

## high Speed Metal Scaffolding Plank Roll Forming Machine With Mitsubishi PLC

### Our Product Introduction

#### Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Scaffold board
- Minimum Order Quantity: 1 Set
- Price: USD60000-USD95000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Rolling Thickness: 2.0-3.0mm
- Name: Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine
- Plc: Mitsubishi/ Panasonic/ Siemens
- Work Speed: 0-15m/min
- Key Selling Points: High Productivity
- Power Supply: 380V/50Hz
- Material Of Rollers: GCr15 Bearing Steel With Quench Treatment
- Type: Tile Forming Machine, Fully Automatic
- Highlight: **High Speed Scaffolding Plank Roll Forming Machine**  
**, Metal Scaffolding Plank Roll Forming Machine**

## Product Description

### Product Description:

The Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine is a new and innovative solution for creating high-quality scaffolding planks. The machine is equipped with a PLC control system, with options of Mitsubishi, Panasonic, or Siemens, which ensures accurate and precise control of the manufacturing process. The machine is easy to operate, with a touch screen interface and user-friendly controls.

The Scaffolding Planks Roll Forming Machine is in new condition, built with the latest technology and manufacturing standards to ensure that it operates at peak performance. The machine is designed for continuous and reliable operation, ensuring that you can produce high-quality scaffolding planks consistently.

The cutting system of the machine is hydraulic, which ensures clean and precise cuts every time. This feature minimizes waste and ensures that the final product is of the highest quality. The machine is also equipped with a safety system to ensure the safety of the operator and prevent accidents in the workplace.

The Plank Decking Scaffold Boards Roll Forming Machine is an essential piece of equipment for any construction or industrial business. It provides a cost-effective and efficient solution for producing high-quality scaffolding planks, reducing the need for manual labor and increasing productivity. The machine can produce planks of different lengths and thicknesses, allowing you to customize your product to fit your specific needs.

In conclusion, the Scaffolding Planks Roll Forming Machine is a reliable and efficient solution for producing high-quality scaffolding planks. Its durable construction, precise control system, and hydraulic cutting system ensure that you can produce consistent and high-quality products every time. If you are looking for a cost-effective way to produce scaffolding planks for your business, then the Scaffolding Planks Roll Forming Machine is the perfect solution for you.

### Features:

Product Name: Scaffolding Making Machine

Rolling Thickness: 2.0-3.0mm

PLC: Mitsubishi/ Panasonic/ Siemens

Type: Tile Forming Machine, Fully Automatic

Name: Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine

Material of Rollers: GCr15 Bearing Steel With Quench Treatment

Our Scaffolding Making Machine is also known as:

Scaffolding Planks Roll Forming Machine

Scaffolding Walk Board Roll Forming Machine

Scaffolding Walk Board Roll Forming Machine

#### Technical Parameters:

Work Speed	0-15m/min
Cutting System	Hydraulic Cutting
Type	Tile Forming Machine, Fully Automatic
Power Supply	380V/50Hz
Rolling Thickness	2.0-3.0mm
Material of Rollers	GCr15 Bearing Steel With Quench Treatment
Name	Metal Walk Platform Steel Scaffolding Plank Board Roll Forming Machine
Applicable Industries	Building Material Shops, Construction Works, Steel Scaffolding Plank Board
Key Selling Points	High Productivity
Condition	New

### Applications:

The Scaffolding Making Machine produced by Hangzhou Maxwell is a high-quality and reliable machine suitable for various occasions and scenarios. This machine is manufactured in Jiangsu, China, and has obtained the CE and ISO9001 certifications, ensuring its superior quality and safety. The minimum order quantity for this product is 1 set, and it is packaged and shipped in nude packing using a 40 feet container.

The Scaffolding Machine has a delivery time of 60 workdays, and payment terms include T/T and L/C. The machine has a supply ability of 30 sets per month, which makes it readily available for customers. It is a perfect fit for Building Material Shops, Construction Works, and Steel Scaffolding Plank Board industries.

The Scaffolding Making Machine is powered by a 380V/50Hz power supply and has a hydraulic cutting system. It has a work speed of 0-15m/min, which makes it efficient for mass production. This machine comes in a new condition, guaranteeing its high productivity and efficiency.

The Scaffolding Making Machine is suitable for various product application occasions and scenarios. It is ideal for producing Scaffolding Walk Board Roll Forming Machines, Plank decking Scaffold Boards Roll Forming Machines, and Scaffolding Planks Roll Forming Machines. With its high-quality material and efficient production process, it is guaranteed to provide a long-lasting and durable output for its users.

### Support and Services:

The Scaffolding Making Machine is designed to produce high-quality scaffolding with ease and efficiency. Our technical support and services for this product include:

- Installation and setup guidance to ensure the proper functioning of the machine.
- Troubleshooting assistance to resolve any issues that may arise during operation.
- Regular maintenance services to keep the machine in optimal condition and prevent breakdowns.
- Training and education resources to help users maximize the machine's capabilities and improve productivity.

Our team of experts is dedicated to providing top-notch support and services to ensure the success of your scaffolding production business.

### Packing and Shipping:

#### Product Packaging:

The scaffolding-making machine will be securely packaged in a wooden crate to ensure safe transport. The machine will be wrapped in plastic and cushioned with foam to prevent any damage during shipping.

#### Shipping:

The scaffolding-making machine will be shipped via sea transportation to the nearest port to the customer's location. The shipping cost will be calculated based on the weight and volume of the machine, as well as the distance to the destination. The customer will be responsible for any additional fees or taxes that may be incurred during customs clearance.
