

## Hydraulic Cut Double Layer Metal Sheet Forming Machine For Steel Roof Tile Making Machine

Our Product Introduction

For more products please visit us on [roll-formermachines.com](http://roll-formermachines.com)

### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Roof Panel
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

### Product Specification

- Roller Stations: 13-18 Stations
- Cutting Method: Hydraulic Cutting
- Power Supply: 380V, 50Hz, 3 Phase
- Tile Type: Colored Glazed Steel
- Cutting Tolerance:  $\pm 2\text{mm}$
- Main Frame Material: 350H Steel
- Material: PPGL; PPGI; AL
- Product Type: Roll Forming Machine
- Highlight: Hydraulic Cut Metal Sheet Forming Machine, Double Layer Metal Sheet Forming Machine

## Product Description

### Hydraulic Cut Double Layer Metal Sheet Roll Forming Machine For Colored Glazed Steel Roof Tile Making Machine

#### Product Description:

The machine has a roller station range of 13-18 stations, which allows for precise and accurate shaping of the metal sheets. The rollers are made of NO.45 Fine Steel with quench treatment, ensuring that they are durable and long-lasting. This material also provides excellent resistance to wear and tear, ensuring that the machine can be used for years without needing to be replaced.

The Metal Sheet Roll Forming Machine uses a roll forming method, which is a highly efficient and precise method of shaping metal sheets. This method involves passing a flat metal sheet through a series of rollers, which gradually shape the sheet into the desired form. The rollers are designed to apply pressure at specific points, allowing for precise shaping and forming of the metal.

The production speed of the Metal Sheet Roll Forming Machine is between 10-15 meters per minute, which can be adjusted to suit your specific requirements. This speed ensures that the machine can produce a high volume of metal sheets in a short period of time, making it ideal for large-scale construction projects.

The Metal Sheet Roll Forming Machine comes with a 1-year warranty, ensuring that you can rely on the machine for all your metal sheet forming needs. This warranty provides peace of mind, knowing that you are covered in case of any defects or issues with the machine.

#### Features:

Product Name: Metal Sheet Roll Forming Machine

Control System: PLC Control

Forming Method: Roll Forming

Product Type: Roll Forming Machine

Roller Material: NO.45 FineSteel With Quench Treatment

Warranty: 1 Year

Keywords:

Glazed tile and corrugated panel Roll Forming Machine

Double layer roof sheet roll forming machine

Double Layer Roll Forming Machine

**Technical Parameters:**

Warranty	1 Year
Material	PPGL;PPGI;AL
Cutting Tolerance	±2mm
Roller Material	NO.45 FineSteel With Quench Treatment
Forming Method	Roll Forming
Product Type	Roll Forming Machine
Cutting Method	Hydraulic Cutting
Main Frame Material	350H Steel
Control System	PLC Control
Roller Stations	13-18 Stations

### Applications:

Our metal sheet roll forming machine is perfect for a variety of application occasions and scenarios. Our double layer roll forming machine is ideal for floor decking and wall panel manufacturing. The machine has a hydraulic cutting method, and the roller material is made from NO.45 fine steel with quench treatment. The cutting tolerance is  $\pm 2\text{mm}$ , and we offer a 1-year warranty on all our machines. If you are in the market for glazed tile and corrugated panel roll forming machines, we have the perfect product for you. Our glazed tile roll forming machine is designed to produce high-quality glazed tiles with ease. Our corrugated panel roll forming machine is perfect for the manufacturing of corrugated panels. Both machines have a cutting tolerance of  $\pm 2\text{mm}$  and come standard with our 1-year warranty. At Hangzhou Maxwell, we pride ourselves on our commitment to quality and customer satisfaction. Our machines are designed to provide you with reliable and efficient manufacturing solutions. Contact us today to learn more about our metal sheet roll forming machines and how they can benefit your business.

### Support and Services:

Our Metal Sheet Roll Forming Machine is a high-quality product designed with advanced technology to provide efficient and reliable performance. We offer comprehensive technical support and services to ensure that our customers get the most out of their investment. Our team of experienced technicians is available to provide installation, training, and maintenance services to ensure that the machine operates at peak performance. We also offer troubleshooting and repair services to address any issues that may arise with the machine. Additionally, we provide regular updates and upgrades to ensure that the machine stays up to date with the latest technology. Contact us for more information on our technical support and services.

### Packing and Shipping:

Product Packaging:

The Metal Sheet Roll Forming Machine will be securely packed in a wooden crate for protection during transportation.

The crate will be sealed and labeled with the necessary shipping information.

Shipping:

The Metal Sheet Roll Forming Machine will be shipped via a reputable freight company.

Customers will be provided with a tracking number to monitor the shipment.

The estimated delivery time will be provided upon request and may vary depending on the destination.
