

Siemens PLC Control Cable Tray Channel Roll Forming Machine 15KW Hydraulic Power 100-600mm

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable Tray
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD75000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Plc: Siemens
- Capacity: About 0-15m/min
- Controller: PLC System
- Core Components: Motor, Pump, PLC
- Hydraulic Station Power: 15KW
- Material Width: 100-600mm
- Key Selling Points: Long Service Life
- Hydraulic Motor Power: 3kW
- Highlight: Cable Tray Channel Roll Forming Machine, Channel Roll Forming Machine 15KW

Product Description

Siemens PLC Control Cable Tray Channel Roll Forming Machine 15KW Hydraulic Power 100-600mm

Product Description:

The Cable Tray Roll Forming Machine is designed to accommodate material widths of 100-600mm, making it suitable for a wide range of applications. It features 22 forming stations that work together seamlessly to produce cable tray support channels of various sizes and shapes, according to the specific needs of the customer. The Siemens PLC system used in this machine is known for its high-performance capabilities and user-friendly interface, allowing for easy integration into any production line.

The Cable Tray Roll Forming Machine is equipped with core components such as a motor, pump, and PLC that are of the highest quality, ensuring long-term durability and reliability. Its advanced design and construction make it easy to use and maintain, allowing for maximum productivity and efficiency.

In conclusion, the Cable Tray Support Channel Roll Forming Machine is an essential machine for any company involved in the production of cable tray support channels. With its advanced PLC systems, material width accommodation, and high-quality core components, this machine is the ideal solution for producing consistent and precise results every time.

Features:

Product Name: Cable Tray Roll Forming Machine

Yield Strength: Q235Mpa

Raw Material: PPGI,PPGI

Controller: PLC System

Material Width: 100-600mm

Capacity: About 0-15m/min

Cable Tray Roll Forming Machine, Cable Tray Channel Roll Forming Machine, and Cable Tray Machine Manufacturer

Technical Parameters:

Technical Parameters	Description
Product Name:	Cable Tray Support Channel Roll Forming Machine
Manufacturer:	Cable Tray Machine Manufacturer
Raw Material:	PPGI, PPGI

Capacity:	About 0-15m/min
Yield Strength:	Q235Mpa
Core Components:	Motor, Pump, PLC
Hydraulic Motor Power:	3kW
Material Width:	100-600mm
Cutter Standard:	Cr12Mov
Controller:	PLC System
Material Thickness:	1.0-2.0mm Galvanized Coils
Key Selling Points:	Long Service Life

Applications:

Hangzhou Maxwell is a leading Cable Tray Machine Manufacturer in Zhejiang, China. The company is known for its high-quality Cable Tray Channel Roll Forming Machine that is designed to meet the needs of various industries. The product is certified by CE and ISO9001, which means that it meets international standards of quality and safety.

The Cable Tray Machine is designed to produce cable trays that are used for electrical wiring in buildings, factories, and other infrastructure projects. The product is ideal for companies that want to manufacture cable trays in-house, instead of outsourcing the production process. The Cable Tray Machine can produce cable trays of different sizes and shapes, which makes it suitable for a variety of applications.

The Cable Tray Machine is perfect for companies that need to produce cable trays in large quantities. The minimum order quantity for the product is 1 set, and it can be delivered in a 40 feet container. The delivery time for the product is 60 workdays, and the payment terms are T/T and L/C. The product has a supply ability of 30 sets per month.

The Cable Tray Machine is equipped with a PLC system controller, which makes it easy to operate and control. The core components of the product include a motor, pump, and PLC. The hydraulic station power of the product is 15KW, and it has 22 forming stations. The raw materials used for the product are PPGI and PPGI.

The Cable Tray Machine is suitable for various occasions and scenarios, including the construction of buildings, factories, and other infrastructure projects. The product is ideal for companies that want to produce cable trays in-house, instead of outsourcing the production process. The Cable Tray Machine is perfect for companies that need to produce cable trays in large quantities. The product is easy to operate and control, which makes it suitable for companies of all sizes.

Support and Services:

- Installation guidance and training for your team to ensure the proper setup and use of the machine.
- Regular maintenance and repair services to keep the machine running smoothly and prevent downtime.
- Technical troubleshooting support to quickly resolve any issues or malfunctions with the machine.
- Upgrades and customization options to tailor the machine to your specific production needs.
- Access to a team of experienced engineers and technicians who can provide expert advice and support for your cable tray manufacturing process.

With our comprehensive technical support and services, you can rely on the Cable Tray Roll Forming Machine to deliver consistent and high-quality results, ensuring the success of your cable tray production operation.

Packing and Shipping:

Product Packaging:

The cable tray roll forming machine will be packed in a wooden crate for added protection during shipping.

All parts and components will be securely fastened and wrapped to prevent damage during transit.

The crate will be clearly labeled with the product name, model number, and any handling instructions.

Shipping:

The cable tray roll forming machine will be shipped via a reputable freight carrier.

The shipping cost will be calculated based on the destination and weight of the crate.

Shipping will take approximately 3-5 business days within the United States and up to 10 business days for international orders.

A tracking number will be provided once the item has been shipped.
