

## Two In One Stud And Track Roll Forming Machine 75m/Min With Cr12Mov Blades Mitsubishi PLC

### Our Product Introduction

#### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Keel machine
- Minimum Order Quantity: 1 Set
- Price: USD8000-USD35000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Material Of Blade: Cr12Mov With Quenching
- Plc: Mitsubishi/delixa/siemens
- Machine Speed: 20-75m/min Or As Your Request
- Tile Type: PPGI, PPGI, AL
- Controller: PLC, Screen
- Material Stress: 235MPa
- Material Of Shaft: NO.45 Fine Steel With Heat Treatment  
;Diameter 75mm Shaft
- Size: 89\*41mm
- Highlight: **Two In One Stud And Track Roll Forming Machine**  
, Stud And Track Roll Forming Machine 75m/Min  
, Stud Roll Forming Machine 75m/Min

## Product Description

### Two-In-One Stud And Track Roll Forming Machine With Cr12Mov Blades Mitsubishi PLC 75m/Min Speed For PPGI And AL Tiles

#### Product Description:

The rollers of this Stud and Track Roll Forming Machine are made of Gcr15 Bearing Steel with Quenching, which makes them durable and reliable for long-term use. The machine can operate at a voltage of 380V/50Hz/3Phase, making it suitable for use in different locations across the globe. With this machine, you can be sure of producing high-quality metal studs and tracks that meet the required industry standards.

The Stud and Track Roll Forming Machine is highly efficient and can be used in various industries, including decoration ceilings. It is specially designed to produce metal studs and tracks with precision and accuracy, ensuring that the end product is of high quality and meets the required industry standards. With this machine, you can produce metal studs and tracks in large quantities, making it ideal for commercial production.

In conclusion, the Stud and Track Roll Forming Machine is a reliable and efficient Steel Channel Roll Forming Machine that produces high-quality metal studs and tracks. It is designed for use in various industries, including decoration ceilings, and is equipped with a PLC controller and a screen that makes it easy to operate, monitor and control the entire roll-forming process. With this machine, you can produce metal studs and tracks in large quantities, ensuring that your production needs are met.

#### Features:

Product Name: Stud And Track Roll Forming Machine

Tile Type: PPGI,PPGI,AL

Size: 89\*41mm

Controller: PLC, Screen

Rolling Thickness: 0.4-1.2mm

Plc: Mitsubishi/deluxe/siemens

#### Technical Parameters:

Technical Parameter	Description
Product Name	Drywall Profile Roll Forming Machine, Furring Channel Roll Forming Machine, Track Roll Forming Line and Equipment
Main Motor	Siemens
Tile Type	PPGI,PPGI,AL
Controller	PLC, Screen
Main Motor Power	30KW
Material Of Rollers	Gcr15 Bearing Steel With Quenching
Voltage	380V/50Hz/3Phase
Machine Speed	20-75m/min Or As Your Request
Material of Blade	Cr12Mov With Quenching
Applicable Industries	Decoration Ceiling
PLC	Mitsubishi/deluxe/siemens

### Applications:

Hangzhou Maxwell is a leading manufacturer of track roll forming line and equipment, including the stud and track roll forming machine and drywall profile roll forming machine. Our products are made in Zhejiang, China and are certified with CE and ISO9001.

The stud and track roll forming machine is designed for the manufacture of metal frames for drywall partition walls, gypsum ceilings, and other interior decoration applications. The machine is capable of producing high-quality metal profiles with a size of 89\*41mm, made from Gcr15 bearing steel with quenching. The material of the shaft is NO.45 fine steel with heat treatment and a diameter of 75mm shaft.

The stud and track roll forming machine can be used in a variety of different scenarios, including construction sites, renovation projects, and interior design. It can produce metal frames for drywall partition walls, gypsum ceilings, and other interior decoration applications. The machine is capable of producing profiles with high precision and quality, making it ideal for use in projects that require a high level of accuracy and consistency.

Our stud and track roll forming machine has a minimum order quantity of 1 set and is packaged in nude packing in a 40 feet container. The delivery time is 60 workdays, and we accept payment terms of T/T and L/C. Our supply ability is 30 sets per month, ensuring that we can meet the needs of our customers in a timely and efficient manner.

The stud and track roll forming machine is suitable for use in the decoration ceiling industry and is ideal for companies and contractors involved in the construction and renovation of buildings. Its high precision and quality make it a valuable tool for those looking to achieve a professional finish in their projects.

### Support and Services:

The Stud and Track Roll Forming Machine is a high-tech and efficient machine used for the production of metal studs and tracks. It is designed to be user-friendly and easy to operate. Our technical support team is available to assist with any issues or questions that may arise during the operation of the machine.

We offer a range of services to ensure the proper functioning and maintenance of the Stud and Track Roll Forming Machine. These services include:

[Installation and setup](#)

[Training for operators and maintenance personnel](#)

[Regular maintenance and repair](#)

[Replacement parts and components](#)

[24/7 technical support](#)

Our team of experts is committed to ensuring that our customers receive the highest level of support and service. We are dedicated to the success of your business and the longevity of your Stud and Track Roll Forming Machine.

### **Packing and Shipping:**

Product Packaging:

The Stud And Track Roll Forming Machine will be packed in a wooden case to ensure safe transportation. The machine will also be wrapped in a plastic film to protect it from external damage.

Shipping:

The Stud And Track Roll Forming Machine will be shipped via sea or air freight, depending on the customer's preference. We will arrange for timely delivery to the customer's location and provide tracking information as soon as it becomes available.
