

Precision C Z Purlin Roll Forming Machine With Yaskawa / Panasonic Inverter

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: CZ Purlin
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Cutter Material: Cr12Mov With Quenched
- Rolling Thickness: 1.5-3.0mm
- Inverter: Yaskawa/Panasonic
- Power Supply: 3-Phase 380V Or Any
- Cutting Tool Material: Cr12Mov
- Forming Profile: C Z Purlin 100-300mm
- Material Of Rollers: GCr15 Bearing Steel With Quench Treatment, HRC58-62
- Roller Stations: 16 stands And 7 Levelling Rolls
- Highlight: Precision C Z Purlin Roll Forming Machine, C Z Purlin Roll Former, ISO9001 C And Z Purlin Machine

Product Description

Precision C Z Purlin Roll Forming Machine With Yaskawa/Panasonic Inverter And GCr15 Steel Rollers

Product Description:

One of the key selling points of this machine is its ease of use. The Purlin Roll Forming Machine is designed with user-friendly controls, making it easy for operators to quickly and efficiently produce high-quality purlin profiles.

Another important feature of this machine is its cutting tolerance. With a cutting tolerance of $\pm 2\text{mm}$, the Purlin Roll Forming Machine ensures precise and accurate cuts every time.

The Purlin Roll Forming Machine is available with either a gearbox or double chain transmission, depending on your specific production needs. Both options deliver reliable and efficient performance, ensuring your production line runs smoothly and efficiently.

Finally, the Purlin Roll Forming Machine is available with a power supply of 3-phase 380V or any other power supply according to your needs. This ensures that the machine can be easily integrated into your existing production line, without the need for costly upgrades or modifications.

Overall, the Purlin Roll Forming Machine is a reliable, efficient, and user-friendly option for producing high-quality C Purlin and Z Purlin profiles. Whether you're running a building material shop, machinery repair shop, manufacturing plant, or construction works, this machine is a great investment that will deliver consistent results and help you meet your production goals.

Features:

Product Name: Purlin Roll Forming Machine

Rolling Thickness: 1.5-3.0mm

Cutter Material: Cr12Mov With Quenched

Applicable Industries: Building Material Shops, Machinery Repair Shops, Manufacturing Plant, Construction Works

Roller Driven Type: Gearbox Or Double Chain Transmission

Inverter: Yaskawa/Panasonic

This Purlin Roll Forming Machine is a versatile machine that can produce various types of purlins including Z Purlin Production Line, Steel Channel Forming Machine, and C Purlin Roll Forming Machine. It is suitable for use in a wide range of industries such as building material shops, machinery repair shops, manufacturing plants, and construction works. The machine's rolling thickness ranges from 1.5mm to 3.0mm, and its cutter material is made of Cr12Mov with quenched. The roller driven type is either gearbox or double chain transmission, and it uses an inverter from either Yaskawa or Panasonic.

Technical Parameters:

Cutting Tool Material	Cr12Mov
Cutting Tolerance	±2mm
Applicable Industries	Building Material Shops, Machinery Repair Shops, Manufacturing Plant, Construction Works
Material of Rollers	GCr15 Bearing Steel With Quench Treatment,HRC58-62
Inverter	Yaskawa/Panasonic
Rolling Thickness	1.5-3.0mm
Forming Speed	0-30m/min
Roller Stations	16stands And 7 Levelling Rolls
Forming Profile	C Z Purlin 100-300mm
Cutter Material	Cr12Mov With Quenched

Support and Services:

The Purlin Roll Forming Machine is a high-quality product that is designed to produce high-quality purlins for use in various construction projects. Our technical support and services team is dedicated to providing our customers with the best possible support to ensure that their machines are always operating at peak performance.

We offer a range of services to support our customers, including:

Installation and commissioning services to ensure that your machine is set up correctly and ready to use

Training services to help your operators and maintenance staff get the most out of your machine

Technical support services to troubleshoot any issues you may be experiencing with your machine

Preventive maintenance services to ensure that your machine is well-maintained and operating efficiently

Repair services to fix any issues that may arise with your machine

Our team of experienced technicians and engineers is always available to help you with any questions or concerns you may have about your Purlin Roll Forming Machine. We are committed to providing you with the highest level of support and service to ensure that your machine is always operating at peak performance.

Packing and Shipping:

Product Packaging:

The Purlin Roll Forming Machine will be securely packaged in a wooden crate to prevent any damage during shipping.

All components and accessories will be properly packed and labeled for easy identification.

User manual and installation instructions will be included in the package.

Shipping:

The Purlin Roll Forming Machine will be shipped via a reliable and reputable freight carrier.

Shipping fees will be calculated based on the delivery destination and weight of the package.

Delivery times may vary depending on the location of the buyer and the carrier's schedule.

A tracking number will be provided to the buyer once the product is shipped.
