

Steel Scaffolding Making Machine High Productivity With GCr15 Rollers

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Scaffold board
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD95000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Work Speed: 0-15m/min
- Applicable Industries: Building Material Shops, Construction Works, Steel Scaffolding Plank Board
- Rolling Thickness: 2.0-3.0mm
- Material Of Rollers: GCr15 Bearing Steel With Quench Treatment
- Key Selling Points: High Productivity
- Condition: New
- Plc: Mitsubishi/ Panasonic/ Siemens
- Type: Tile Forming Machine, Fully Automatic
- Highlight: **Steel Scaffolding Making Machine, Scaffolding Making Machine High Productivity**

Product Description

Steel Scaffolding Plank Board Making Machine Speed Roll Forming With GCr15 Rollers

Product Description:

The Plank decking Scaffold Boards Roll Forming Machine is powered by a 380V/50Hz power supply which ensures that the machine operates efficiently without any interruptions. The machine is equipped with a hydraulic cutting system which allows for precise and accurate cuts, resulting in high-quality scaffold boards that meet industry standards.

The Scaffold Plank Roll forming Machine is also equipped with a PLC control system which can be customized to include Mitsubishi, Panasonic, or Siemens PLCs. This feature allows for easy operation and monitoring of the machine, making it convenient for operators to create different board sizes and shapes to meet the needs of their clients.

Overall, the Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine is an excellent investment for businesses in the building and construction industry that require a reliable and efficient machine for producing high-quality scaffold boards. With its advanced features such as hydraulic cutting and PLC control system, this Scaffold Plank Roll forming Machine is sure to increase your business's productivity and profitability.

Features:

Product Name: Scaffolding Making Machine

Power Supply: 380V/50Hz

Applicable Industries: Building Material Shops, Construction Works , Steel Scaffolding Plank Board

Key Selling Points: High Productivity

Work Speed: 0-15m/min

Cutting System: Hydraulic Cutting

Technical Parameters:

Work Speed	0-15m/min
Key Selling Points	High Productivity
PLC	Mitsubishi/ Panasonic/ Siemens
Type	Tile Forming Machine, Fully Automatic

Name	Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine
Condition	New
Material of Rollers	GCr15 Bearing Steel With Quench Treatment
Power Supply	380V/50Hz
Rolling Thickness	2.0-3.0mm
Applicable Industries	Building Material Shops, Construction Works, Steel Scaffolding Plank Board

Applications:

Available as a Fully Automatic machine, this Scaffold Plank Roll forming Machine can be used in Building Material Shops, Construction Works, and Steel Scaffolding Plank Board production units. The machine is designed for rolling thicknesses of 2.0-3.0mm and comes with rollers made of GCr15 Bearing Steel with Quench Treatment, ensuring durability and longevity.

The Plank decking Scaffold Boards Roll Forming Machine is a new addition to the range of products available from Hangzhou Maxwell. The machine can be used in different scenarios, including construction sites, building material shops, and steel scaffolding plank board production units. With a Minimum Order Quantity of 1 Set, the machine is available in Nude Packing in a 40 Feet Container.

The Scaffolding Walk Board Roll Forming Machine is designed to be fully automatic, making it easy to use and operate. With a supply ability of 30 sets per month, the machine can be delivered within 60 workdays. Payment terms are flexible, and both T/T and L/C options are available.

The Scaffold Plank Roll forming Machine can be used to create high-quality scaffold planks that meet industry standards. The machine is designed to be efficient, and the rollers made of GCr15 Bearing Steel with Quench Treatment ensure that the planks produced are durable and of high quality.

The Plank Decking Scaffold Boards Roll Forming Machine is designed to cater to different types of construction projects, making it a versatile and valuable investment for your business. With a type of Tile Forming Machine, this machine is ideal for creating scaffold planks that meet the needs of different construction projects.

Support and Services:

Our Scaffolding Machine comes with a comprehensive technical support package to ensure that our customers get the most out of their purchases. Our team of skilled technicians is available to assist with installation, training, and troubleshooting. We also offer ongoing maintenance and repair services to keep your machine running smoothly and efficiently. Additionally, we provide spare parts and upgrades to keep your machine up to date with the latest technology. With our commitment to customer satisfaction, you can trust that our technical support and services will meet your needs.

Packing and Shipping:

Product Packaging:

The Scaffolding Making Machine will be packaged in a sturdy wooden crate to ensure it is protected during transportation.

All components and accessories will be securely packed and labeled to avoid any damage or loss during transit.

The package will be sealed and marked with the product name, model number, and other relevant information.

Shipping:

The Scaffolding Machine will be shipped via a reliable carrier, either by sea, air, or land, depending on the customer's preference and location.

The shipping cost will be calculated based on the destination, weight, and volume of the package.

The customer will be provided with a tracking number to monitor the shipment's progress and estimated delivery date.
