

380V Scaffolding Making Machine Fully Automatic Scaffolding Walk Board Roll Forming Machine

Our Product Introduction

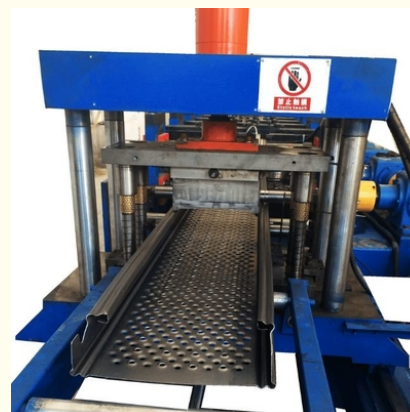

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Scaffold board
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD95000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Work Speed: 0-15m/min
- Plc: Mitsubishi/ Panasonic/ Siemens
- Type: Tile Forming Machine, Fully Automatic
- Power Supply: 380V/50Hz
- Name: Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine
- Applicable Industries: Building Material Shops, Construction Works, Steel Scaffolding Plank Board
- Condition: New
- Key Selling Points: High Productivity
- Highlight: **380V Scaffolding Making Machine, Scaffolding Making Machine Fully Automatic, Automatic Scaffolding Walk Board Roll Forming Machine**

Product Description

Productivity Fully Automatic Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine

Product Description:

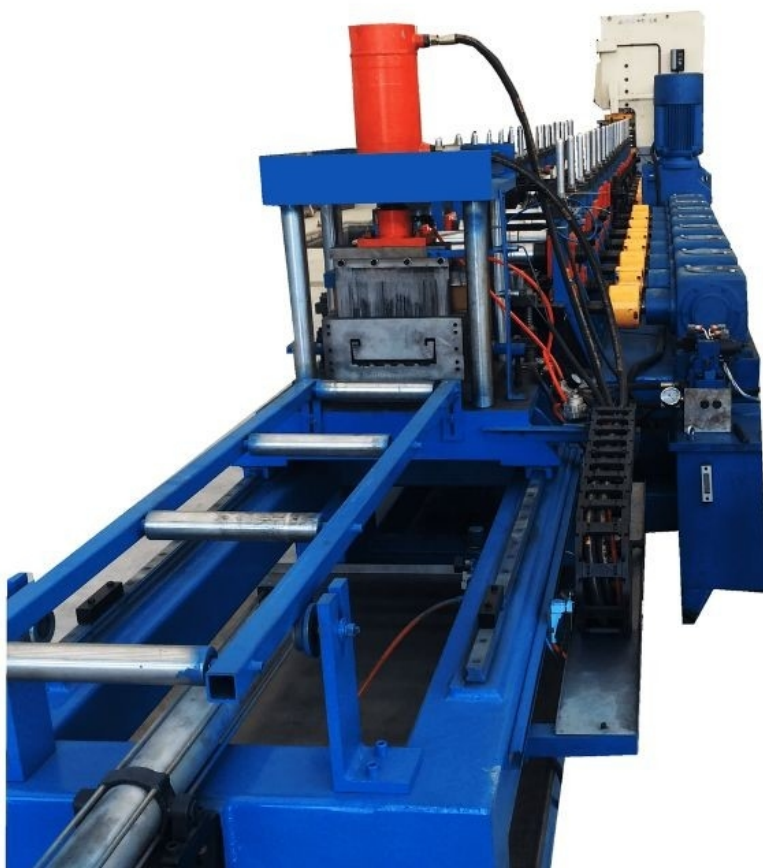

The Scaffolding Walk Board Roll Forming Machine is a fully automatic tile forming machine designed to produce high-quality steel scaffolding plank board. This machine is suitable for use in building material shops, construction works, and steel scaffolding plank board industries.

Equipped with a PLC system, this machine is available with Mitsubishi, Panasonic, or Siemens controllers, ensuring its reliable performance and easy operation. The machine's power supply is 380V/50Hz, making it ideal for use in various locations. The rollers of this machine are made from GCr15 bearing steel with quench treatment, ensuring their durability and long lifespan. The quench treatment ensures that the rollers are hardened and can withstand the rigors of continuous use, providing a consistent and reliable output.

As a fully automatic tile forming machine, the Scaffolding Walk Board Roll Forming Machine requires minimal manual input, reducing labor costs and increasing production efficiency. It is designed to produce high-quality steel scaffolding plank board with precision and accuracy, ensuring that the final product meets the required specifications.

This machine is suitable for use in various industries, including building material shops, construction works, and steel scaffolding plank board industries. Its fully automatic design makes it suitable for use in high-volume production environments, providing a consistent and reliable output.

In summary, the Scaffolding Walk Board Roll Forming Machine is a reliable and efficient option for producing high-quality steel scaffolding plank board. Its fully automatic design, durable rollers, and PLC system with Mitsubishi, Panasonic, or Siemens controllers ensure its reliable performance and easy operation. It is suitable for use in various industries, including building material shops, construction works, and steel scaffolding plank board industries.

