

Automatic Ag Panel / R Panel / PBR Roll Former Machines Cr12 Roller With 5.5 KW Main Motor Power

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Roof Panel
- Minimum Order Quantity: 1 Set
- Price: USD8000--USD30000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Product Type: Roll Forming Machine
- Hydraulic Power: 3 KW
- Voltage: 380V/50Hz/3Phase
- After-Sales Service: Engineers Available To Service Machinery Overseas
- Roller Material: Cr12
- Warranty: 1 Year
- Main Motor Power: 5.5 KW
- Production Speed: 10-20 Meters Per Minute
- Highlight: r panel Roll Former Machines,
PBR Roll Former Machines,
Automatic R Panel Roll Forming Machine

Product Description

Automatic Ag Panel Or R Panel Or PBR Panel Roll Forming Machine Cr12 Roller With 5.5 KW Main Motor Power

Product Description:

At a production speed of 10-20 meters per minute, this machine is efficient and can produce large quantities of downspouts in a short amount of time. The PLC control system ensures precision and accuracy in the production process, making sure that every downspout is of the highest quality.

With a one-year warranty, this machine is built to last and is a reliable investment for any business looking to produce high-quality downspouts. The Downspout Roll Forming Machine is easy to use and maintain, making it a great addition to any production line.

Features:

Product Name: Roll Former Machines

Production Speed: 10-20 Meters Per Minute

Main Motor Power: 5.5 KW

Control System: PLC

Roller Stations: 12

After-Sales Service: Engineers Available To Service Machinery Overseas

Our Roll Former Machines are perfect for creating high-quality downspouts with precision and speed. With a production speed of 10-20 Meters Per Minute and a main motor power of 5.5 KW, our machines are reliable and efficient. The PLC control system allows for easy operation and the 12 roller stations ensure accuracy in every roll. Plus, with our after-sales service, you can trust that our engineers will be available to service your machinery overseas.

Technical Parameters:

Product Name	Downspout Roll Forming Machine
Control System	PLC
Cutting Blade Material	Cr12Mov
Roller Stations	12
Warranty	1 Year
Hydraulic Power	3 KW
Material Type	Steel

Roller Material	Cr12
Production Speed	10-20 Meters Per Minute
Voltage	380V/50Hz/3Phase
After-Sales Service	Engineers Available To Service Machinery Overseas

Applications:

The Downspout Roll Forming Machine is ideal for various product application occasions, and scenarios include commercial and residential constructions, gutter and downspout installations, and home improvement projects. This machine is perfect for producing downspouts with a high level of accuracy and consistency, making it a popular choice among contractors, construction companies, and homeowners.

With certifications like CE and ISO9001, customers can be assured of the quality and safety of the product. The minimum order quantity is one set, and packaging is done in a 40 feet container with nude packing. Delivery time is 60 workdays, and payment terms include T/T and L/C.

The Downspout Roll Forming Machine is made of steel, making it durable and long-lasting. The hydraulic power is 3 KW, and the control system is a PLC, which enhances the machine's accuracy and efficiency. The production speed of the machine is 10-20 meters per minute, allowing for the fast and efficient production of downspouts.

Customers who purchase the Downspout Roll Forming Machine from Hangzhou Maxwell are assured of a one-year warranty, giving them peace of mind and confidence in the product. This product's supply ability is 30 sets per month, making it readily available for customers who need it.

Support and Services:

Our Roll Former Machines are designed to meet the highest standards of quality and reliability, but in case you encounter any issues, our technical support team is available to assist you. Our services include:

Phone and email support

On-site repair and maintenance

Replacement parts and accessories

Training and education on machine operation and maintenance

We are committed to ensuring your machine operates at peak performance and efficiency, and our technical support team is dedicated to providing timely and effective solutions to any problems you may encounter.

Packing and Shipping:

Product Packaging:

The Roll Former Machines will be securely packaged in a wooden crate to ensure safe transportation.

All necessary parts and accessories will be included in the package.

The package will also include a user manual and installation guide.

Shipping:

The Roll Former Machines will be shipped via a reputable carrier that specializes in heavy equipment transportation.

Shipping costs will be calculated based on the destination and delivery method selected by the customer.

The estimated shipping time will be provided to the customer at the time of purchase.

Customers will be notified of the shipping status and given a tracking number once their order has been shipped.
