

Electrical Cable Tray Production Line 10m/Min-12m/Min Q235Mpa Yield Strength

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable tray-003
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Name: Cable Tray Production Line
- Yield Strength: Q235Mpa
- Core Components: Motor, Pump, PLC
- Key Selling Points: Long Service Life
- Raw Material: PPGI, PPGI
- Forming Stations: 22 Stations
- Material Width: 200-950mm
- Capacity: About 10-12m/min
- Highlight: Electrical Cable Tray Production Line,
Cable Tray Production Line 10m/Min,
Cable Tray Production Line 12m/Min

Product Description

Long Service Life Cable Tray Electrical Cable Tray Production Line Roll Forming Machine

Product Description:

The Cable Tray Roll Forming Machine is equipped with a hydraulic station power of 7.5KW and a hydraulic motor power of 3kW, ensuring smooth and efficient performance. The machine is designed to use 1.0-1.5mm galvanized coils, making it a cost-effective solution for producing high-quality cable tray channels.

The machine is equipped with a cutter standard of Cr12Mov, making it highly durable and long-lasting. The material width capacity of the machine ranges from 200mm to 950mm, making it highly versatile and capable of producing a wide range of cable tray channels.

The Cable Tray Roll Forming Machine is easy to operate and maintain, making it a popular choice among industrial manufacturers. It is designed to deliver high-quality outputs with minimal wastage, ensuring maximum efficiency and profitability.

If you are looking for a reliable and efficient Cable Tray Channel Roll Forming Machine, look no further than our Cable Tray Roll Forming Machine. With its advanced features and user-friendly design, this machine is the perfect solution for all your cable tray channel manufacturing needs.

Features:

Product Name: Cable Tray Roll Forming Machine

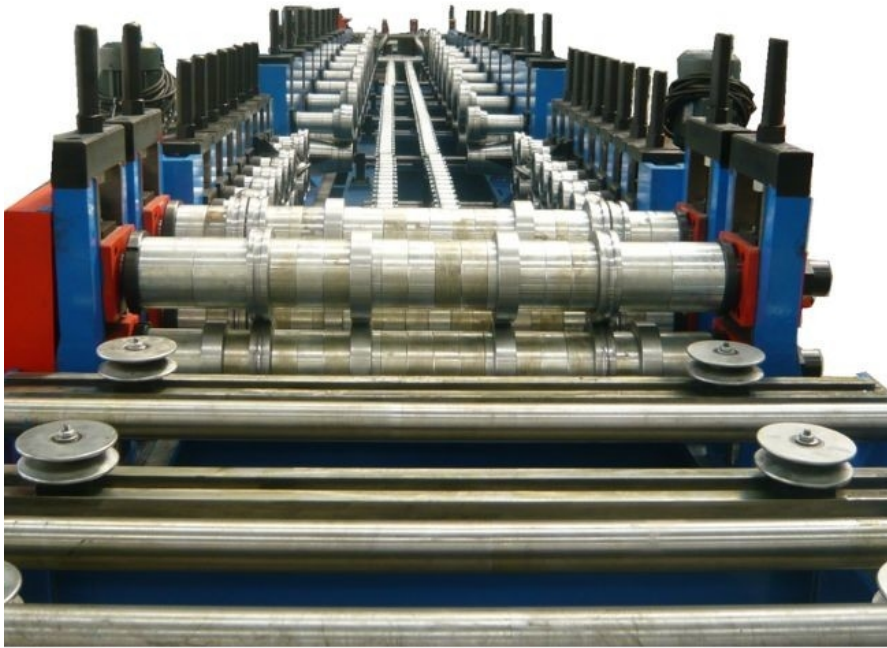

Material Width: 200-950mm

Forming Stations: 22 Stations

Yield Strength: Q235Mpa

Control: PLC Systems

Plc: Siemens

Technical Parameters:

Product Attribute	Value
Product Name	Cable Tray Roll Forming Machine
Cable Tray Support Channel Roll Forming Machine	Cable Tray Channel Roll Forming Machine
Material Width	200-950mm
Material Thickness	1.0-1.5mm Galvanized Coils
Hydraulic Motor Power	3kW
Hydraulic Station Power	7.5KW
Controller	PLC System (Siemens)
Raw Material	PPGI, PPGI
Capacity	About 10-12m/min
Key Selling Points	Long Service Life

Applications:

The Cable Tray Roll Forming Machine is ideal for those who require a reliable and high-quality machine that can produce cable tray channels. The machine has a minimum order quantity of 1 set and can be packaged in a nude packing in a 40 feet container. The delivery time of the machine is 60 workdays, and payment terms include T/T and L/C. The machine has a supply ability of 30 sets per month, ensuring that you can always have access to the equipment you need.

This Cable Tray Roll Forming Machine has a variety of core components, including the motor, pump, and PLC. The hydraulic station power is 7.5KW, and the cutter standard is Cr12Mov. The PLC system allows for easy control and operation of the machine, ensuring that you can produce high-quality cable tray channels with ease.

The Cable Tray Roll Forming Machine can be used in a variety of scenarios, including construction sites, factories, and warehouses. It is perfect for those who require a reliable and efficient machine that can produce high-quality cable tray channels. With its easy-to-use PLC system and durable components, this machine is a great investment that will provide you with reliable and high-quality results for years to come.

Support and Services:

The Cable Tray Roll Forming Machine is a high-quality product designed for the efficient and precise production of cable trays. Our technical support team is available to assist with any questions or issues you may have with your machine. We also offer a range of services, including installation, training, and maintenance to ensure that your machine operates at peak performance. Our experienced

technicians can provide on-site support as well as remote assistance. In addition, we offer spare parts to ensure that your machine is always running smoothly. Contact us for more information on our technical support and services.

Packing and Shipping:

Product Packaging:

The machine will be packed in a wooden case to ensure safe transportation.

All components and accessories will be securely placed within the case.

The case will be labeled with the product information and handling instructions.

Shipping:

The machine will be shipped via sea, air, or land depending on customer preference and location.

Shipping costs will be calculated based on the destination and mode of transportation.

The customer will be provided with a tracking number to monitor the shipment status.

The estimated delivery time will be communicated to the customer upon shipment.
