Basic Information

- Place of Origin: Jiangsu,China
- Brand Name: Hangzhou Maxwell
- Certification: CE,ISO9001
- Model Number: Round downspouts
- Minimum Order Quantity: 1 Set
- Price: USD24000-USD35000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T;L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Color: Customizable
- Thickness: 0.4-0.6mm
- Warranty: 1 Year
- Main Motor Power: 7.5KW
- Material: Steel
- Roller Material: GCr15 Bearing Steel With Quench Treatment,HRC58-62
- Control System: PLC
- Voltage: 380V/50Hz/3Phase
- Highlight: Round Rain Gutter Forming Machine,
Steel Rain Gutter Forming Machine,
Water Pipe Aluminum Roll Forming Machine

Product Description

Customizable Steel Round downspout Gutter Roundrain Downspout Water Pipe Aluminum Making Roll Forming Machine

Product Description:

The body of the machine is made of high-quality steel, which ensures its durability and long-lasting performance. The steel material also makes it resistant to damage caused by wear and tear, making it an ideal choice for businesses that require a robust and reliable machine.

The Gutter Downspout Roll Forming Machine operates on a voltage of 380V/50Hz/3Phase, which makes it highly compatible with most industrial power systems. This feature also makes it easy to integrate into existing production lines, reducing the need for additional modifications and upgrades.

The machine is equipped with 23-26 forming stations, allowing it to produce gutter downspouts and elbows of different sizes and shapes. This feature makes it a versatile machine that can be used for a wide range of applications, providing businesses with greater flexibility and adaptability.

The shaft material used in the machine is NO.45 fine steel, which is known for its strength and durability. This material ensures that the machine can withstand heavy loads and high-speed operations, providing businesses with reliable and consistent performance.

The Gutter Downspout Roll Forming Machine is available in different models, including the Half round gutter roll forming machine, downspout and elbow roll forming machine, and Square metal downspout roll forming machine. Each model is designed to meet the specific needs of different businesses, providing them with greater flexibility and customization options.

In conclusion, the Gutter Downspout Roll Forming Machine is a powerful and versatile machine that is designed to meet the needs of modern businesses. It is highly efficient, reliable, and durable, making it an ideal choice for businesses that require high-quality gutter downspouts and elbows. With its advanced features and capabilities, this machine is sure to provide businesses with a competitive edge in the market.

Features:

Product Name: Gutter Downspout Roll Forming Machine

Color: Customizable

Speed: 15m/min

Thickness: 0.4-0.6mm

Material: Steel

Voltage: 380V/50Hz/3Phase

Type: Round downspout roll forming machine

Type: Square metal downspout roll forming machine

Type: Round downspout roll forming machine

Technical Parameters:

Product	Gutter Downspout Roll Forming Machine
Model	Square metal downspout roll forming machine, Round gutter downspout roll forming machine, Metal rain gutter roll forming machine
Warranty	1 Year
Main Motor Power	7.5KW
Forming Stations	23-26 stands
Color	Customizable
Hydraulic Motor Power	15KW
Roller Material	GCr15 Bearing Steel With Quench Treatment, HRC58-62
After-Sales Service	Engineers Available To Service Machinery Overseas
Voltage	380V/50Hz/3Phase
Thickness	0.4-0.6mm
Material	Steel

Applications:

This Metal rain gutter roll forming machine is certified by CE and ISO9001, ensuring its quality and reliability. The minimum order quantity for this product is 1 set, and it is packaged in nude packing in a 40-foot container. The delivery time is 60 workdays, and the payment terms are T/T and L/C. The supply ability of this product is 30 sets per month, making it easily accessible to customers around the world. The Gutter Downspout Roll Forming Machine is suitable for a wide range of applications, including industrial, commercial, and residential buildings. It is ideal for use in various scenarios, such as roofing, drainage, and water collection. The machine produces round gutter downspouts, which are widely used in buildings to prevent damage caused by rainwater. The downspout and elbow roll forming machine is easy to operate and maintain, making it an excellent choice for businesses of all sizes. Hangzhou Maxwell provides after-sales service to customers worldwide. Engineers are available to service machinery overseas, ensuring that the machine remains in top working condition. The voltage for this product is 380V/50Hz/3Phase, making it compatible with most

electrical systems. The Gutter Downspout Roll Forming Machine from Hangzhou Maxwell is an excellent investment for any business looking to produce high-quality gutter systems efficiently and cost-effectively.

Customization:

This machine has a supply ability of 30 sets per month and comes with a 1-year warranty. It has a thickness range of 0.4-0.6mm and 23-26 forming stations. The roller material is made of GCr15 bearing steel with quench treatment, HRC58-62, ensuring its durability and longevity. The main motor power is 7.5KW, making it a powerful and efficient machine.

Order the Round Gutter Downspout Roll Forming Machine from Hangzhou Maxwell today and experience its superior performance and quality.

After-sales Services:

1. Technical Support: Our experienced technical team can assist and guide product installation, operation, and maintenance.
2. Spare Parts Supply: We maintain a stock of genuine spare parts to solve equipment issues and quickly minimize downtime.
3. Training Programs: We offer training programs for your staff to ensure they are proficient in using and maintaining our equipment effectively.
4. Warranty Coverage: The warranty is one year after the client receives the machine. All our products come with a warranty period, during which we provide prompt repair or replacement services for any defects covered under the warranty terms.
5. Regular Maintenance: We recommend and offer scheduled maintenance services to keep your equipment in optimal condition and maximize its lifespan.
6. Customer Feedback: We value your feedback and continuously strive to improve our products and services based on your input.

Packing and Shipping:

Product Packaging:

The gutter downspout roll forming machine is securely packed in a wooden crate to prevent any damages during transportation.

All machine parts are properly labeled and organized for easy assembly at the destination.

User manual and installation guide are included in the packaging.

Shipping:

The machine will be shipped via sea freight to the nearest port or as per customer's preference.

Shipping fees are not included in the product price and will be calculated based on the destination and shipping method.

Customs clearance procedures and fees are the responsibility of the customer.

Shipping time varies depending on the destination, but an estimated delivery time will be provided upon order confirmation.
