

220V Auxiliary Equipment Steel Uncoiler Machine For PPGL And Zinc Coil Feeding

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Decolier
- Minimum Order Quantity: 1 Set
- Price: USD5000-USD18000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

Product Specification

- Machine Type: Steel/PPGL/zinc
- Display: Digital
- Voltage: 220V
- Core Components: Motor, Pump, Other
- Frequency: 50Hz
- Key Selling Points: Easy To Operate
- Usage: Uncoil
- Feeding Width: 1250mm
- Highlight: **220V Auxiliary Equipment, Steel Uncoiler Machine**

Product Description

Digital Display 220V Auxiliary Steel Uncoiler Machine For PPGI And Zinc Coil Feeding

Product Description:

The drive system of the Auxiliary Equipment product sets it apart from other machines in the market. It is fully automatic, making it very easy to operate. This drive system ensures that the machine is always in perfect synchronization with the production process, providing high-quality results every time. Additionally, the machine is equipped with a hydraulic decoiler, which is responsible for unwinding the material and feeding it into the production process. The hydraulic decoiler is highly efficient and reliable, ensuring that the machine operates smoothly and without any interruptions.

The Auxiliary Equipment product is also equipped with an electric decoiler, which is responsible for unwinding the material and feeding it into the production process. The electric decoiler is highly efficient and reliable, ensuring that the machine operates smoothly and without any interruptions. It is designed with the latest technology, making it easy to operate and maintain.

This product comes with a one-year warranty, giving customers peace of mind knowing that they are investing in a high-quality and reliable machine. The warranty covers any defects in the materials or workmanship of the machine, ensuring that customers receive the best value for their money.

The key selling points of the Auxiliary Equipment product are its ease of operation and high efficiency. The fully automatic drive system makes it easy for operators to use, while the hydraulic decoiler and electric decoiler ensure that the machine runs smoothly and without any interruptions. This product is perfect for businesses that want to increase their production capabilities while maintaining high-quality standards.

Features:

Product Name: Uncoiler Machine

Voltage: 220V

Key Selling Points: Easy To Operate

Usage: Uncoil

Warranty: 1 Year

Feeding Width: 1250mm

Hydraulic Decoiler

Electric Decoiler

Electric Decoiler

Technical Parameters:

Operate Style	Fully Automatic
Feeding Width	1250mm
Voltage	220V
Core Components	Motor, Pump, Other
Machine Type	Steel/PPGI/zinc
Display	Digital
Usage	Uncoil
Warranty	1 Year
Key Selling Points	Easy To Operate
Frequency	50Hz

Applications:

The Electric Decoiler is a high-performance machine that is suitable for those who need to process metal sheets or coils in a fast and efficient manner. The Electric Decoiler is easy to operate and can be used for a wide range of applications. It is driven vertically by hydraulic cylinder with four guide pillars, ensuring its stability during operation. The Electric Decoiler is also CE and ISO9001 certified, ensuring its high quality and safety standards. It has a voltage of 220V and operates at a frequency of 50Hz. The minimum order quantity for this product is 1 set, and it comes with a 1-year warranty.

The Hydraulic Decoiler is another type of auxiliary equipment that is widely used in various industries. It is suitable for those who need to process metal sheets or coils in a more heavy-duty and demanding environment. The Hydraulic Decoiler is driven by a hydraulic system, which makes it more powerful and efficient. It is also easy to operate and can be used for a wide range of applications. The Hydraulic Decoiler is CE and ISO9001 certified and has a voltage of 220V. The minimum order quantity for this product is 1 set, and it comes with a 1-year warranty.

The Hangzhou Maxwell Auxiliary Equipment product is suitable for a wide range of applications, such as the construction industry, manufacturing industry, and processing industry. It is ideal for those who need to process large amounts of metal sheets or coils. The product is packaged in nude packing in a 40 feet container and has a delivery time of 60 workdays. Payment terms for this product include T/T and L/C, and it has a supply ability of 100 sets per month.

In summary, the Hangzhou Maxwell Auxiliary Equipment product is a high-quality and versatile machinery that is suitable for various industries. It is available in two types: Electric Decoiler and Hydraulic Decoiler, both of which are easy to operate and come with a 1-year warranty. The product is CE and ISO9001 certified, ensuring its high quality and safety standards. The minimum order quantity for this product is 1 set, and it comes with a delivery time of 60 workdays. Payment terms for this product include T/T and L/C, and it has a supply ability of 100 sets per month.

Customization:

- Brand Name: Hangzhou Maxwell
- Place of Origin: Zhejiang, China
- Certification: CE, ISO9001
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon
- Warranty: 1 Year
- Key Selling Points: Easy To Operate
- Machine Type: Steel/PPGI/zinc
- Drive: It Is Driven Vertically By a Hydraulic Cylinder With Four Guide Pillars.
- Usage: Uncoil

This product is available in three types of decoilers: Electric Decoiler, Electric Decoiler, and Hydraulic Decoiler. Please contact us for more information.

Support and Services:

The Auxiliary Equipment product line includes a wide range of devices that can be used to supplement and enhance existing systems. Technical support and services for these products include:

- Installation assistance and guidance
- Troubleshooting and issue resolution

- Maintenance and repair services
- Product training and education
- Customization and modification services to meet specific customer needs

Our team of experts is available to assist with any questions or concerns related to the Auxiliary Equipment product line. Contact us for more information on how we can help optimize your system with our high-quality products and services.
