

GCr15 Roller 50Hz Solar Strut Channel Roll Forming Machine PLC Controlled

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Solar Strut Channel
- Minimum Order Quantity: 1 Set
- Price: USD15000-USD35000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Forming Stations: 16
- Control System: PLC
- Frequency: 50Hz
- Main Motor Power: 7.5KW
- Voltage: 380V
- Weight: About 8.5T
- Hydraulic Motor Power: 3KW
- Roller Material: GCr15
- Highlight: **50Hz Solar Strut Channel Roll Forming Machine**

Product Description

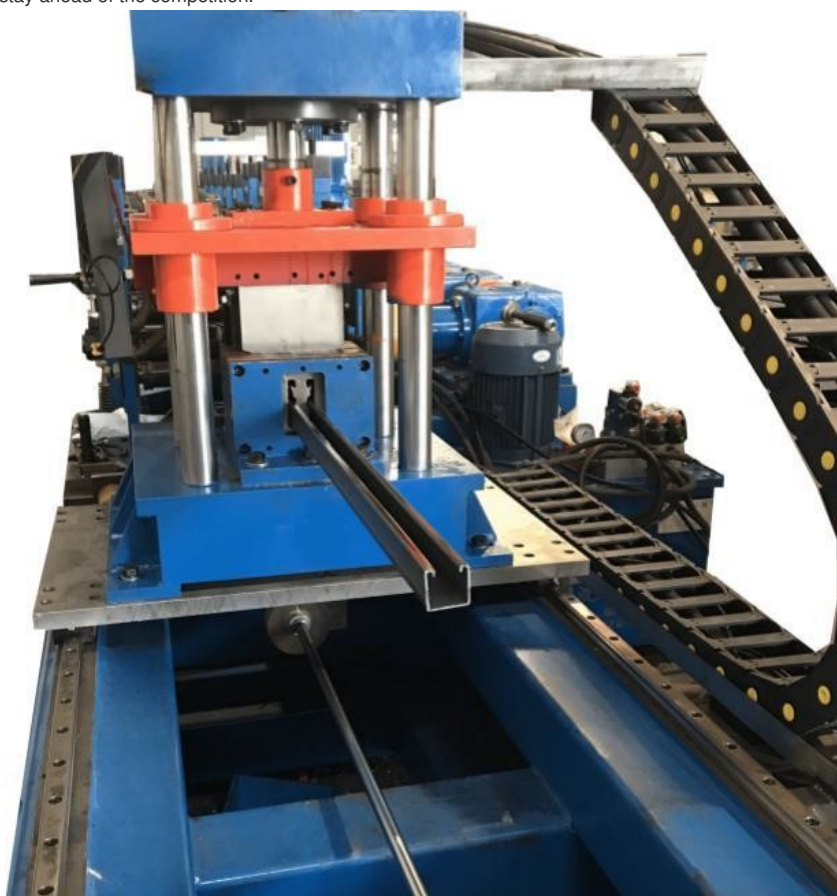

GCr15 Roller 50Hz PLC Controlled Solar Strut Channel Roll Forming Machine

Product Description:

With 16 forming stations, the Solar Panel Strut Channel Roll Former can efficiently produce solar strut channels with precision and accuracy. The frequency of this roll forming machine is 50Hz, making it reliable and consistent in its performance.

The Solar Panel Strut Channel Roll Former is easy to operate, making it a great addition to any solar panel manufacturing facility. Its steel construction ensures durability and longevity, so you can rely on this Solar Strut Channel Sheet Roll Forming Equipment for years to come.

This Solar Panel Strut Channel Roll Former is a great investment for any solar panel manufacturer looking to increase their production efficiency. With its high forming speed and precision, the Solar Panel Strut Channel Roll Former can help you meet your production goals and stay ahead of the competition.

Features:

Product Name: Solar Strut Channel Roll Forming Machine

Material: Steel

Phase: 3

Voltage: 380V

Weight: About 8.5T

Roller Material: GCr15

Technical Parameters:

Product Name	Solar Panel Strut Channel Roll Former
--------------	---------------------------------------

Main Motor Power	7.5KW
Hydraulic Motor Power	3KW
Cutting Blade Material	Cr12Mov
Forming Stations	16
Forming Speed	10-15m/min
Control System	PLC
Frequency	50Hz
Voltage	380V
Power	380V/50Hz/3Ph
Weight	About 8.5T

Applications:

The Solar Strut Channel Roll Forming Machine is designed to meet the needs of various industrial applications such as solar panel mounting systems, construction, and electrical installations. It can produce different sizes and shapes of strut channels that are suitable for different photovoltaic system installations. The machine is made using high-quality steel material that ensures its durability and longevity.

The Solar Strut Channel Roll Forming Machine comes with a hydraulic motor power of 3KW and a cutting type of hydraulic cutting. This makes the machine highly efficient and precise in its operations. The machine runs on a power supply of 380V/50Hz/3Ph, making it suitable for use in different countries and regions.

The Solar Strut Channel Roll Forming Machine has a minimum order quantity of 1 set, and the packaging details are nude packing in a 40 feet container. The delivery time for the machine is 60 workdays, and the payment terms are T/T and L/C. The supply ability of the machine is 30 sets per month, making it readily available for industrial applications.

The Photovoltaic Strut Channel Roll Forming Machine is suitable for various application occasions and scenarios. Its high efficiency and precision make it ideal for use in large-scale solar panel mounting systems, construction sites, and electrical installations. The machine can produce strut channels of different sizes and shapes, making it highly versatile and adaptable to different industrial applications.

Support and Services:

The Solar Strut Channel Roll Forming Machine is designed to produce high-quality strut channels for the solar industry. It comes equipped with advanced technology and features to ensure consistent and precise production. Our product technical support and services include:

- Installation and setup assistance for the machine
- Training on how to operate and maintain the machine
- Technical troubleshooting and repair services
- Regular maintenance and check-ups to ensure optimal performance
- Upgrades and customization options to meet specific customer needs

Our team of experienced technicians is dedicated to providing top-notch support and services to ensure your Solar Strut Channel Roll Forming Machine operates at its best. Contact us for more information.

Packing and Shipping:

Product Packaging:

The Solar Strut Channel Roll Forming Machine is securely packed in a wooden crate.

The crate is then wrapped in a layer of plastic film to protect it from dust and moisture during transportation.

The crate is labeled with the product name, model number, and shipping address for easy identification.

Shipping:

The Solar Strut Channel Roll Forming Machine will be shipped via sea or air depending on the customer's preference.

The shipping cost will be calculated based on the product weight, shipping method, and destination.

The customer will be provided with a tracking number to monitor the shipment status.

The estimated delivery time will depend on the shipping method and destination.
