

PPGI Cable Tray Roll Forming Machine 0-15m/min With Siemens PLC Systems

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable Tray
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD75000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Control: PLC Systems
- Yield Strength: Q235Mpa
- Hydraulic Motor Power: 3kW
- Core Components: Motor, Pump, PLC
- Capacity: About 0-15m/min
- Raw Material: PPGI, PPGI
- Hydraulic Station Power: 15KW
- Cutter Standard: Cr12Mov
- Highlight: **PPGI Cable Tray Roll Forming Machine, Cable Tray Roll Forming Machine 15m/Min**

Product Description

PPGI Cable Tray Roll Forming Machine With Siemens PLC Systems

Product Description:

Equipped with core components such as a motor, pump, and PLC, this machine is designed to deliver excellent performance and reliability. It has a capacity of about 0-15m/min, which means it can handle a wide range of workload requirements with ease. The PLC system control ensures that the machine operates seamlessly, allowing for enhanced efficiency and productivity. With this feature, the machine is capable of producing cable trays of different sizes and dimensions to meet your specific requirements. The raw material used for this machine is PPGI, which is known for its durability and strength. This means that the finished products are strong, sturdy, and long-lasting, ensuring that your investment is well-protected. The hydraulic station power of this machine is 15KW, which means that it is powerful enough to handle heavy-duty applications. It is capable of producing cable trays with high precision and accuracy, ensuring that the finished products meet the highest quality standards. At our cable tray machine manufacturer, we take pride in delivering high-quality products that meet the needs of our customers. Our Cable Tray Channel Roll Forming Machine is no exception. With its advanced features and capabilities, it is the perfect solution for your cable tray production needs.

Features:

Product Name: Cable Tray Roll Forming Machine
Forming Stations: 22 Stations
Capacity: About 0-15m/min
Plc: Siemens
Raw Material: PPGI,PPGI
Control: PLC Systems

Technical Parameters

No	Name of each part	Model and specification of equipment	number	remarks
1	Automatic uncoiler	≤8T	1 set	
2	Leveling machine		1 set	Nine rollers

3	Combined presses	160T	1 set	
4	Combined die	Gcr12	1 set	
5	Conveyor	3 m	1 set	
6	Forming machine	22 rollers	1 set	
7	Products receiving table	8 m	4 m/set	
8	Electrical control system		1 set	PLC
9	Hydraulic cutting mechanism		1 set	

Applications:

The cable tray roll forming machine is widely used in the construction, power, and communication industries. It is used to manufacture cable tray channels that are used to support cables and wires and keep them organized and protected. The cable tray channel roll forming machine produces channels of different sizes, shapes, and thicknesses, making it highly versatile.

The cable tray roll forming machine is ideal for companies that require a long service life and high-quality products. The machine is made from high-quality materials and is certified with CE and ISO9001. The yield strength of the machine is Q235Mpa, making it durable and reliable.

The cable tray roll forming machine has 22 forming stations and a capacity of about 0-15m/min. The core components of the machine include a motor, pump, and PLC, ensuring a smooth and efficient production process. The machine has a supply ability of 30 sets per month, with a minimum order quantity of 1 set.

The cable tray roll forming machine is packed in a nude packing 40-foot container, and the delivery time is 60 workdays. The payment terms are T/T and L/C, making it convenient for customers to purchase.

Overall, the cable tray roll-forming machine is a versatile and reliable machine that can be used in various applications. Its high-quality components and long service life make it an ideal investment for companies in the construction, power, and communication industries.

Support and Services:

- Installation and commissioning of the machine
- Machine operation training for operators and maintenance personnel
- Regular maintenance and servicing to ensure optimal performance and longevity of the machine
- Troubleshooting and technical assistance to resolve any issues that may arise during operation
- Upgrades and retrofits to improve the functionality and efficiency of the machine
- Spare parts and components to minimize downtime and ensure uninterrupted production

Packing and Shipping:

The Cable Tray Roll Forming Machine is packaged in a sturdy wooden crate to ensure safe transportation. The machine is also wrapped in protective material to prevent any damage during shipping.

Shipping:

We offer worldwide shipping for the Cable Tray Roll Forming Machine. Shipping costs will vary depending on the destination and shipping method. The estimated delivery time will be provided upon request. We use reputable shipping companies to ensure timely and secure delivery of the machine.
