

## 350H Steel Double Layer Roofing Sheet Roll Forming Machine 380V 50Hz 3 Phase

### Our Product Introduction

For more products please visit us on [roll-formermachines.com](http://roll-formermachines.com)

#### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Roof Panel
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Cutting Tolerance:  $\pm 2\text{mm}$
- Warranty: 1 Year
- Tile Type: Colored Glazed Steel
- Applicable Industries: Hotels, Garment Shops, Building Material Shops, Construction Works, Advertising Company, Manufacturing Plant, Food & Beverage Factory, Retail, Others
- Main Frame Material: 350H Steel
- Product Type: Roll Forming Machine
- Power Supply: 380V, 50Hz, 3 Phase
- Forming Method: Roll Forming
- Highlight: **Steel Double Layer Roofing Sheet Roll Forming Machine**

## Product Description

### Professional Customization 350H Steel Double Layer Roofing Sheet Roll Forming Machine

#### Product Description:

This Double Layer Roll Forming Machine is equipped with a PLC control system that allows you to easily operate and monitor the production process. The machine also comes with a cutting tolerance of  $\pm 2\text{mm}$ , ensuring that your products are produced with high precision and accuracy. Its power supply is 380V, 50Hz, 3 Phase which makes it an ideal machine for use in various countries and regions.

The Metal Sheet Roll Forming Machine can be used to produce a wide range of products such as roofing sheets, wall panels, and other building materials. It is a high-quality machine that is built to last, with durable components and a robust construction that can withstand heavy use and produce consistent results.

This Glazed tile and Trapezoidal panel Roll Forming Machine is easy to operate and maintain, making it an excellent choice for businesses of all sizes. Whether you are a small startup or a large manufacturing plant, this machine is sure to meet your needs and exceed your expectations. So why wait? Invest in the Metal Sheet Roll Forming Machine today and experience the benefits of high-quality and efficient production!

#### Features:

Product Name: Metal Sheet Roll Forming Machine

Tile Type: Colored Glazed Steel

Forming Method: Roll Forming

Product Type: Roll Forming Machine

Control System: PLC Control

Production Speed: 10-15 Meters Per Minute(as Your Require)

Features:

Floor Decking and Wall Panel Double Layer Roll Forming Machine

Floor Decking and Wall Panel Double Layer Roll Forming Machine

Double layer roof sheet roll forming machine

#### Technical Parameters:

Product Type	Roll Forming Machine
Warranty	1 Year
Roller Stations	13-18 Stations
Control System	PLC Control
Production Speed	10-15 Meters Per Minute(as Your Require)
Tile Type	Colored Glazed Steel
Main Frame Material	350H Steel
Cutting Method	Hydraulic Cutting
Applicable Industries	Hotels, Garment Shops, Building Material Shops, Construction Works , Advertising Company,Manufacturing Plant, Food & Beverage Factory, Retail,Others
Roller Material	NO.45 FineSteel With Quench Treatment

### Applications:

The metal sheet roll forming machine is used for crafting roofing sheets, wall panels, and other metal sheets. The machine is designed using NO.45 fine steel with quench treatment for roller material to ensure durability and strength. The forming method used in this machine is roll forming, which is highly efficient and accurate. The main frame material used in the machine is 350H steel, which provides stability and reliability.

The metal sheet roll forming machine is perfect for the production of double layer roof sheet roll forming machine, glazed tile, and corrugated panel roll forming machine. The hydraulic cutting method used in the machine ensures precise cutting with a cutting tolerance of  $\pm 2\text{mm}$ . This cutting method is highly efficient and reduces material wastage. The double layer roof sheet roll forming machine is a popular choice for those looking to create a durable and robust roofing solution. The glazed tile and corrugated panel Roll Forming Machine are ideal for creating roofing sheets with a unique finish.

In conclusion, Hangzhou Maxwell provides high-quality metal sheet roll forming machines that are perfect for creating roofing sheets, wall panels, and other metal sheets. The machines are designed using the latest technology and materials to ensure durability, reliability, and efficiency. The company's commitment to customer satisfaction and quality is evident in their CE and ISO9001 certifications. Order your metal sheet roll forming machine today and experience the high-quality standards from Hangzhou Maxwell.

### Packing and Shipping:

The metal sheet roll forming machine will be securely packed in a wooden crate to prevent any damage during transportation.

All necessary components and accessories will be properly organized and labeled for easy assembly.

The package will include a user manual and installation guide.

Shipping:

The metal sheet roll forming machine will be shipped via a reliable and reputable shipping carrier.

Shipping costs will be calculated based on the destination and weight of the package.

Customers will be provided with a tracking number to monitor the status of their shipment.

Delivery times will vary depending on the destination and shipping option selected.
