

Precision Heavy Duty Cable Tray Roll Forming Machine With 22 Stations Siemens PLC Control

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable tray-002
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Control: PLC Systems
- Hydraulic Station Power: 7.5KW
- Material Width: 200-950mm
- Yield Strength: Q235Mpa
- Forming Stations: 22 Stations
- Cutter Standard: Cr12Mov
- Plc: Siemens
- Material Thickness: 1.0-1.5mm Galvanized Coils
- Highlight: Precision Cable Tray Roll Forming Machine,
Heavy Duty Cable Tray Roll Forming Machine,
Cable Tray Roll Former PLC Control

Product Description

Precision Heavy Duty Cable Tray Roll Forming Machine with 22 Stations Siemens PLC Control

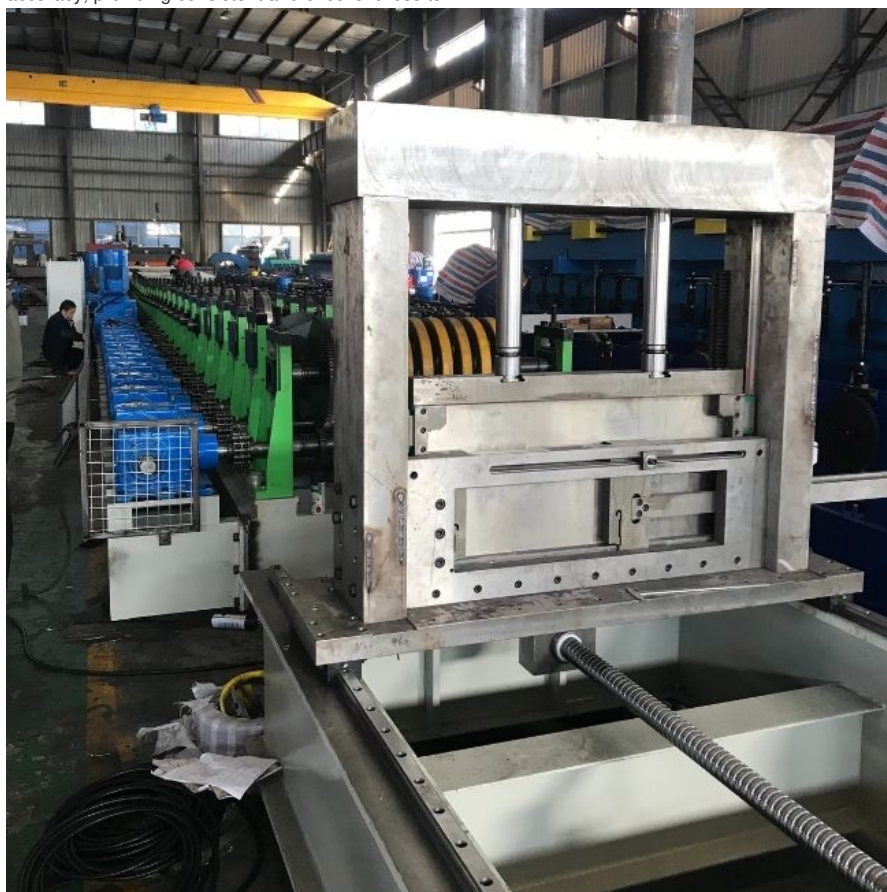

Product Description:

The Cable Tray Roll Forming Machine is designed to process galvanized coils with a material thickness of 1.0-1.5mm. The machine has 22 stations for forming the cable tray channels, ensuring high precision and accuracy. Its key selling point is its long service life, making it an ideal investment for businesses looking for a durable machine that can withstand heavy-duty use.

The Cable Tray Support Channel Roll Forming Machine is easy to operate and features a user-friendly interface. Its PLC system controls the machine's speed, ensuring consistent and accurate results. The machine's hydraulic motor power drives the rollers to form the cable tray channels, providing excellent performance and high output.

This Cable Tray Channel Roll Forming Machine is ideal for businesses involved in the production of cable trays and other similar products. Its robust design and high-quality components ensure that it can withstand heavy use and produce consistent, high-quality results. With its 22 stations, this machine can form cable tray channels with excellent precision and accuracy, ensuring that the final product meets the required specifications.

In conclusion, the Cable Tray Roll Forming Machine is an excellent investment for businesses looking for a reliable and durable machine that can produce high-quality cable tray channels. Its key selling point is its long service life, which makes it an ideal choice for businesses that require a machine that can withstand heavy use. With its 22 stations and a PLC system, this machine ensures high precision and accuracy, providing consistent and excellent results.

Features:

Product Name: Cable Tray Roll Forming Machine

Core Components: Motor, Pump, PLC

Capacity: About 10-12m/min

Hydraulic Motor Power: 3kW

Material Width: 200-950mm

Cutter Standard: Cr12Mov

Technical Parameters:

Product Attribute	Value
Product Name	Cable Tray Support Channel Roll Forming Machine
PLC	Siemens
Capacity	About 10-12m/min
Forming Stations	22 Stations
Control	PLC Systems
Key Selling Points	Long Service Life
Controller	PLC System
Core Components	Motor, Pump, PLC
Hydraulic Station Power	7.5KW
Material Width	200-950mm
Cutter Standard	Cr12Mov

Applications:

With a minimum order quantity of just one set, this Cable Tray Channel Roll Forming Machine is perfect for small businesses and large companies alike. It comes with a nude packing in a 40-foot container, making it easy to transport and install on your production line. Delivery time for the Cable Tray Support Channel Roll Forming Machine is 60 workdays, and payment terms can be made through T/T or L/C. With a supply ability of 30 sets per month, you can rest assured that your production line will keep running smoothly. The Cable Tray Channel Roll Forming Machine is designed with a long service life in mind, making it a wise investment for any manufacturing business. It is capable of handling material thicknesses ranging from 1.0-1.5mm galvanized coils and comes equipped with 22 stations for efficient forming.

Featuring a Siemens PLC and a 3kW hydraulic motor power, this Cable Tray Channel Roll Forming Machine is easy to operate and maintain. It is perfect for producing cable trays and support channels for a variety of applications, including electrical wiring, data cables, and more.

Overall, the Cable Tray Roll Forming Machine from Hangzhou Maxwell is a versatile and reliable solution for any business looking to streamline their cable tray and support channel production. Its high-quality construction, efficient design, and easy-to-use controls make it a must-have for any manufacturing operation.

Support and Services:

Our technical support team is available to assist with any issues or questions that may arise during the installation, operation, or

maintenance of the machine. We provide detailed documentation, training, and troubleshooting guides to help our customers get the most out of their investment.

In addition to technical support, we offer a range of services to help our customers maximize their productivity and profitability. Our services include machine customization, spare parts supply, and maintenance contracts. We work closely with our customers to understand their unique requirements and provide tailored solutions that meet their needs.

Packing and Shipping:

Product Packaging:

The Cable Tray Roll Forming Machine will be packed in a wooden case to ensure safe transportation.

Shipping:

The product will be shipped via sea or air cargo depending on the customer's preference and location. We will coordinate with a reliable shipping company to ensure timely and safe delivery.
