

Siemens PLC Controlled Cable Tray Roll Forming Machine 100mm-600mm PPGI Raw

Our Product Introduction

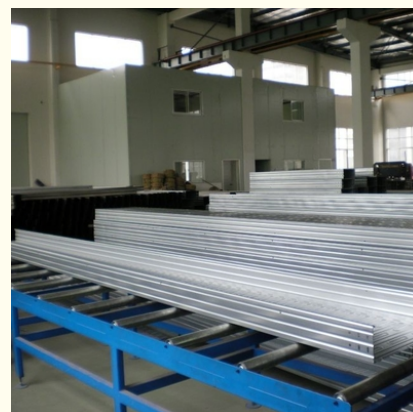

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable Tray
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD75000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Plc: Siemens
- Control: PLC Systems
- Material Width: 100-600mm
- Capacity: About 0-15m/min
- Raw Material: PPGI, PPGI
- Core Components: Motor, Pump, PLC
- Key Selling Points: Long Service Life
- Cutter Standard: Cr12Mov
- Highlight: **PLC Controlled Cable Tray Roll Forming Machine**
, Cable Tray Roll Forming Machine 100mm,
Cable Tray Roll Former 600mm

Product Description

Siemens PLC Controlled Cable Tray Roll Forming Machine 100-600mm PPGI Raw Long Service Life

Product Description:

One of the key features of this machine is its ability to work with a wide range of materials, including PPGI and galvanized coils with a material thickness of 1.0-2.0mm. This makes it an ideal choice for a variety of applications, from small-scale projects to large-scale industrial installations.

Another important feature of our Cable Tray Channel Roll Forming Machine is its powerful hydraulic station, which provides a total power of 15KW. This ensures that the machine is able to work quickly and efficiently, producing high-quality cable trays in a fraction of the time it would take with other machines.

In addition to its powerful hydraulic station, our Cable Tray Channel Roll Forming Machine also features a state-of-the-art PLC system from Siemens. This system provides precise control over the machine's operations, ensuring that every cable tray produced is of the highest quality and meets all relevant safety standards.

Whether you're a contractor, manufacturer, or supplier in the electrical industry, our Cable Tray Channel Roll Forming Machine is the perfect choice for your cable tray production needs. So why wait? Contact us today to learn more about this powerful and versatile machine, and see how it can help you take your cable tray production to the next level!

Key Features:

Material Thickness: 1.0-2.0mm Galvanized Coils

Hydraulic Station Power: 15KW

Plc: Siemens

Raw Material: PPGI, PPGI

Yield Strength: Q235Mpa

Features:

Product Name: Cable Tray Roll Forming Machine

Plc: Siemens

Key Selling Points: Long Service Life

Material Width: 100-600mm

Forming Stations: 22 Stations

Hydraulic Station Power: 15KW

Looking for a reliable **Cable Tray Channel Roll Forming Machine**? Look no further than our **Cable Tray Machine Manufacturer**! Our **Cable Tray Roll Forming Machine** is built with Siemens Plc for top-of-the-line control and offers a long service life. With a material width of 100-600mm, 22 forming stations, and a hydraulic station power of 15KW, this machine is perfect for your cable tray production needs.

Technical Parameters:

Product Name	Cable Tray Roll Forming Machine
Material Thickness	1.0-2.0mm Galvanized Coils
Raw Material	PPGI,PPGI
Hydraulic Motor Power	3kW
Capacity	About 0-15m/min
Yield Strength	Q235Mpa
Cutter Standard	Cr12Mov
Controller	PLC System
Plc	Siemens
Core Components	Motor, Pump, PLC
Key Selling Points	Long Service Life
Manufacturer	Cable Tray Machine Manufacturer
Product Category	Cable Tray Channel Roll Forming Machine

Applications:

The Cable Tray Machine is suitable for producing cable trays of different widths ranging from 100-600mm. The material thickness ranges from 1.0-2.0mm Galvanized Coils. The machine has a Hydraulic Station Power of 15KW. The yield strength of the machine is Q235Mpa. The machine is designed to have a long service life, which is one of its key selling points.

The Cable Tray Machine is CE and ISO9001 certified, which guarantees its quality and safety. The minimum order quantity for the machine is one set. The packaging details are nude packing in a 40 feet container. The delivery time for the machine is 60 workdays. The payment terms are T/T and L/C. The supply ability of the machine is 30 sets per month.

The Cable Tray Machine is suitable for various occasions and scenarios. It can be used in the construction of buildings, hospitals, schools, and other establishments. The machine is perfect for producing cable trays that can be used in both indoor and outdoor environments. The Cable Tray Machine is perfect for use in situations where cable management is essential. It is ideal for use in data centers, server rooms, and other environments where cable management is critical.

In conclusion, the Cable Tray Machine is an essential machine for cable management in the construction industry. It is a reliable and efficient machine that produces high-quality cable trays. The machine is designed to have a long service life, which makes it an excellent investment for businesses. Order your Cable Tray Machine from Hangzhou Maxwell today and enjoy its benefits.

Support and Services:

The Cable Tray Roll Forming Machine is a high-quality product designed to efficiently produce cable trays of various sizes and shapes. Our technical support team is available to provide assistance and guidance with installation, maintenance, and troubleshooting of the machine. We also offer training services to ensure that our customers are able to operate the machine effectively and safely. Additionally, we provide a warranty for the product and offer repair and replacement services if necessary. Contact us for more information about our product technical support and services.

Packing and Shipping:

Product Packaging:

The Cable Tray Roll Forming Machine will be packed in a wooden crate to ensure safe transportation. The machine components will be securely fastened and protected with foam and plastic wrap.

Shipping:

The Cable Tray Roll Forming Machine will be shipped via sea or air, depending on the customer's location and preference. The shipping cost will be calculated based on the distance and mode of transportation. The customer will be informed of the shipping details and provided with a tracking number once the machine is dispatched.
