

Powerful 7.5KW Gutter Downspout Roll Forming Machine With GCr15 Bearing Steel Rollers

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Gutter Downspout
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Control System: PLC
- Warranty: 1 Year
- Main Motor Power: 7.5KW
- Applicable Industries: Building Material Shops, Manufacturing Plant, Construction Works, Other
- Roller Material: GCr15 Bearing Steel With Quench Treatment, HRC58-62
- Thickness: 0.4-0.8mm
- Shaft Material: NO.45 Fine Steel
- Speed: 15m/min
- Highlight: **Powerful Gutter Downspout Roll Forming Machine**
,
7.5KW Gutter Downspout Roll Forming Machine

Product Description

Powerful 7.5KW PLC Controlled Round Gutter Downspout Roll Forming Machine with GCr15 Bearing Steel Rollers

Product Description:

This machine has 23-26 forming stations, ensuring the final product is accurate and consistent. The control system is a PLC, which guarantees a smooth and precise operation, making it easy to adjust the machine according to the desired specifications.

The thickness of the material used in this machine ranges from 0.4mm to 0.8mm, which means that it can handle a wide range of materials, from light to heavy gauge. The shaft material is made of NO.45 fine steel, giving the machine strength and durability.

One of the best features of this machine is its after-sales service. Engineers are available to service the machine overseas, which means that customers can have peace of mind knowing that their investment is protected. The service team is highly trained and knowledgeable, which ensures that any problems can be resolved quickly and efficiently.

In summary, the Round Downspout Roll Forming Machine is the perfect solution for anyone looking to produce high-quality downspouts and elbows. With its advanced features, such as the PLC control system, precise forming stations, and durable construction, this machine is sure to provide years of reliable service for your business.

Features:

Product Name: Gutter Downspout Roll Forming Machine

Control System: PLC

Applicable Industries: Building Material Shops, Manufacturing Plant, Construction Works, Other

Speed: 15m/min

Warranty: 1 Year

Color: Customizable

Introducing the Square metal downspout roll forming machine, perfect for creating custom metal rain gutters with ease. With a PLC control system, this machine is suitable for use in various industries including building material shops, manufacturing plants, construction works, and more. It operates at a speed of 15m/min and comes with a 1-year warranty. Choose your own customizable color to fit your specific needs.

Technical Parameters:

Good price Good quality Round Downspout round pipe roll forming machine		
1. Formed Material	PPGI,GI,Al,GL	Thickness:0.4-0.8mm Downspout size:Ø100,support customization

2. Decoiler	Hydraulic automatic decoiler	Manual decoiler(will give you as free)
3. Main body	Roller station	19 rows with a series of vertical rollers
	Diameter of shaft	70mm solid shaft
	Material of rollers	45# steel, hard chrome plated on the surface
	Machine body frame	350 H steel
	Drive	Chain transmission
	Dimension(L*W*H)	11000*900*1100(customize)
	Weight	4.5T
4. Cutter	Automatic	cr12mov material, no scratches, no deformation
5. Power	Motor Power	7.5 KW
	Hydraulic system power	5.5 KW
6. Voltage	380V 50Hz 3Phase	As your requirement
7. Control system	Electric Box	Customized(famous brand)
	Language	English(Support multiple languages)
	PLC	Automatic production of the whole machine. Can set batch, length, quantity, etc.
18. Forming Speed	15-20m/min	The speed is adjustable

Applications:

The Gutter Downspout Roll Forming Machine is highly durable and customizable. It is made of galvanized steel coils that guarantee its long-lasting use. With 23-26 forming stations, it ensures the accuracy and precision of the products. The machine is designed to make the production process easy and fast, ensuring a high level of productivity. The main motor power of 7.5KW ensures the machine operates with high efficiency.

This machine is suitable for various occasions and scenarios. It is perfect for industries that require the production of gutters, downspouts, and connectors. It can be used in construction sites, warehouses, factories, and other related fields. This machine is highly sought after in the market, and the minimum order quantity is only one set. The packaging details are nude packing in a 40 feet container, and the delivery time is 60 workdays.

The payment terms are flexible and include T/T and L/C. The supply ability of the machine is 30 sets per month, making it readily available for customers. The machine comes with a warranty of one year, ensuring the customers' satisfaction. The color of the machine is customizable, ensuring it matches the customer's preferences and needs.

In conclusion, the Gutter Downspout Roll Forming Machine is an excellent investment for industries that require the production of gutters, downspouts, and connectors. It is highly durable, customizable, and easy to use, making it a perfect choice for customers. It is readily available, highly sought after, and comes with a flexible payment plan, making it accessible to all customers.

Support and Services:

The Gutter Downspout Roll Forming Machine is a high-quality product designed to produce seamless gutters and downspouts for residential and commercial use. It is equipped with advanced technology and features to ensure smooth operation and accurate results. Our technical support team is available to assist with any questions or issues that may arise during installation or operation of the machine.

In addition to technical support, we also offer a range of services to ensure the optimal performance and longevity of your Gutter Downspout Roll Forming Machine. These services include regular maintenance, repairs, and replacement of parts as needed. Our team of experienced technicians is equipped with the knowledge and tools to keep your machine running smoothly and efficiently. With our commitment to quality and customer satisfaction, you can trust that your Gutter Downspout Roll Forming Machine will meet your production needs and exceed your expectations.

Packing and Shipping:

Product Packaging:

The Gutter Downspout Roll Forming Machine will be securely packaged in a wooden crate.

The crate will be sealed and clearly labeled with the product name and handling instructions.

All necessary components and accessories will be included in the package.

Shipping:

The product will be shipped via a trusted and reliable shipping carrier.

The shipping cost will be determined based on the destination and weight of the package.

The estimated shipping time will be provided to the customer upon order confirmation.

The customer will be notified with the tracking number once the product is shipped.
