

15m/Min Galvanized Steel Round Downspout Machine Customizable Color

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Gutter Downspout
- Minimum Order Quantity: 1 Set
- Price: USD18000--USD25000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- After-Sales Service: Engineers Available To Service Machinery Overseas
- Warranty: 1 Year
- Speed: 15m/min
- Color: Customizable
- Voltage: 380V/50Hz/3Phase
- Control System: PLC
- Material: Galvanized Steel Coils
- Thickness: 0.4-0.8mm
- Highlight: **15m/Min Round Downspout Machine, Galvanized Steel Round Downspout Machine**

Product Description

Galvanized Steel Round Downspout Roll Forming Machine PLC Control 15m/Min Speed Customizable Color

Product Description:

The machine is made from high-quality materials that ensure its durability and longevity. The roller material is made from GCr15 Bearing Steel with Quench Treatment, which has a hardness of HRC58-62. This ensures that the machine is strong and can withstand heavy usage over time. Additionally, the material used for the machine is Galvanized Steel Coils, which is known for its strength and durability. The Gutter Downspout Roll Forming Machine is designed to produce products with a thickness of 0.4-0.8mm. This ensures that the products produced are of high quality and are suitable for use in various applications. The machine is also designed to produce Half Round Gutter Roll Forming Machine and Metal Rain Gutter Roll Forming Machine, making it versatile and suitable for use in various industries.

One of the key features of this machine is its after-sales service. Engineers are available to service machinery overseas, ensuring that the machine is well-maintained and continues to function optimally over time. This gives users peace of mind and ensures that the machine remains an asset to their business for years to come.

In summary, the Gutter Downspout Roll Forming Machine is a high-quality and versatile machine that is designed to produce high-quality downspout and elbow products. The machine is made from high-quality materials that ensure its durability and longevity, and it is designed to produce products with a thickness of 0.4-0.8mm. It is also suitable for use in various industries, including building material shops, manufacturing plants, construction works, and others. With its after-sales service, users can be assured that the machine will continue to function optimally over time, making it a valuable asset to their business.

Features:

Product Name: Gutter Downspout Roll Forming Machine

Color: Customizable

Voltage: 380V/50Hz/3Phase

Control System: PLC

Roller Material: GCr15 Bearing Steel With Quench Treatment,HRC58-62

Shaft Material: NO.45 Fine Steel

Features:

Half round gutter roll forming machine

Metal rain gutter roll forming machine

Downspout and elbow roll forming machine

Technical Parameters:

Rain Gutter roll forming machine ISO CE certification		
1.Formed Material	PPGI,GI,Al,GL	Thickness:0.4-0.8mm
2.Decoiler	Hydraulic automatic decoiler	Manual decoiler(will give you as free)
3.Main body	Roller station	18 rows with a series of vertical rollers
	Diameter of shaft	70mm solid shaft
	Material of rollers	45# steel, hard chrome plated on the surface
	Machine body frame	350 H steel
	Drive	Chain transmission
	Dimension(L*W*H)	9200*1000*1200(customize)
	Weight	4.5T
4.Cutter	Automatic	cr12mov material, no scratches, no deformation
5.Power	Motor Power	5.5 KW
	Hydraulic system power	5.5 KW
6.Voltage	380V 50Hz 3Phase	As your requirement
7.Control system	Electric Box	Customized(famous brand)
	Language	English(Support multiple languages)
	PLC	Automatic production of the whole machine. Can set batch, length, quantity, etc.
18.Forming Speed	15-20m/min	The speed is adjustable

Applications:

This Gutter Downspout Roll Forming Machine is both CE and ISO9001 certified, ensuring that it meets the highest standards of quality and safety. It's also customizable in color, making it easy to match with your existing equipment or company branding. The machine comes in nude packing in a 40 feet container, making it easy to transport to your desired location. The delivery time for this machine is 60 workdays, and payment terms include T/T and L/C.

The Hangzhou Maxwell Gutter Downspout Roll Forming Machine is designed for use in a variety of industries, including building material shops, manufacturing plants, and construction worksites. It's a versatile piece of equipment that can be used to create gutters and downspouts of all shapes and sizes, making it a valuable addition to any production line. The machine's main motor power is 7.5KW, ensuring that it's strong enough to handle even the toughest jobs.

One of the best things about this Gutter Downspout Roll Forming Machine is its after-sales service. Engineers are available to service machinery overseas, ensuring that your machine stays in top condition for years to come. With a supply ability of 30 sets per month, you can be sure that you're getting a top-quality machine that's built to last.

If you're looking for a reliable, top-quality Metal Rain Gutter Roll Forming Machine or Round Downspout Roll Forming Machine, the Hangzhou Maxwell Gutter Downspout Roll Forming Machine is the perfect choice. With its high-quality construction, versatile design, and excellent after-sales service, it's a machine that's sure to meet all your gutter and downspout production needs.

Support and Services:

The Gutter Downspout Roll Forming Machine is a highly efficient and reliable machine used for producing high-quality gutter downspouts. It is designed to work with a variety of metals, including galvanized steel, aluminum, and copper. The machine is equipped with advanced technology, including a PLC control system, touch screen interface, and automatic cutting and punching systems. We offer comprehensive technical support and services for our customers. Our team of experienced technicians is available to provide installation, training, and maintenance services to ensure that your machine is operating at peak performance. We also offer remote technical support, so you can get assistance no matter where you are located. In addition to technical support, we also provide a range of spare parts to keep your machine running smoothly. These parts are manufactured to the same high standards as the original components, ensuring the reliability and longevity of your machine. Our goal is to provide our customers with the highest level of service and support possible. If you have any questions or concerns about your Gutter Downspout Roll Forming Machine, please do not hesitate to contact us.

Packing and Shipping:

Product Packaging:

The Gutter Downspout Roll Forming Machine will be securely packed in a wooden crate.

All necessary parts and components will be included in the crate.

The crate will be labeled with the product name and any other relevant information.

Shipping:

The Gutter Downspout Roll Forming Machine will be shipped via sea or air, depending on the customer's preference and location.

Shipping costs will be calculated based on the customer's location and the shipping method chosen.

The customer will be provided with a tracking number and regular updates on the status of their shipment.
