

Customized PLC Controlled Downspout Roll Forming Machine With 23-26 Stands

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Gutter Downspout
- Minimum Order Quantity: 1 Set
- Price: USD15000--USD30000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Control System: PLC
- Color: Customizable
- Applicable Industries: Building Material Shops, Manufacturing Plant, Construction Works, Other
- Speed: 15m/min
- Thickness: 0.4-0.8mm
- Forming Stations: 23-26 stands
- Warranty: 1 Year
- Shaft Material: NO.45 Fine Steel
- Highlight: Customized Downspout Roll Forming Machine, PLC Controlled Downspout Roll Forming Machine

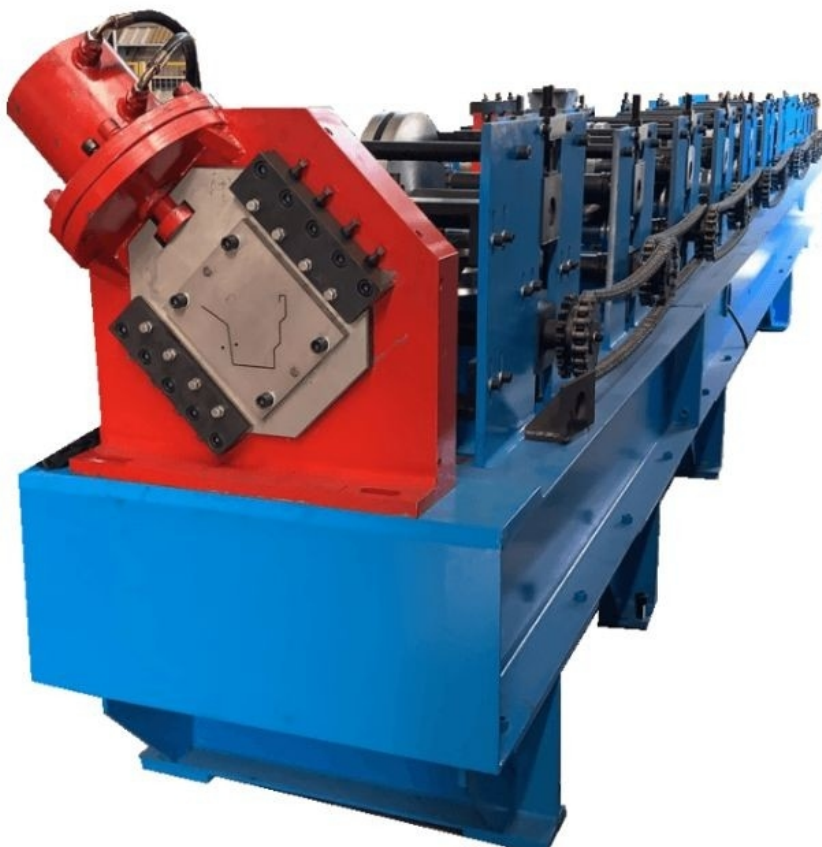

Product Description

Customizable PLC Controlled Downspout Roll Forming Machine With 23-26 Stands

Product Description:

The main motor power of the Gutter Downspout Roll Forming Machine is 7.5KW, providing the necessary power to form the galvanized steel coils into the desired shape. The machine is also customizable, allowing you to choose the color that best matches your business or client's needs. The machine's shaft material is made of NO.45 fine steel, ensuring durability and longevity for your investment. Whether you're looking to produce square metal downspouts, half-round gutters, or square gutter downpipes and connectors, the Gutter Downspout Roll Forming Machine is a reliable and efficient option. With its customizable color options, durable materials, and range of thickness capabilities, this machine is an excellent investment for businesses in the construction and roofing industries.

Features:

Product Name: Gutter Downspout Roll Forming Machine

Color: Customizable

Main Motor Power: 7.5KW

Control System: PLC

Speed: 15m/min

After-Sales Service: Engineers Available To Service Machinery Overseas

Product Features:

Round downspout roll forming machine

Square metal downspout roll forming machine

Technical Parameters:

Rain Gutter Making Machine Roll Forming Machine		
1. Formed Material	PPGI,GI,Al,GL	Thickness:0.4-0.8mm
2. Decoiler	Hydraulic automatic decoiler	Manual decoiler(will give you as free)
3. Main body	Roller station	22 rows with a series of vertical rollers

	Diameter of shaft	70mm solid shaft
	Material of rollers	45# steel, hard chrome plated on the surface
	Machine body frame	350 H steel
	Drive	Chain transmission
	Dimension(L*W*H)	14500*900*1100(customize)
	Weight	7T
4. Cutter	Automatic	cr12mov material, no scratches, no deformation
5. Power	Motor Power	7.5 KW
	Hydraulic system power	5.5 KW
6. Voltage	380V 50Hz 3Phase	As your requirement
7. Control system	Electric Box	Customized(famous brand)
	Language	English(Support multiple languages)
	PLC	Automatic production of the whole machine. Can set batch, length, quantity, etc.
18. Forming Speed	15-20m/min	The speed is adjustable

Applications:

This roll forming machine is designed to produce downspout and elbow products that are essential for every building. It can also produce square gutter downpipe and connector roll forming machine products with ease. This makes it a versatile machine that can cater to different customer needs.

The Square Gutter Downpipe and Connector Roll Forming Machine is suitable for various occasions and scenarios. It can be used in construction sites, roofing contractors, and gutter installation services. This machine is also perfect for those who want to start their own business and manufacture downspout and gutter products.

This roll forming machine has 23-26 stands that make it efficient and fast in producing high-quality products. It also comes with a customizable color feature that allows the customer to choose their desired color. The control system of this machine is made up of a PLC system that ensures precise and accurate production.

The shaft material of the Square Gutter Downpipe and Connector Roll Forming Machine is made up of NO.45 fine steel, which is durable and long-lasting. The packaging details of this product are nude packing in a 40 feet container, and the delivery time is 60 workdays. The payment terms for this product are T/T or L/C, and the supply ability is 30 sets per month.

Support and Services:

The Gutter Downspout Roll Forming Machine is designed to produce high-quality, seamless downspouts for residential and commercial buildings. Our technical support and services for this product include:

Installation and setup assistance

Training for operators and maintenance personnel

Regular maintenance and inspection services

Repairs and replacement of parts

Technical troubleshooting and support

Customization options for specific project needs

Our team of experts is dedicated to ensuring that your Gutter Downspout Roll Forming Machine operates efficiently and reliably for years to come. Contact us today to learn more about our technical support and services.

Packing and Shipping:

Product Packaging:

The Gutter Downspout Roll Forming Machine will be securely packed in a wooden crate to prevent any damage during transportation.

All components and accessories will be properly wrapped and cushioned to ensure they arrive in pristine condition.

Shipping:

The product will be shipped via a reliable and reputable carrier.

Shipping costs will be calculated based on the destination and weight of the product.

Delivery times may vary depending on the shipping method chosen and the destination.
