

## 0-15m/min Scaffold Plank Roll Forming Machine Manufacturers High Productivity

Our Product Introduction

For more products please visit us on [roll-formermachines.com](http://roll-formermachines.com)

### Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Scaffold board
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

### Product Specification

- Material Of Rollers: GCr15 Bearing Steel With Quench Treatment
- Condition: New
- Key Selling Points: High Productivity
- Rolling Thickness: 1.5-1.8mm
- Work Speed: 0-15m/min
- Power Supply: 380V/50Hz
- PLC: Mitsubishi/ Panasonic/ Siemens
- Type: Tile Forming Machine, Fully Automatic
- Highlight: **15m/min Scaffold Plank Roll Forming Machine, Scaffold Plank Roll Forming Machine Manufacturers, Scaffolding Plank Roll Forming Machine**

## Product Description

### Plank Decking Scaffold Boards Rolling Forming Machine Scaffolding Making Machine

#### Product Description:

The Scaffolding Forming Machine has a power supply of 380V/50Hz, making it suitable for industrial use. The width of the machine is adjustable between 595-600mm, allowing for flexibility in production. The machine weighs 12T, making it sturdy and durable. This Scaffolding Forming Machine is a new model, built with state-of-the-art technology that ensures high productivity and efficiency. The machine is easy to operate and maintain, and it comes with a user-friendly interface that makes it easy to adjust the settings. The Scaffolding Planks Roll Forming Machine is designed to produce high-quality scaffolding planks, which are essential for construction projects. The machine is built to last, with high-quality components that ensure reliability and durability. The machine is also easy to install and requires minimal maintenance, making it a cost-effective solution for construction companies. Overall, the Scaffolding Forming Machine is an excellent investment for construction companies looking to improve their productivity and efficiency. This machine is built to last, with high-quality components and advanced technology that ensures consistent and precise results. The machine is easy to operate and maintain, making it a cost-effective solution for any construction company.

#### Technical Parameters:

Width	595-600mm
Power Supply	380V/50Hz
Type	Scaffolding Planks Roll Forming Machine, Fully Automatic
PLC	Mitsubishi/ Panasonic/ Siemens
Rolling Thickness	1.5-1.8mm
Cutting System	Hydraulic Cutting
Weight	12T
Material of Rollers	GCr15 Bearing Steel With Quench Treatment
Work Speed	0-15m/min
Condition	New

#### Applications:

#### Features:

Product Name: Scaffolding Making Machine

Plc: Mitsubishi/ Panasonic/ Siemens

Width: 595-600mm

Condition: New

Work Speed: 0-15m/min

Cutting System: Hydraulic Cutting

### Applications:

With a minimum order quantity of just one set and the ability to produce up to 30 sets per month, this machine is perfect for any business that requires high volumes of scaffolding planks. The machine is shipped in nude packaging in a 40-foot container and has a delivery time of 60 workdays. Payment terms include T/T and L/C, giving customers flexibility when it comes to payment options.

The Plank Decking Scaffold Boards Roll Forming Machine features a hydraulic cutting system, allowing for precise and clean cuts every time. The machine can roll thicknesses ranging from 1.5-1.8mm, making it suitable for a wide range of applications. The PLC can be customized to meet the specific needs of each customer, with options including Mitsubishi, Panasonic, and Siemens.

The rollers are made from GCr15-bearing steel with quench treatment, making them highly durable and long-lasting. The machine weighs 12T, ensuring stability during operation.

This machine is ideal for a variety of application occasions and scenarios, including construction sites, industrial facilities, and manufacturing plants. It is perfect for businesses that require high volumes of scaffolding planks, as it can produce them quickly and efficiently.

### Support and Services:

The Scaffolding Making Machine product comes with technical support and services to ensure optimal performance and efficiency. Our team of experts is available to assist with any questions or issues related to the machine's operation, maintenance, and repair. We offer regular maintenance services to keep the machine in top condition and minimize downtime. Additionally, we provide training services to help operators become familiar with the machine's functions and safety procedures. Our goal is to provide comprehensive support to ensure the success of your scaffolding production operations.

### Packing and Shipping:

Product Packaging:

The scaffolding-making machine will be securely packaged in a wooden crate.

The crate will be sealed and clearly labeled with the product information.

The packaging will also include any necessary accessories and a user manual.

Shipping:

The scaffolding-making machine will be shipped via sea/air/land depending on the customer's preference and location.

The shipping cost will be calculated based on the destination and weight of the package.

The customer will be provided with a tracking number to monitor the status of their shipment.

The estimated delivery time will be communicated to the customer once the shipment is dispatched.
