

## PLC Control Cable Tray Roll Forming Machine With 22 Stations Cr12Mov Cutter Standard

### Our Product Introduction

#### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable Tray
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD85000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Cutter Standard: Cr12Mov
- Key Selling Points: Long Service Life
- Raw Material: PPGI, PPGI
- Forming Stations: 22 Stations
- Yield Strength: Q235Mpa
- Control: PLC Systems
- Material Width: 100-600mm
- Hydraulic Station Power: 15KW
- Highlight: **PLC Control Cable Tray Roll Forming Machine, ISO9001 Cable Tray Roll Forming Machine**

## Product Description

### Precision Cable Tray Roll Forming Machine With 22 Stations Cr12Mov Cutter Standard Long Service Life In PPGI

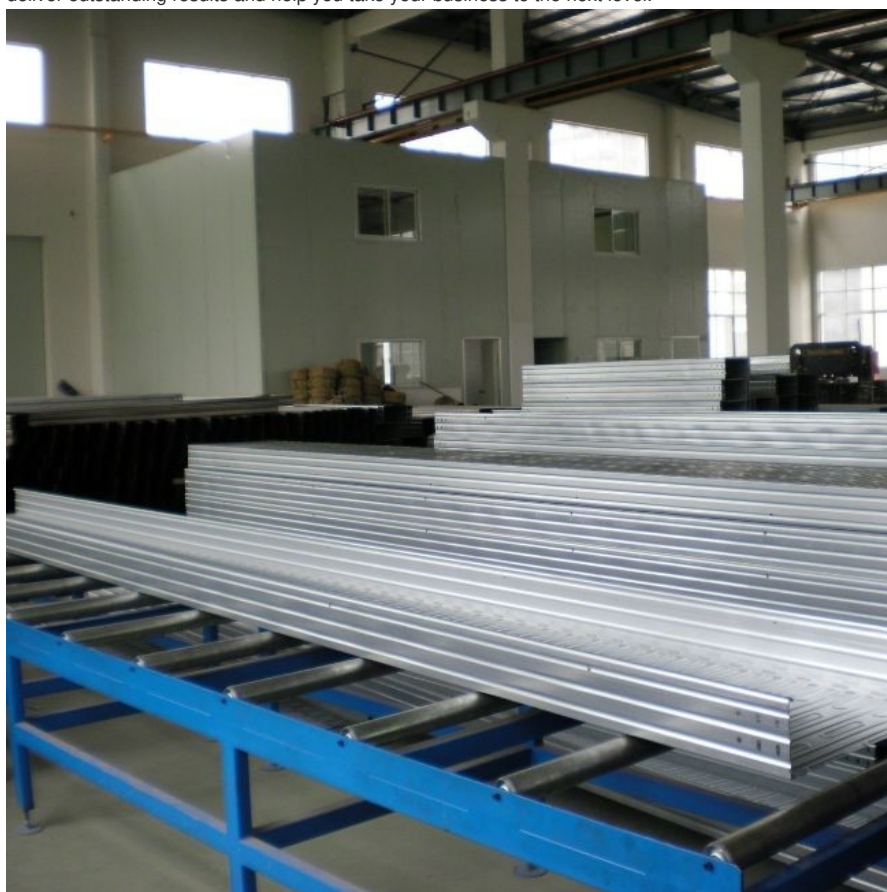

#### Product Description:

Equipped with a powerful hydraulic motor with a power of 3kW, this Cable Tray Roll Forming Machine can easily handle the production of cable trays from PPGI and PPGI raw material with a material thickness of 1.0-2.0mm galvanized coils. This makes it ideal for use in large-scale cable tray manufacturing operations.

The machine is designed with a state-of-the-art PLC system from Siemens, which ensures precise control over the entire production process. With this advanced control system, you can easily adjust the machine's speed, length, and other parameters to produce cable trays of different sizes and specifications according to your needs.

One of the key selling points of this Cable Tray Roll Forming Machine is its long service life. We have designed this machine with high-quality materials and components, which makes it highly durable and resistant to wear and tear. This means you can use this machine for years without any major maintenance issues, making it a cost-effective investment for your cable tray manufacturing business.

In summary, if you are looking for a reliable and efficient solution for producing high-quality cable trays, the Cable Tray Roll Forming Machine is the perfect choice for you. With its advanced features, precision control, and long service life, this machine is guaranteed to deliver outstanding results and help you take your business to the next level.

#### Features:

Product Name: Cable Tray Roll Forming Machine

Material Width: 100-600mm

Hydraulic Motor Power: 3kW

Hydraulic Station Power: 15KW

Controller: PLC System

Capacity: About 0-15m/min

#### Technical Parameters:

Cable Tray Roll Forming Machine	
Cutter Standard	Cr12Mov
Core Components	Motor, Pump, PLC

Raw Material	PPGI, PPGI
Hydraulic Station Power	15KW
Plc	Siemens
Hydraulic Motor Power	3kW
Material Width	100-600mm
Controller	PLC System
Key Selling Points	Long Service Life
Forming Stations	22 Stations
Cable Tray Support Channel Roll Forming Machine	

### Applications:

If you are looking for a reliable Cable Tray Channel Roll Forming Machine, look no further than Hangzhou Maxwell. Our Cable Tray Machine is designed and manufactured in Zhejiang, China, with the highest standards of quality and performance. With CE and ISO9001 certification, you can trust that our Cable Tray Support Channel Roll Forming Machine is built to last.

Our Cable Tray Channel Roll Forming Machine is perfect for a variety of product application occasions and scenarios. It can be used in the construction industry, for the installation of electrical wiring and cables. It is ideal for commercial and residential buildings, hospitals, schools, and more. The Cable Tray Machine is also perfect for manufacturing companies producing cable trays for sale.

The Cable Tray Support Channel Roll Forming Machine is easy to operate, thanks to its PLC Systems control. With a material width of 100-600mm and material thickness of 1.0-2.0mm Galvanized Coils, it can produce high-quality cable trays that are durable and long-lasting. It has 22 stations for forming, ensuring a smooth and accurate production process.

At Hangzhou Maxwell, we understand that time is of the essence. That's why we offer a fast delivery time of 60 workdays and a supply ability of 30 sets per month. Our packaging details include nude packing in a 40 feet container, making it easy to transport and install. Ordering your Cable Tray Channel Roll Forming Machine from Hangzhou Maxwell is easy. Our minimum order quantity is 1 set, and we accept payment terms of T/T or L/C. With a key selling point of long service life, our Cable Tray Machine is a smart investment for any business.

### Support and Services:

Our technical support team is available to answer any questions and provide guidance on proper usage, maintenance, and troubleshooting. We also offer training and installation services to ensure that the machine is properly set up and running smoothly. In addition, we provide spare parts and repair services to quickly address any issues that may arise. Our goal is to ensure that our customers can operate their Cable Tray Roll Forming Machines with minimal interruptions and maximum efficiency.

### Packing and Shipping:

Product Packaging:

The Cable Tray Roll Forming Machine is packed with a layer of waterproof plastic material to protect it from moisture and dust. It is then placed inside a sturdy wooden crate to prevent any damage during transport.

Shipping information:

The Cable Tray Roll Forming Machine will be shipped via sea or air, depending on the customer's preference.

Delivery time will vary depending on the destination, with an estimated time of 20-30 days for sea shipping and 3-7 days for air shipping.

The customer will be provided with a tracking number to monitor the shipment status.
