

Fully Automatic Scaffolding Board Steel Roll Forming Machine 0-18m/min

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Scaffold board
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Power Supply: 380V/50Hz
- Plc: Mitsubishi/ Panasonic/ Siemens
- Cutting System: Hydraulic Cutting
- Key Selling Points: High Productivity
- Material Of Rollers: GCr15 Bearing Steel With Quench Treatment
- Type: Tile Forming Machine, Fully Automatic
- Rolling Thickness: 1.5-1.8mm
- Work Speed: 0-18m/min
- Highlight: **Automatic Scaffolding Board Steel Roll Forming Machine**

**Scaffolding Board Steel Roll Forming Machine
18m/Min**

Product Description

Productivity Fully Automatic Plank Decking Scaffold Boards Roll Forming Machine

Product Description:

Our Scaffolding Forming Machine is built with durability and precision in mind. It is made with high-grade materials to ensure long-lasting service and is built to withstand heavy usage. With a rolling thickness of 1.5-1.8mm, this machine is capable of producing sturdy and reliable scaffolding products that can withstand heavy loads.

Our machine is also designed to be efficient and easy to use. It weights 12T, making it easy to move around and store when not in use. The rollers are made of GCr15 Bearing Steel with Quench Treatment, ensuring smooth and consistent production of scaffolding products. Our Scaffolding Forming Machine is also equipped with a top-of-the-line programmable logic controller (PLC) system from either Mitsubishi, Panasonic, or Siemens. This allows for easy monitoring and control of the production process, ensuring that each product is of the highest quality.

This machine is also versatile, capable of producing various types of scaffolding products such as Plank decking Scaffold Boards and Roll Forming Machines. Its flexibility allows for the customization of scaffolding products, making it ideal for businesses that require unique or specific scaffolding products.

Our Scaffolding Forming Machine is brand new, ensuring that it is free from any defects or issues that may affect its performance. It also comes with a warranty, giving you peace of mind and assurance that you are getting a high-quality product.

In summary, the Scaffolding Forming Machine is a piece of top-of-the-line equipment that is perfect for businesses looking to manufacture scaffolding products in-house. With a rolling thickness of 1.5-1.8mm, weight of 12T, high-grade materials, and top-notch PLC system, this machine ensures efficient and consistent production of high-quality scaffolding products such as Plank decking Scaffold Boards Roll Forming Machine. Invest in our Scaffolding Forming Machine today and enjoy the benefits of in-house manufacturing.

Technical Parameters:

Width	595-600mm
Power Supply	380V/50Hz
Type	Scaffolding Planks Roll Forming Machine, Fully Automatic
PLC	Mitsubishi/ Panasonic/ Siemens
Rolling Thickness	1.5-1.8mm
Cutting System	Hydraulic Cutting
Weight	12T

Material of Rollers	GCr15 Bearing Steel With Quench Treatment
Work Speed	0-15m/min
Condition	New

Applications:

Features:

Product Name: Scaffolding Making Machine

Material of Rollers: GCr15 Bearing Steel With Quench Treatment

Condition: New

Work Speed: 0-15m/min

Key Selling Points: High Productivity

PLC: Mitsubishi/ Panasonic/ Siemens

Applications:

The Hangzhou Maxwell Plank decking Scaffold Boards Roll Forming Machine is a cutting-edge piece of equipment that is perfect for creating high-quality scaffolding planks. This machine is made in Jiangsu, China, and is certified with both CE and ISO9001. The minimum order quantity for this product is just one set, and it is shipped in a 40-foot container with nude packing. Delivery time is approximately 60 workdays, and payment terms include T/T and L/C. With a supply ability of 30 sets per month, this machine is perfect for those looking to increase their scaffolding plank production.

The Scaffolding Planks Roll Forming Machine is a fully automatic and new piece of equipment that is designed to make the process of creating scaffolding planks as easy as possible. This machine can create high-quality planks quickly and efficiently, thanks to its GCr15 bearing steel rollers that have undergone quench treatment. These rollers can roll thicknesses of between 1.5-1.8mm, ensuring that the planks produced are of the highest quality.

This machine is perfect for a variety of different applications and scenarios. For example, it is ideal for construction companies that need to create scaffolding planks quickly and efficiently. It could also be used by companies that specialize in manufacturing scaffolding planks, as it can help to increase production levels and reduce costs. Additionally, it could be used by companies that rent out scaffolding equipment, as it would allow them to create their planks instead of having to purchase them from another manufacturer. Overall, the Scaffolding Planks Roll Forming Machine from Hangzhou Maxwell is an excellent investment for anyone who needs to create high-quality scaffolding planks quickly and efficiently. With its powerful rollers, fully automatic operation, and high-quality construction, this machine is sure to meet the needs of any company that requires reliable and efficient scaffolding plank production.

Support and Services:

Our Scaffolding Machine is designed with the latest technology to ensure optimal performance and durability. In case of any technical issues, our team of experienced engineers is available to provide technical support and maintenance services. We also offer training and installation services to ensure that our customers can operate the machine safely and efficiently. Additionally, we provide spare parts and accessories to ensure the continuous operation of the machine. Contact us for more information.

Packing and Shipping:

Product Packaging:

The Scaffolding Making Machine will be packaged in a sturdy wooden crate to ensure safe transport and delivery.

Shipping:

The Scaffolding Machine will be shipped via sea or air freight, depending on the customer's preference and urgency. Shipping costs will be calculated based on the destination and weight of the machine. Please contact our customer service for more information and to arrange shipping.
