

High Speed Double Layer Metal Sheet Roll Forming Machine 16-17 Roller Stations

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Roof Panel
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Name: High-Speed Double Layer Metal Sheet Roll Forming Machine
- Cutting Method: Servo Following Cutting
- Production Speed: 30-40 Meters Per Minute (as Your Require)
- Roller Stations: 16-17 Stations
- Tile Type: Colored Glazed Steel, Q550
- Applicable Industries: Hotels, Garment Shops, Building Material Shops, Construction Works, Advertising Company, Manufacturing Plant, Food & Beverage Factory, Retail, Others
- Cutting Tolerance: $\pm 2\text{mm}$
- Forming Method: Roll Forming
- Highlight: **High Speed Double Layer Roll Forming Machine**

Product Description

High Speed Double Layer Metal Sheet Roll Forming Machine 16-17 Roller Stations Production Speed for Hotels and Garment

Product Description:

The main frame material of this machine is 350H steel, which ensures its strength and durability. It is designed for long-term use and can withstand harsh working conditions. The tile type produced by this machine is colored glazed steel, which is known for its attractive appearance and durability.

The control system of this machine is PLC control, which ensures smooth and efficient operation. It is easy to use and can be easily programmed to suit specific requirements. This makes it ideal for use in a variety of applications.

The roller material used in this machine is GCr15 bearing steel with quench treatment, which ensures the highest quality and durability of the metal sheets produced. This material is known for its strength and resistance to wear and tear, which makes it ideal for use in a range of applications.

In addition to the standard Double Layer Roll Forming Machine, this machine is also capable of producing corrugated panel and wall panel Double Layer Roll Forming Machine. This allows users to produce a wider range of metal sheets to suit their specific needs and requirements.

Overall, the Double Layer Roll Forming Machine is a reliable and versatile machine that is ideal for use in a range of industries. Its high-quality construction materials and advanced control system ensure its durability and efficiency, while its ability to produce a wide range of metal sheets makes it an essential tool for any business that requires high-quality metal sheets.

Features:

Product Name: Double Layer Metal Sheet Roll Forming Machine

Material: PPGL;PPGI;AL

Production Speed: 30-40 Meters Per Minute (as Your Require)

Tile Type: Colored Glazed Steel

Cutting Tolerance: ± 2 mm

Applicable Industries:

Hotels

Garment Shops

Building Material Shops

Construction Works

Advertising Company

Manufacturing Plant

Food & Beverage Factory

[Retail](#)

[Others](#)

Our Metal Sheet Roll Forming Machine features:

[Glazed tile and corrugated panel Roll Forming Machine](#)

[Double layer roof sheet roll forming machine](#)

[Floor Decking and Wall Panel Doble Layer Roll Forming Machine](#)

Technical Parameters:

| | |
|-----------------------|--|
| Roller Material | NO.45 FineSteel With Quench Treatment |
| Warranty | 1 Year |
| Control System | PLC Control |
| Power Supply | 380V, 50Hz, 3 Phase |
| Applicable Industries | Hotels, Garment Shops, Building Material Shops, Construction Works , Advertising Company,Manufacturing Plant, Food & Beverage Factory, Retail,Others |
| Cutting Tolerance | ±2mm |
| Cutting Method | Servo Following Cutting |
| Main Frame Material | 350H Steel |
| Production Speed | 30-40 Meters Per Minute(as Your Require) |
| Product Type | Roll Forming Machine |

Applications:

The Double Layer Roll Forming Machine is perfect for use in the construction industry, where it can be used to produce tiles for roofing and wall cladding. It is also suitable for use in the manufacturing industry, where it can be used to produce a wide range of metal sheets for various applications. The machine is easy to operate and requires minimal maintenance, making it an ideal choice for small and medium-sized businesses.

The Hangzhou Maxwell Double Layer Roof Sheet Roll Forming Machine is available for purchase with a minimum order quantity of 1 set. It is packed in a 40 feet container and delivered within 60 workdays. The payment terms for this machine are T/T and L/C, and the supply ability is 30 sets per month.

The main frame material used in this machine is 350H steel, ensuring that it is strong and durable. The cutting method used is hydraulic cutting, which is fast and precise. This machine is designed to produce colored glazed steel tiles, which are ideal for use in a range of applications. The tiles produced by this machine are of high quality and have a long lifespan.

The Hangzhou Maxwell Double Layer Roof Sheet Roll Forming Machine is a great investment for any business that needs to produce high-quality colored glazed steel tiles. With its reliable performance, ease of use, and low maintenance requirements, this machine is sure to meet the needs of businesses of all sizes and types.

Support and Services:

Our Metal Sheet Roll Forming Machine is designed to provide reliable and efficient performance for your manufacturing needs. If you encounter any technical issues with the machine, our product technical support team is available to assist you in diagnosing and resolving the problem.

In addition to technical support, we also offer a range of services to ensure that your machine is operating at its optimal level. These services include regular maintenance, repair, and replacement of parts as needed.

Our team of experienced technicians will work with you to identify your specific needs and develop a customized service plan that fits your budget and schedule. We are committed to providing the highest level of service and support to help you achieve maximum uptime and productivity with your Metal Sheet Roll Forming Machine.

Packing and Shipping:

Product Packaging:

Our metal sheet roll forming machines are carefully packed to ensure they arrive in pristine condition. They are first wrapped in protective film and then placed in sturdy wooden crates for shipping.

Shipping:

We ship our machines worldwide using reputable carriers. Shipping costs will vary depending on the destination and the weight and dimensions of the machine. Please contact us for a quote.
