

Cold Rolled Steel Automatic Pallet Racking Roll Forming Machine With Galvanized Steel Tiles

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Upright rack
- Minimum Order Quantity: 1 SET
- Price: USD25000-USD75000
- Packaging Details: Nude Packaging in a 40 feet container
- Delivery Time: 60 work days
- Payment Terms: T/T, L/C
- Supply Ability: 30 sets per month

Product Specification

- Warranty Period: 18 Months
- Cutting Blade: Cr12Mov
- Product Design: Optional
- Color: Blue
- Tile Type: Galvanized Steel
- Total Power: 7.5kw
- Equipment Control Type: Automatic/Semi-automatic
- Material Of Coil: Cold-rolled Steel
- Highlight: Automatic Pallet Racking Roll Forming Machine, ISO9001 Pallet Racking Roll Forming Machine, Automatic Cold Rolled Steel Machine

Product Description

Cold Rolled Steel Automatic Storage Rack Box Beam For Pallet Racking Roll Forming Machine With Galvanized Steel Tiles

Product Description:

The heavy-duty storage rack roll forming mill has a dimension of 11*1.2*1.4m, providing ample space for the production process. The machine has a total power of 7.5kw, making it an energy-efficient option for manufacturing storage racks. The cutting blade of the machine is made of Cr12Mov, a high-quality material known for its durability and resistance to wear and tear, ensuring a long-lasting cutting performance.

This heavy-duty storage rack roll forming mill is ideal for businesses that require a reliable and efficient storage rack roll forming machine. Its high production speed and powerful servo feeding power make it a valuable and time-saving investment for any manufacturing plant. The machine's durable construction and high-quality cutting blade ensure that each storage rack produced is of top-notch quality.

Features:

Product Name: Storage Rack Beam Box Roll Forming Machine

Control Type: Automatic

Color: Blue

Material Of Coil: Cold-rolled Steel

Material: Galvanized Steel

Production Speed: 4-6m/min

Technical Parameters:

Technical Parameter	Description
Product Name	Steel Storage Rack Roll Forming Machine
Total Power	7.5kw
Control Type	Automatic
Cutting Blade	Cr12Mov
Material	Galvanized Steel

Driven Type	Gearbox
Servo Feeding Power	3.0kw
Plc	Panasonic From Japan
Equipment Control Type	Automatic/Semi-automatic
Dimension	11*1.2*1.4m
Warranty Period	18 Months

Applications:

The storage rack roll forming machine is a vital piece of equipment for the production of storage racks. It is used to create the required shape and size of the racks with high precision and accuracy. The machine is capable of producing different types of racks, including heavy-duty racks, medium-duty racks, and light-duty racks. This makes it suitable for a range of storage applications, from small stores to large warehouses.

The storage rack production line equipped with this machine can produce a high volume of racks within a short period, making it a cost-effective solution for businesses. The automatic/semi-automatic control type of the machine ensures that the production process is streamlined and efficient, reducing the need for manual intervention.

Maxwell's storage rack roll forming machine comes with a warranty period of 18 months, giving customers peace of mind and assurance that they are investing in a reliable product. The machine is easy to operate and maintain, making it an ideal choice for businesses of all sizes.

Overall, the storage rack roll forming machine from Hangzhou Maxwell is an excellent choice for businesses looking to increase their storage capacity. Its high-quality construction, efficient operation, and versatility make it a valuable addition to any warehouse or storage facility.

Support and Services:

- Installation and commissioning of the machine
- Training for machine operation and maintenance
- Troubleshooting and repair services
- Regular maintenance and machine upgrades
- Technical support and consultation

Our team of experienced technicians and engineers is dedicated to ensuring that our customers receive the best technical support and services for their Storage Rack Roll Forming Machine.

Packing and Shipping:

Product Packaging:

The machine will be securely packed in a wooden crate to prevent damage during transportation.

All parts and components will be properly labeled and organized for easy assembly.

User manual and installation instructions will be included in the package.

Shipping:

The machine will be shipped via sea or air transport depending on the customer's preference and location.

Shipping costs will be calculated based on the distance and weight of the package.
The customer will be provided with a tracking number to monitor the delivery status of the package.