Features:

Product Name: Scaffolding Making Machine

Condition: New

Work Speed: 0-15m/min

Name: Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine

Plc: Mitsubishi/ Panasonic/ Siemens

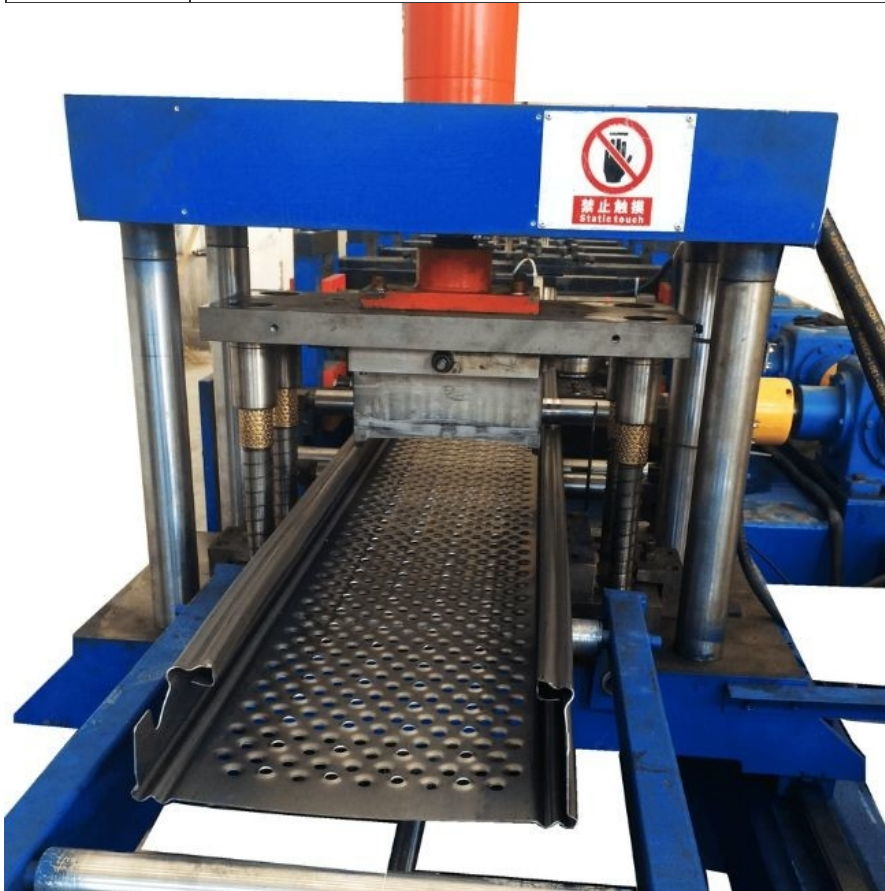

Power Supply: 380V/50Hz

Keywords: Scaffolding Planks Roll Forming Machine, Scaffold Plank Roll forming Machine, Scaffold Plank Roll forming Machine

Technical Parameters:

Cutting System	Hydraulic Cutting
----------------	-------------------

Material of Rollers	GCr15 Bearing Steel With Quench Treatment
PLC	Mitsubishi/ Panasonic/ Siemens
Condition	New
Name	Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine
Power Supply	380V/50Hz
Key Selling Points	High Productivity
Applicable Industries	Building Material Shops, Construction Works , Steel Scaffolding Plank Board
Rolling Thickness	2.0-3.0mm
Type	Tile Forming Machine, Fully Automatic
Keywords	Scaffolding Planks Roll Forming Machine, Scaffold Plank Roll forming Machine, Scaffold Plank Roll forming Machine

Applications:

The Scaffolding Walk Board Roll Forming Machine is ideal for producing scaffolding walk boards used in the construction industry. The machine can be used to produce walk boards of different sizes, depending on the customers' requirements. This makes it a versatile solution for various scaffolding applications.

The machine can be used in different scenarios, such as large construction sites, industrial plants, and residential buildings. It can produce scaffolding walk boards with high precision and speed, which makes it an ideal solution for companies that require a large number of walk boards in a short time frame.

The product is new and comes with a warranty, ensuring that customers get the best value for their money. The power supply for the machine is 380V/50Hz, and the PLC can be selected from Mitsubishi, Panasonic, or Siemens. The rollers used in the machine are made of GCr15 bearing steel with quench treatment, which ensures their durability and longevity.

The minimum order quantity for the Scaffolding Walk Board Roll Forming Machine is one set, and it comes in nude packing in a 40 feet container. The delivery time is 60 workdays, and the payment terms are T/T or L/C. The product is readily available, with a supply ability of 30 sets per month.

To summarize, the Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine is an innovative solution for producing high-quality scaffolding walk boards. It is designed to meet the highest quality and safety standards, making it an ideal solution for various scaffolding applications. With its fast production speed, precision, and durability, the Scaffolding Walk Board Roll Forming Machine is a must-have for companies in the construction industry.

Support and Services:

The Scaffolding Making Machine is a highly specialized product that requires technical support and services to ensure optimal performance. Our team of experts is available to provide the following support:

- Installation and commissioning of the machine
- Technical training for operation and maintenance
- Troubleshooting and repair services
- Regular maintenance and inspection services
- Replacement parts and accessories

We are committed to providing timely and effective support to our customers to ensure that their scaffolding making machine operates at maximum efficiency. Contact us for further information on our technical support and services.

Packing and Shipping:

Product Packaging:

The Scaffolding Making Machine will be securely packaged in a wooden crate to ensure safe transportation. The machine will be wrapped with protective materials to prevent any damage during shipping.

Shipping:

The Scaffolding Making Machine will be shipped via sea or air freight, depending on the customer's preference. Shipping costs will be calculated based on the shipping method, destination, and weight of the machine. The customer will be responsible for any customs duties or taxes that may apply.
