Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Upright rack
- Minimum Order Quantity: 1 SET
- Price: USD25000-USD75000
- Packaging Details: Nude Packaging in a 40 feet container
- Delivery Time: 60 work days
- Supply Ability: 20 sets per month

Product Specification

- Driven Type: Gearbox
- Material Of Coil: Cold-rolled Steel
- Servo Feeding Power: 3.0kw
- Cutting Blade: Cr12Mov
- Color: Blue
- Plc: Panasonic From Japan
- Warranty Period: 18 Months
- Total Power: 7.5kw
- Highlight: **7.5kw Storage Rack Roll Forming Machine, Blue Storage Rack Roll Forming Machine**

Product Description

7.5kw Blue Gearbox Steel Fence Post Storage Rack Roll Forming Machine With Panasonic PLC

Product Description:

Our Storage Rack Roll Forming Machine comes with advanced equipment control options, allowing you to choose between automatic or semi-automatic operation modes. This feature provides flexibility and convenience, enabling you to choose the level of automation that suits your production requirements and preferences.

Another impressive feature of our Storage Rack Roll Forming Machine is its production speed. With a speed of 4-6 meters per minute, it can produce high-quality storage racks at a fast pace, ensuring that you meet your deadlines and production targets. This feature makes our machine an ideal investment for businesses that require high-volume storage rack production.

Our Storage Rack Roll Forming Machine comes in a striking blue color, making it easy to identify and stand out in your production line. Additionally, we offer product design options, allowing you to customize the machine to your company's branding and style. This feature provides you with the flexibility to create a unique and personalized machine that aligns with your business's identity.

Investing in our Storage Rack Roll Forming Machine is a smart business decision that guarantees long-lasting and high-quality production. With its impressive size, equipment control options, production speed, and customizable design, our machine is the perfect solution for businesses that require efficient and reliable heavy-duty storage rack roll forming production.

Features:

Product Name: Storage Rack Roll Forming Machine

Color: Blue

Control Type: Automatic

Servo Feeding Power: 3.0kw

Tile Type: Galvanized Steel

Dimension: 11*1.2*1.4m

This heavy-duty storage rack roll forming mill is the perfect storage rack production line solution for your business.

Technical Parameters:

Product Design	Optional
Color	Blue
Servo Feeding Power	3.0kw
Warranty Period	18 Months
Dimension	11*1.2*1.4m

Material	Galvanized Steel
Total Power	7.5kw
Plc	Panasonic From Japan
Material Of Coil	Cold-rolled Steel
Cutting Blade	Cr12Mov

Applications:

Our storage rack roll forming plant is located in Zhejiang, China, where we use the latest technology and equipment to manufacture our products. Our roll forming machines are available in different designs to suit the specific needs and requirements of our customers. Our storage rack production line is equipped with automatic and semi-automatic controls to ensure precision and accuracy in the manufacturing process. The equipment control type can be selected based on the customer's preference and production requirements. The material of the coil used in our storage rack roll forming machine is cold-rolled steel, which is highly durable and resistant to corrosion. The blue color of our machines gives them a professional and modern look that is suitable for any production facility. Our storage rack roll forming machine has a production speed of 4-6m/min, which allows for fast and efficient production of storage racks. This makes it an ideal choice for businesses that require high-volume production of storage racks. The product application occasions and scenarios for our storage rack roll forming machine are vast. It is suitable for warehouses, factories, distribution centers, and other industrial and commercial facilities that require storage solutions. Our machines can produce a wide range of storage racks, including pallet racks, cantilever racks, drive-in racks, and more. In conclusion, Hangzhou Maxwell's storage rack roll forming machine is a reliable and efficient solution for businesses that require high-quality storage racks. With our advanced technology and equipment, we can provide our customers with a storage rack production line that meets their specific needs and requirements.

Support and Services:

The Storage Rack Roll Forming Machine is a high-performance equipment designed to produce storage racks with high precision and efficiency. To ensure the optimal performance of the machine, we offer comprehensive technical support and services, including:

- Installation and commissioning: Our team of experts will install and commission the machine at your site and ensure that it is running smoothly.
- Training: We provide training to your operators to help them understand the machine's operation, maintenance, and troubleshooting.
- Maintenance: We offer regular maintenance services to ensure the machine is in good condition and avoid unexpected breakdowns. We also provide spare parts as needed.
- Technical support: Our technical support team is available 24/7 to assist you with any issues you may encounter with the machine.

With our reliable technical support and services, you can have peace of mind knowing that your Storage Rack Roll Forming Machine will operate at its best and deliver high-quality products consistently.

Packing and Shipping:

Product Packaging:

The storage rack roll forming machine is securely packed and wrapped with protective materials to prevent any damage during transportation.

The machine is placed in a wooden crate and then sealed for additional protection.

The packaging also includes a user manual and necessary tools for easy assembly upon arrival.

Shipping:

The storage rack roll forming machine is shipped via a reliable and efficient courier service.

The shipment is insured to cover any possible damages during transit.

The estimated delivery time will be provided upon purchase and may vary depending on the destination.

We provide tracking information so you can monitor the status of your shipment.
