

12 Stations PLC Controlled Gutter Downpipe Roll Forming Machine With Hydraulic Cutting And Cr12 Roller

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Downspouts
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Voltage: 380V/50Hz/3Phase
- After-Sales Service: Engineers Available To Service Machinery Overseas
- Roller Material: Cr12
- Control System: PLC
- Product Type: Roll Forming Machine
- Cutting Type: Hydraulic Cutting
- Roller Stations: 12
- Hydraulic Power: 3 KW
- Highlight: **12 Stations Gutter Downpipe Roll Forming Machine**

Product Description

12 Stations PLC Controlled Gutter Downpipe Roll Forming Machine With Hydraulic Cutting And Cr12 Roller

Product Description:

This machine uses Cr12 roller material, which is known for its durability and strength. This ensures that the machine is able to withstand heavy use and produce high-quality downspouts consistently over time. In addition, the machine runs on a voltage of 380V/50Hz/3Phase, making it compatible with most electrical systems.

The cutting system on this roll former machine is hydraulic, which ensures clean and precise cuts every time. This system also allows for easy adjustment of the cutting length, making it easy to produce downspouts of different sizes and shapes.

In addition to its impressive performance features, this Downspout Roll Forming Machine also comes with excellent after-sales service.

Engineers are available to service the machine overseas, ensuring that any issues can be quickly and easily resolved. This provides peace of mind to users, knowing that they can rely on the machine for years to come.

Overall, the Downspout Roll Forming Machine is a top-of-the-line option for anyone looking to produce high-quality downspouts with precision and consistency. Its durable construction, precise cutting system, and excellent after-sales service make it an excellent investment for any business. Whether you are a small business owner or a large-scale manufacturer, this machine is sure to meet your needs and exceed your expectations.

Features:

Product Name: Roll Former Machines

Production Speed: 10-20 Meters Per Minute

Hydraulic Power: 3 KW

Control System: PLC

Cutting Type: Hydraulic Cutting

After-Sales Service: Engineers Available To Service Machinery Overseas

Technical Parameters:

Product Type	Roll Forming Machine
Material Type	Steel
Roller Material	Cr12
Cutting Type	Hydraulic Cutting
Cutting Blade Material	Cr12Mov
Production Speed	10-20 Meters Per Minute
Main Motor Power	5.5 KW
Hydraulic Power	3 KW
Voltage	380V/50Hz/3Phase
Warranty	1 Year

Applications:

The Downsput Roll Forming Machine is perfect for various applications, including industrial, commercial, and residential. It is ideal for producing downspouts that are used for drainage purposes. This machine is capable of producing high-quality downspouts that are durable and long-lasting. It is perfect for use in construction projects, such as buildings, warehouses, and other structures.

This product is suitable for use in various scenarios, such as in the manufacturing industry, construction industry, and sheet metal processing industry. It is perfect for producing downspouts with a high degree of accuracy and precision. With a minimum order quantity of 1 set, this product is perfect for both small and large-scale production projects.

The Downsput Roll Forming Machine comes with a PLC control system, making it easy to operate and control. Its voltage is 380V/50Hz/3Phase, ensuring that it is compatible with most power sources. Its roller material is made of Cr12, which is known for its durability and corrosion resistance.

This product is delivered in nude packing in a 40 feet container, and its delivery time is 60 workdays. Payment terms for this product include T/T and L/C. It has a supply ability of 30 sets per month, making it a reliable and readily available product in the market. It also comes with a 1-year warranty, ensuring that it is free from defects and faults.

Support and Services:

The Roll Former Machines product technical support and services include:

Installation assistance and guidance

Training for machine operation and maintenance

On-site repair and troubleshooting

Replacement parts and upgrades

Technical documentation and manuals

24/7 customer support

Packing and Shipping:

Product Packaging:

The Roll Former Machines will be securely packaged in a custom-made wooden crate to ensure safe transportation. The crate will be durable and able to withstand any external factors during shipping. All necessary precautions will be taken to avoid damage during transit.

Shipping:

We offer worldwide shipping for the Roll Former Machines. Shipping costs will be calculated based on the destination and the weight of the shipment. We have partnered with reliable shipping carriers to ensure timely and efficient delivery. Please allow 3-5 business days for processing and handling of the order before shipment.
