

Galvanized Steel Gutter Downspout Roll Forming Machine Custom With HRC58-62 Roller Steel

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu,China
- Brand Name: Hangzhou Maxwell
- Certification: CE,ISO9001
- Model Number: Gutter Downspout
- Minimum Order Quantity: 1 Set
- Price: USD15000-USD25000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T;L/C
- Supply Ability: 30 Set per Mon

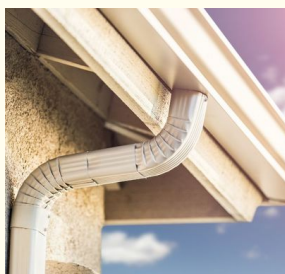

Product Specification

- Thickness: 0.4-0.8mm
- Applicable Industries: Building Material Shops, Manufacturing Plant, Construction Works , Other
- Material: Galvanized Steel Coils
- Control System: PLC
- Shaft Material: NO.45 Fine Steel
- Voltage: 380V/50Hz/3Phase
- Color: Customizable
- Roller Material: GCr15 Bearing Steel With Quench Treatment,HRC58-62
- Highlight: **Galvanized Steel Gutter Downspout Roll Forming Machine**

Product Description

Galvanized Steel Gutter Downspout Forming Machine With Customizable HRC58-62 Roller Steel

Product Description:

This machine is designed to have a thickness of 0.4-0.8mm, which ensures durability and long-lasting use. The color of the gutters and downspouts produced by this machine is customizable, allowing you to choose the exact color to match your building's exterior design. The Gutter Downspout Roll Forming Machine operates at a voltage of 380V/50Hz/3Phase, which is the standard voltage in most countries. This makes it easy to use in different parts of the world, without having to worry about voltage compatibility issues. The machine is suitable for various industries, including building material shops, manufacturing plants, construction works, and others. It is a reliable and efficient equipment that can help increase production and improve the quality of your products. The Gutter Downspout Roll Forming Machine has a speed of 15m/min, which is a fast and efficient production rate. This means that you can produce a large quantity of gutters and downspouts in a short amount of time, allowing you to meet the demands of your customers quickly and efficiently.

Features:

Product Name: Gutter Downspout Roll Forming Machine

Warranty: 1 Year

Thickness: 0.4-0.8mm

Forming Stations: 23-26stands

Voltage: 380V/50Hz/3Phase

Applicable Industries: Building Material Shops, Manufacturing Plant, Construction Works , Other

Features:

Downspout and elbow roll forming machine

Metal rain gutter roll forming machine

Half round gutter roll forming machine

Technical Parameters:

Square metal downspout roll forming machine	
Shaft Material	NO.45 Fine Steel

Roller Material	GCr15 Bearing Steel With Quench Treatment, HRC58-62
Forming Stations	23-26stands
Main Motor Power	7.5KW
Control System	PLC
Speed	15m/min
Voltage	380V/50Hz/3Phase
Applicable Industries	Building Material Shops, Manufacturing Plant, Construction Works, Other
Warranty	1 Year
After-Sales Service	Engineers Available To Service Machinery Overseas
Half round gutter roll forming machine	

Applications:

With a minimum order quantity of just one set, customers can enjoy the benefits of this high-quality roll forming machine. It comes with CE and ISO9001 certification, ensuring that it meets the highest standards of quality and safety. The machine can produce downspouts and elbows with a thickness range of 0.4-0.8mm, and the roller material is GCr15 bearing steel with quench treatment, HRC58-62, ensuring a long service life.

The control system of the machine is a PLC, which provides precise and reliable control of the production process. The material used for production is galvanized steel coils, which are durable and resistant to corrosion, making them ideal for outdoor use. The color of the downspout and elbow products can be customized to match the specific needs of the customer.

The Square Metal Downspout Roll Forming Machine is perfect for producing square downspouts and connectors. This machine is designed for high-speed production and can produce up to 30 sets per month, making it an ideal choice for large-scale manufacturing operations.

The Square Gutter Downpipe and Connector Roll Forming Machine are ideal for producing square gutter downpipes and connectors. This machine is easy to operate and can produce high-quality products with consistent accuracy. The machine is also designed for easy maintenance, ensuring that it can operate at peak efficiency for years to come.

The Gutter Downspout Roll Forming Machine is packaged in a 40 feet container in nude packing. The delivery time for this product is 60 workdays, and payment terms include T/T and L/C. With its high-quality construction and reliable performance, the Gutter Downspout Roll Forming Machine is the perfect solution for producing downspout and elbow products for a variety of applications.

Support and Services:

The Gutter Downspout Roll Forming Machine is a precision-engineered piece of equipment that offers a wide range of technical support and services to ensure optimal performance and longevity. Our team of experienced technicians is available to provide installation and training services, ensuring that your machine is set up and running smoothly. We also offer ongoing maintenance and repair services to keep your machine operating at peak efficiency. In addition, we provide technical support for any questions or concerns you may have about the machine's operation or maintenance. With our comprehensive technical support and services, you can be confident that your Gutter Downspout Roll Forming Machine will continue to operate at a high level for years to come.

Packing and Shipping:

Product Packaging:

The gutter downspout roll forming machine is securely packed in a wooden crate.

All parts of the machine are properly covered and protected to prevent damage during shipping.

The crate is labeled with the product name, model number, and any other important information.

Shipping:

The machine is shipped via sea freight or air freight, depending on the customer's preference.

We work with trusted shipping companies to ensure that the machine is delivered safely and on time.

Customers can track their shipment using the tracking number provided by the shipping company.

Our team is available to assist with any shipping-related questions or concerns.
