Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Purlin
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Power Supply: 3-Phase 380V Or Any
- Inverter: Yaskawa/Panasonic
- Key Selling Points: Easy To Operate
- Forming Profile: C Z Purlin 100-300mm
- Cutter Material: Cr12Mov With Quenched
- Roller Stations: 16stands And 7 Levelling Rolls
- Rolling Thickness: 1.5-3.0mm
- Cutting Tool Material: Cr12Mov
- Name: CZU Purlin Roll Forming Machine
- Highlight: **CZU Purlin Roll Forming Machine, 300mm CZU Purlin Machine**

Product Description

Precision C Z U Purlin Machine Easy Operation 16-Stands 7 Levelling Rolls 1.5-3.0mm Cr12Mov Cutter

Product Description:

The Steel Channel Forming Machine is equipped with an inverter that can be either Yaskawa or Panasonic, which ensures stable performance and precise control. This feature makes it easy to operate and adjust the machine to produce high-quality purlins that meet customer specifications.

The Roller Driven Type of this machine is either gearbox or double chain transmission. Both types are designed to provide a smooth and accurate feed of the metal coil into the forming station. This ensures that the purlins are formed with precision and consistency, resulting in a high-quality end product.

The key selling point of this Purlin Roll Forming Machine is its ease of use. The machine is designed to be user-friendly, with simple controls and an intuitive interface. This makes it easy for operators to quickly learn how to operate and maintain the machine, which reduces downtime and increases productivity.

In summary, if you need a reliable and efficient machine for producing C and Z and U purlins, the Steel Channel Forming Machine is the perfect choice. With a range of features that ensure high-quality output and ease of use, this machine is sure to meet all your manufacturing needs.

Features:

Product Name: Purlin Roll Forming Machine

Forming Profile: C Z Purlin 100-300mm

Cutting Tolerance: ± 2 mm

Forming Speed: 0-30m/min

Key Selling Points: Easy To Operate

Rolling Thickness: 1.5-3.0mm

This C Purlin Roll Forming Machine, also known as Steel Channel Forming Machine, can easily form C Z Purlin profiles ranging from 100-300mm with a forming speed of 0-30m/min and cutting tolerance of ± 2 mm. Its key selling point is its user-friendly operation and it can work with rolling thicknesses of 1.5-3.0mm.

Technical Parameters:

Cutting Tolerance	±2mm
Key Selling Points	Easy To Operate
Applicable Industries	Building Material Shops, Machinery Repair Shops, Manufacturing Plant, Construction Works
Cutting Tool Material	Cr12Mov
Rolling Thickness	1.5-3.0mm
Power Supply	3-Phase 380V Or Any
Material of Rollers	GCr15 Bearing Steel With Quench Treatment,HRC58-62
Inverter	Yaskawa/Panasonic
Forming Speed	0-30m/min
Roller Driven Type	Gearbox Or Double Chain Transmission

Applications:

With a minimum order quantity of just 1 set, the Hangzhou Maxwell C Z Purlin Machine is easy to obtain and comes in nude packing in a 40 feet container for your convenience. Its delivery time is also quick, taking only 60 workdays from the time of your order. Payment terms can be made through T/T or L/C, allowing for flexibility in payment options. This Steel Channel Forming Machine has a maximum forming speed of 30m/min and an inverter made by either Yaskawa or Panasonic. It also has a cutting tolerance of $\pm 2\text{mm}$ and can roll thicknesses between 1.5-3.0mm. These features make the Hangzhou Maxwell C Z Purlin Machine a dependable and efficient option for your needs. Overall, the Hangzhou Maxwell C Z Purlin Machine is a great investment for your business. With a supply ability of 30 sets per month, you can trust in its quality and performance to provide you with the results you need.

Support and Services:

The Purlin Roll Forming Machine is a high-performance product designed to efficiently produce high-quality purlins for various applications. Our technical support team is available to assist with any questions or concerns regarding the operation or maintenance of the machine. Our services include:

- Installation and commissioning
- Training for machine operation and maintenance
- Regular machine inspections and maintenance
- On-site repairs and troubleshooting
- Supply of spare parts and components
- Upgrades and modifications to improve machine performance

Our goal is to ensure that our customers can operate their Purlin Roll Forming Machine with confidence and achieve maximum productivity. Please do not hesitate to contact our technical support team for any assistance you may need.

Packing and Shipping:

Product Packaging:

The Purlin Roll Forming Machine will be packaged securely in a wooden crate to ensure that it arrives in perfect condition. The crate will be sealed and marked with appropriate labeling to indicate that it contains delicate equipment. Inside the crate, the machine will be protected with foam padding to prevent damage during transit.

Shipping:

Shipping of the Purlin Roll Forming Machine will be arranged through a reputable courier or freight company. The shipping cost will be calculated based on the delivery location and the weight of the crate. Once the machine has been packaged and prepared for shipping, the courier or freight company will collect it from our warehouse and deliver it to the specified address. A tracking number will be provided so that the customer can monitor the progress of the delivery.
