

Speed Steel Frame Purlin Machine PLC Controlled Flying Punch Hole Galvanized Steel Production

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Keel machine
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Forming Speed: 40-45m/min Or Faster
- Type: Steel Frame & Purlin Machine
- Key Selling Points: Easy To Operate
- Punching Hole: Flying Punch
- Productivity: Approx 45m/min
- Machine Control System: Fully Auto PLC Controlling
- Cutting Type: Flying Cut (Cut Without Stop)
- Material Type: Galvanized Steel
- Highlight: **Steel Frame Purlin Machine, Frame Purlin Machine PLC Controlled**

Product Description

Speed Steel Frame Purlin Machine PLC Controlled Flying Punch Hole Galvanized Steel Production

Product Description:

One of the key features of this Steel Frame & Purlin Machine is its Flying Cut (Cut Without Stop) technology. This innovative cutting type ensures continuous production without stopping, making the machine highly efficient and reducing downtime. Additionally, the Flying Cut technology ensures precision cutting, providing accurate and clean cuts every time.

Our Metal Stud Roll Forming Machine is also easy to operate, making it an ideal choice for both seasoned professionals and those new to the industry. The machine is designed with user-friendly controls, allowing operators to quickly and easily set up and adjust the machine according to their needs.

With this Track Roll Forming Line and Equipment, you can produce high-quality steel framing and purlins, meeting the industry's demanding standards. The machine is built with durable materials, ensuring long-lasting performance and reliability. The machine's compact design is also ideal for small to medium-sized production spaces, allowing you to save on space while still producing high-quality products.

In summary, our Metal Stud Roll Forming Machine is an ideal Track Roll Forming Line and Equipment for steel framing and purlin production. With its Flying Cut technology, easy-to-use controls, and high-speed productivity, you can produce high-quality steel framing and purlins with ease and efficiency. Invest in our Track Roll Forming Line and Equipment today and take your production to the next level.

Features:

Product Name: Stud and Track Roll Forming Machine

Type: Steel Frame & Purlin Machine

Applicable Industries: Building Material Shops, Machinery Repair Shops, Manufacturing Plant, Construction Works

Key Selling Points: Easy To Operate

Machine Control System: Fully Auto PLC Controlling

Cutting Material: Cr12 Mov

Features:

Track Roll Forming Line and Equipment

Metal Stud Roll Forming Machine

Drywall Profile Roll Forming Machine

Technical Parameters:

Material Type	Galvanized Steel
Type	Steel Frame & Purlin Machine
Rolling Thickness	0.5-1.0mm (Or As Request)
Key Selling Points	Easy To Operate
Cutting Material	Cr12 Mov
Applicable Industries	Building Material Shops, Machinery Repair Shops, Manufacturing Plant, Construction Works
Cutting Type	Flying Cut (Cut Without Stop)
Productivity	Approx 45m/min
Punching Hole	Flying Punch
Machine Control System	Fully Auto PLC Controlling

Applications:

The Forming Speed of the Hangzhou Maxwell Stud and Track Roll Forming Machine is 40-45m/min or faster, which makes it an ideal machine for mass production. The machine is also known as a Furring Channel Roll Forming Machine and can be used in a variety of applications such as metal roofing, wall panels, suspended ceilings, and partition walls. This machine is perfect for those who require high-quality steel frames and purlins that are durable and long-lasting.

The Hangzhou Maxwell Stud and Track Roll Forming Machine is made of high-quality materials such as Cr12 Mov cutting material and galvanized steel material type. The machine control system is fully automated with a PLC controlling system, which ensures that the machine operates efficiently and accurately. With this machine, you can produce steel frames and purlins of various sizes and shapes, which makes it an ideal machine for those who require customized steel frames and purlins.

Overall, the Hangzhou Maxwell Stud and Track Roll Forming Machine is a must-have for anyone in the construction industry who requires

high-quality steel frames and purlins. Its versatility, speed, and accuracy make it an essential tool for any construction project. Whether you're building a new house, a commercial building, or a warehouse, the Hangzhou Maxwell Stud and Track Roll Forming Machine is the perfect solution for all your needs.

Support and Services:

The Stud And Track Roll Forming Machine is designed to produce high-quality metal studs and tracks used in the construction industry. Our product technical support team is available to assist you with any questions or concerns you may have regarding the operation or maintenance of your machine. We offer a range of services, including:

Installation and commissioning of your machine

On-site training for your operators

Regular maintenance and servicing to ensure optimal performance

Repairs and replacement parts as needed

24/7 technical support to address any issues that may arise

Our team of skilled technicians has extensive experience working with roll forming machines and is dedicated to helping you get the most out of your investment. Contact us today to learn more about our product technical support and services.

Packing and Shipping:

Product Packaging:

This Stud And Track Roll Forming Machine will be packaged using high-quality materials to ensure it is protected during transportation. The machine will be securely fastened to a pallet and covered in a protective layer to prevent any damage during shipping.

Shipping:

Shipping will be arranged by our team, and we will work with the best carriers to ensure your Stud And Track Roll Forming Machine is delivered safely and on time. We will provide you with a tracking number so that you can monitor the status of your shipment. Shipping fees may vary depending on your location.
