction and the longevity of your investment.

Packing and Shipping:

Product Packaging:

The Gutter Downspout Roll Forming Machine will be securely packaged in a wooden crate to ensure safe transportation.

All necessary components and parts will be tightly packed and protected with foam and plastic wrap.

The machine manual and necessary tools will be included in the package.

Shipping:

The Gutter Downspout Roll Forming Machine will be shipped via sea or air freight, depending on the customer's preference and location.

Shipping costs will be calculated based on the destination and weight of the package.

We will provide the customer with a tracking number and regular updates on the status of the shipment.

Delivery times may vary depending on the chosen shipping method and customs clearance processes in the destination country.
