

Steel Electric Corrugated Steel Panel Roll Forming Machine PLC Control

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Roof Panel
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Application: Roofing And Wall Cladding
- Warranty: 1 Year
- Thickness: 0.3-0.8mm
- Rolling Speed: 10-15m/min
- Control System: PLC
- Material: Steel
- Power Source: Electric
- Cutting Type: Hydraulic
- Name: Corrugated Steel Panel Roll Forming Machine
- Highlight: **Electric Corrugated Steel Panel Roll Forming Machine**

Product Description

Steel Electric Corrugated Panel Wave Sheet Roll Forming Machine With PLC Control 10-15m/Min Rolling Speed 0.3-0.8mm

Product Description:

Our corrugated sheet roll forming mill is designed to produce high-quality corrugated sheets for roofing and wall cladding applications. With a rolling speed of 10-15m/min, you can produce a large quantity of corrugated sheets quickly. Whether you need to produce corrugated sheets for residential or commercial buildings, our machine will do the job effectively.

In addition to our corrugated sheet roll forming mill, we offer a wall panel roll forming unit. This unit is designed to produce wall panels for various applications. With its advanced features and capabilities, you can produce wall panels that are strong, durable, and aesthetically pleasing.

We stand behind the quality of our products, which is why we offer a 1-year warranty on our Roll Former Machines. This means that if any issues arise with your machine within the first year of use, we will take care of it for you at no additional cost.

Overall, our Roll Former Machines are the perfect solution for your roofing and wall cladding needs. With their advanced features, high-quality output, and efficient production process, you can trust that our machines will deliver the results you need for your business.

Features:

Product Name: Corrugated Panel or Wave Sheet Roll Forming Machine

Rolling Speed: 10-15m/min

Cutting Type: Hydraulic

Warranty: 1 Year

Power Source: Electric

Material: Steel

This steel roofing roll former is a durable machine that operates at a rolling speed of 10-15m/min. It features a hydraulic cutting type and a 1-year warranty. The power source for this machine is electric and it is made of high-quality steel material.

Technical Parameters:

Parameter	Value
Product Name	Wall Panel Roll Forming Unit
Material	Steel
Cutting Type	Hydraulic
Voltage	220V
Thickness	0.3-0.8mm
Warranty	1 Year
Rolling Speed	10-15m/min
Power Source	Electric
Control System	PLC
Application	Roofing and Wall Cladding
Product Name	Steel Roofing Roll Former

Applications:

The roll former machines are designed to be used in a variety of applications, including the production of wall panels, roofing sheets, and corrugated sheets. The wall panel roll forming unit is designed to produce high-quality wall panels that are used in a variety of buildings, including commercial and residential buildings. The corrugated sheet roll forming mill is designed to produce high-quality roofing sheets that are used in a variety of industrial and commercial buildings.

The wall panel roll forming unit is perfect for use in applications where a high-quality finish is required. The machine is designed to produce panels that are precise and accurate, ensuring that they fit perfectly and look great. The corrugated sheet roll forming mill is perfect for use in applications where strength and durability are required. The machine is designed to produce sheets that are strong and durable, making them ideal for use in industrial and commercial buildings.

Hangzhou Maxwell Roll Former Machines are available in a range of configurations, making them suitable for use in a variety of applications. The machines are easy to operate and maintain, ensuring that they can be used by operators of all skill levels. The machines are supplied with a 1-year warranty, ensuring that they are reliable and durable.

The roll former machines are available for purchase with a minimum order quantity of 1 set. The machines are shipped in nude packing in a 40 feet container, ensuring that they are well-protected during transport. The delivery time for the machines is 60 workdays, and payment can be made via T/T or L/C.

The Hangzhou Maxwell Roll Former Machines are designed to operate at a frequency of 50Hz and use a hydraulic cutting type. The machines are equipped with a PLC control system and are powered by electricity. The machines have a supply ability of 30 sets per month, ensuring that they are readily available for purchase.

Support and Services:

Our Roll Former Machines are designed to provide reliable and efficient performance for your metal forming needs. We offer comprehensive technical support to assist you with any questions or issues that may arise with your machine.

Our team of experienced technicians is available to provide on-site or remote support to diagnose and resolve any technical problems that may arise. We also offer regular maintenance services to keep your machine running smoothly and minimize downtime.

In addition to technical support, we offer a range of services to help you get the most out of your Roll Former Machine. These include customized training programs, installation and setup assistance, and ongoing consultation to optimize your production processes.

At Roll Former Machines, we are committed to providing exceptional customer service and ensuring your satisfaction with our products. Contact us today to learn more about our technical support and services.

Packing and Shipping:

Product Packaging:

All Roll Former Machines will be packaged securely in wooden crates to prevent damage during transportation.

Each crate will be labeled with the product name, quantity, and handling instructions.

All necessary accessories and parts will be included in the crate.

Shipping:

Shipping will be arranged by the seller and the cost will be included in the product price.

Delivery time will depend on the destination and shipping method chosen.

The buyer is responsible for any customs fees or taxes that may apply.

The seller will provide tracking information and keep the buyer updated on the status of the shipment.
