

## Automatic Gearbox PLC Controlled Cold Upright Rack Roll Forming Machine

Our Product Introduction

### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Upright rack
- Minimum Order Quantity: 1 SET
- Price: USD25000-USD75000
- Packaging Details: Nude Packaging in a 40 feet container
- Delivery Time: 60 work days
- Payment Terms: T/T, L/C
- Supply Ability: 30 sets per month

### Product Specification

- Tile Type: Galvanized Steel
- Plc: Panasonic From Japan
- Driven Type: Gearbox
- Production Speed: 4-6m/min
- Material Of Coil: Cold-rolled Steel
- Product Design: Optional
- Equipment Control Type: Automatic/Semi-automatic
- Total Power: 7.5kw
- Highlight: **Cold Upright Rack Roll Forming Machine, PLC Controlled Upright Rack Roll Forming Machine**

## Product Description

### Automatic Gearbox PLC Controlled Cold Upright Rack Rolled Steel Roll Forming Machine For Optimal Production Speed

#### Product Description:

The storage rack production line is equipped with automatic or semi-automatic equipment control, providing ease of operation and efficiency. With the use of galvanized steel tiles, the storage racks produced by this roll forming machine have a high level of durability and resistance to corrosion, ensuring a long lifespan.

Furthermore, this storage rack roll forming machine comes with a warranty period of 18 months, giving customers peace of mind in the event of any defects or issues. The machine's robust construction and reliable performance make it an excellent investment for any business in need of a storage rack production line.

#### Features:

Product Name: Storage Rack Roll Forming Machine

Servo Feeding Power: 3.0kw

Dimension: 11\*1.2\*1.4m

Material Of Coil: Cold-rolled Steel

Color: Blue

Control Type: Automatic

This industrial storage rack roll forming plant is perfect for producing high-quality steel storage racks. With a servo feeding power of 3.0kw, the storage rack roll forming machine can efficiently produce racks in dimensions of 11\*1.2\*1.4m. The machine is designed to work with cold-rolled steel coils and comes in a sleek blue color. It is fully automatic and controlled for ease of use.

#### Technical Parameters:

Product Name	Heavy-duty Storage Rack Roll Forming Mill
Material	Galvanized Steel
Production Speed	4-6m/min
PLC	Panasonic from Japan
Servo Feeding Power	3.0kw
Control Type	Automatic
Equipment Control Type	Automatic/Semi-automatic
Color	Blue
Warranty Period	18 Months
Driven Type	Gearbox
Tile Type	Galvanized Steel

### Applications:

The storage rack roll forming machine is suitable for a range of product application occasions and scenarios. For example, it can be used in large warehouses and distribution centers to create heavy-duty storage racks that can hold large amounts of inventory. It can also be used in small businesses and retail stores to create customized storage solutions that are tailored to the specific needs of the business. The automatic control type of this machine makes it easy to operate and ensures that the production process is efficient and accurate. The servo feeding power of 3.0kw ensures that the material is fed into the machine smoothly and accurately, resulting in a high-quality finished product.

Whether you are setting up an industrial storage rack roll forming plant or simply need to produce storage racks for your business, the Hangzhou Maxwell Storage Rack Roll Forming Machine is an excellent choice. With both automatic and semi-automatic equipment control options, you can choose the level of control that best suits your needs.

### Support and Services:

Our Storage Rack Roll Forming Machine is designed and manufactured to meet the highest quality standards. Our technical support team is available to assist with any issues or questions you may have regarding the product, including installation, troubleshooting, and maintenance.

In addition, we offer various services to ensure the optimal performance and longevity of your Storage Rack Roll Forming Machine, such as:

Regular maintenance and inspection

On-site training for operators and maintenance personnel

Upgrades and retrofits to improve performance and efficiency

Replacement parts and components

24/7 emergency support

Our goal is to provide you with the best possible service and support to ensure that your Storage Rack Roll Forming Machine operates at its best for years to come.

### Packing and Shipping:

Product Packaging:

The storage rack roll forming machine will be securely packaged in a wooden crate to ensure safe transport.

All parts and accessories will be included in the package.

The package will be labeled clearly with the product name, model number, and shipping information.

Shipping:

The storage rack roll forming machine will be shipped via a reliable carrier service.

Shipping costs will be determined based on the destination and weight of the package.

Customers will be provided with a tracking number to monitor their shipment.

Delivery times may vary depending on the destination and carrier service.
