

Semi Automatic Storage Rack Roll Forming Machine 7.5kw With Cr12Mov Cutting Blade

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Upright rack
- Minimum Order Quantity: 1 SET
- Price: USD25000-USD55000
- Packaging Details: Nude Packaging in a 40 feet container
- Delivery Time: 60 work days
- Supply Ability: 30 sets per month

Product Specification

- Material Of Coil: Cold-rolled Steel
- Equipment Control Type: Automatic/Semi-automatic
- Servo Feeding Power: 3.0kw
- Driven Type: Gearbox
- Material: Galvanized Steel
- Warranty Period: 18 Months
- Product Design: Optional
- Cutting Blade: Cr12Mov
- Highlight: **Semi Automatic Storage Rack Roll Forming Machine**
, Storage Rack Roll Forming Machine 7.5kw

Product Description

Semi Automati Storage Rack Upright Pilliar Roll Forming Machine With Cr12Mov Cutting Blade

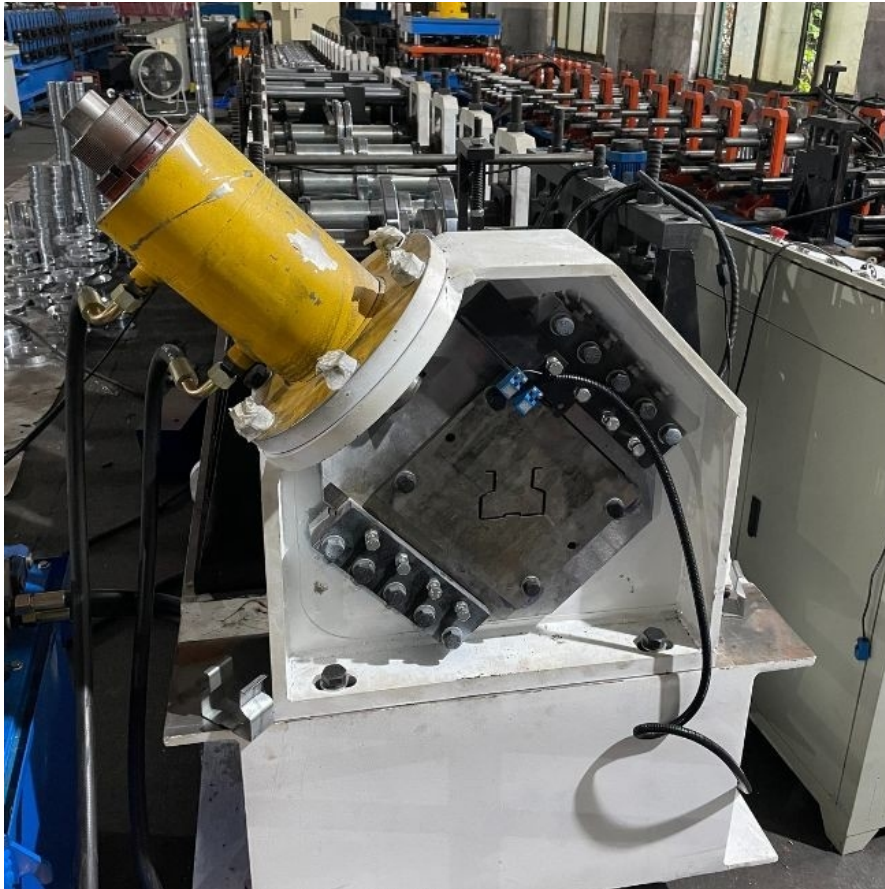

Product Description:

This storage rack roll forming machine is made from high-quality materials and features a galvanized steel tile type that is both durable and long-lasting. The blue color adds a touch of style to the machine, making it a great addition to any industrial storage rack roll forming plant.

The machine is powered by a 7.5kw motor that ensures maximum production speed and efficiency. With a material coil made from cold-rolled steel, the production speed can reach 4-6m/min, which means that you can produce more storage racks in less time.

Our storage rack roll forming machine is easy to operate and requires minimal maintenance. The machine is designed to provide reliable performance, and it is built to last. With its high-quality components, you can be sure that this machine will provide you with the best results.

Overall, our storage rack roll forming machine is an excellent investment for any industrial storage rack roll forming plant. With its durable construction, high-quality components, and reliable performance, it is sure to meet all your production needs. So why wait? Order yours today and start producing high-quality storage racks that will stand the test of time.

Features:

Product Name: Storage Rack Roll Forming Machine

Material: Galvanized Steel

Driven Type: Gearbox

Total Power: 7.5kw

Color: Blue

Tile Type: Galvanized Steel

Features:

Heavy-duty storage rack roll forming mill

Highly durable and reliable

Produces uniform and precise storage rack components

Efficient and easy to operate

Technical Parameters:

Color	Blue
Tile Type	Galvanized Steel

Material Of Coil	Cold-rolled Steel
PLC	Panasonic From Japan
Production Speed	4-6m/min
Dimension	11*1.2*1.4m
Product Design	Optional
Material	Galvanized Steel
Cutting Blade	Cr12Mov
Driven Type	Gearbox

This is a technical parameter table for an industrial storage rack roll forming plant with a blue color and galvanized steel tile type. The material of the coil is cold-rolled steel and the PLC is Panasonic from Japan. The production speed is 4-6m/min and the dimension is 11*1.2*1.4m. The product design is optional and the material is galvanized steel. The cutting blade is Cr12Mov and the driven type is the gearbox.

Applications:

Our storage rack production line is specifically designed to produce steel storage racks quickly and efficiently. The galvanized steel tile type and cutting blade made of Cr12Mov ensure a high-quality finish that is both durable and long-lasting. The blue color of our machines gives them a clean and professional appearance that will fit in with any workspace.

Our steel storage rack roll forming machine is suitable for a wide range of product application occasions and scenarios. It can be used in warehouses, factories, and retail spaces to produce storage racks of various sizes and shapes. These racks can be used to store anything from small items to heavy machinery.

The production speed of our steel storage rack roll forming machine is 4-6m/min, which means that you can produce a large number of racks in a short amount of time. This makes our machines ideal for businesses that need to produce large quantities of storage racks quickly and efficiently.

We offer optional product designs for our steel storage rack roll forming machine, which means that you can customize your machine to meet your specific requirements. This makes our machines versatile and adaptable to any production environment.

In conclusion, Hangzhou Maxwell's steel storage rack roll forming machine is a reliable and efficient solution for businesses that need to produce high-quality storage racks quickly and efficiently. With our machines, you can be sure that your products will be of the highest quality and that you will be able to meet your production targets with ease.

Support and Services:

The Storage Rack Roll Forming Machine product comes with comprehensive technical support and services to ensure optimal performance and minimize downtime. Our team of experienced technicians is available to provide installation, training, and maintenance services to ensure your machine runs smoothly and efficiently. We also offer troubleshooting and repair services to quickly resolve any issues that may arise. In addition, we provide regular software and firmware updates to enhance the functionality and performance of your storage rack roll forming machine.

Packing and Shipping:

Product Packaging:

The Storage Rack Roll Forming Machine will be securely packed in a wooden case to ensure safe transportation. The machine will be wrapped with foam to avoid any damage to the surface during shipping.

Shipping:

Once the order is confirmed, the Storage Rack Roll Forming Machine will be shipped within 30 days. We will use a reputable shipping company to ensure timely delivery. The buyer will be responsible for any additional customs charges and taxes.
