

## Galvanized Cable Tray Forming Machine Siemens PLC 1.0-2.0mm Capacity

### Our Product Introduction

For more products please visit us on [roll-formermachines.com](http://roll-formermachines.com)

#### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable tray
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD80000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Controller: PLC System
- Plc: Siemens
- Key Selling Points: Long Service Life
- Material Thickness: 1.0-2.0mm Galvanized Coils
- Control: PLC Systems
- Hydraulic Motor Power: 3kW
- Core Components: Motor, Pump, PLC
- Material Width: 100-600mm
- Highlight: **Galvanized Cable Tray Forming Machine, Cable Tray Forming Machine Siemens PLC**

## Product Description

### Long Service Life Galvanized Cable Tray Forming Machine Siemens PLC 1.0-2.0mm Capacity

#### Product Description:

The Cable Tray Machine Manufacturer has designed the Cable Tray Support Channel Roll Forming Machine with a Siemens PLC (Programmable Logic Controller) to ensure that it is easy to operate. This feature also ensures that the machine runs smoothly and can be easily programmed to carry out various functions.

The Cutter Standard on the Cable Tray Channel Roll Forming Machine is Cr12Mov, which is a high-quality steel material that is durable and can withstand wear and tear. This cutter standard ensures that the cable trays produced by the machine are of high quality and have a long lifespan.

The Cable Tray Support Channel Roll Forming Machine is a highly versatile machine that can produce different types of cable trays. This machine is suitable for use in industries such as construction, telecommunications, power supply, and many others. The Cable Tray Machine Manufacturer has designed this machine to meet the needs of its customers and ensure that it is easy to operate, efficient, and produces high-quality cable trays.

#### Features:

Product Name: Cable Tray Roll Forming Machine

Yield Strength: Q235Mpa

Hydraulic Station Power: 15KW

Capacity: Aboout 0-15m/min

Plc: Siemens

Material Width: 100-600mm

Cable Tray Support Channel Roll Forming Machine, cable Tray Machine Manufacturer, Cable Tray Machine

#### Technical Parameters:

Product Attribute	Value
Product Name	Cable Tray Channel Roll Forming Machine
Core Components	Motor, Pump, PLC
Forming Stations	22 Stations
Yield Strength	Q235Mpa
Raw Material	PPGI,PPGI

Hydraulic Station Power	15KW
Hydraulic Motor Power	3kW
Cutter Standard	Cr12Mov
Capacity	About 0-15m/min
Controller	PLC System
PLC	Siemens

### Applications:

Hangzhou Maxwell is a leading Cable Tray Machine manufacturer located in Zhejiang, China. The Cable Tray Support Channel Roll Forming Machine is a high-quality product that has been certified by CE and ISO9001. The product is designed to meet the needs of clients who require a reliable and easy-to-use Cable Tray Roll Forming Machine.

The machine is made of high-quality materials such as 1.0-2.0mm Galvanized Coils, which make it durable and long-lasting. It features 22 forming stations, which allow for high precision and accuracy during the forming process. The PLC system controller ensures that the machine is easy to operate, and the material width of 100-600mm increases its versatility in terms of the types of cable trays that can be made.

The Cable Tray Roll Forming Machine is suitable for use in various scenarios such as in the construction industry, especially for buildings that require cable management. The product is also suitable for use in manufacturing companies that produce cable trays for industrial use. The machine can be used to produce cable trays of different sizes and shapes, depending on the needs of the client.

The minimum order quantity for the Cable Tray Roll Forming Machine is 1 set, and the product is available for delivery within 60 workdays. Clients can choose to pay for the product using either T/T or L/C, depending on their preference. The supply ability of the Cable Tray Roll Forming Machine is 30 sets per month, which ensures that clients can get their orders delivered on time.

The Cable Tray Roll Forming Machine is packed in a 40 feet container using nude packing, which ensures that the product is protected during transportation. The hydraulic station power of the machine is 15KW, which makes it suitable for use in various settings.

### Support and Services:

Product Packaging:

The Cable Tray Roll Forming Machine will be securely packaged in a wooden crate to protect it during shipping.

All parts and components will be carefully wrapped and cushioned to prevent damage.

The crate will be labeled with the product name, model number, and shipping address for easy identification.

Shipping:

The Cable Tray Roll Forming Machine will be shipped via a reputable carrier to ensure timely and safe delivery.

Shipping costs will be calculated based on the destination and weight of the product.

A tracking number will be provided once the product has shipped, so you can track its progress and estimated delivery date.
