

220V Vertical Cylinder 8 Tons Hydraulic Decoiler With Digital Display

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Decoiler
- Minimum Order Quantity: 1 Set
- Price: USD4,000--USD5,500
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

Product Specification

- Feeding Width: 1250mm
- Key Selling Points: Easy To Operate
- Display: Digital
- Core Components: Motor, Pump, Other
- Usage: Uncoil
- Drive: It Is Driven Vertically By Hydraulic Cylinder With Four Guide Pillars.
- Voltage: 220V
- Machine Type: Steel/PPGI/zinc
- Highlight: Vertical Cylinder Hydraulic Decoiler, 8 Tons Hydraulic Decoiler, 220V Hydraulic Decoiler

Product Description

Steel/PPGI/Zinc Easy To Operate 220V Vertical Cylinder 8Tons Hydraulic Decoiler With Digital Display

Product Description:

The key selling point of this product is its ease of use. With a fully automatic operation style, it is simple to operate and requires minimal training. This makes it perfect for manufacturers who need to produce high-quality products quickly and efficiently.

One of the standout features of the Auxiliary Equipment product is its ability to uncoil materials quickly and easily. This is achieved through the use of an electric decoiler, which allows for smooth and efficient feeding of materials. The feeding width of this product is 1250mm, making it suitable for a wide range of applications.

For those who require even greater efficiency and speed, the product is also available with a hydraulic decoiler. This allows for even faster and more precise feeding of materials and is ideal for manufacturers who need to produce large quantities of products in a short amount of time.

Overall, the Auxiliary Equipment product is an essential tool for any manufacturer looking to improve their operations and increase efficiency. With its easy-to-use design and range of features, it is a must-have for anyone looking to take their manufacturing to the next level.

Features:

Product Name: r 8Tons Hydraulic Decoiler

Frequency: 50Hz

Core Components: Motor, Pump, Other

Feeding Width: 1250mm

Key Selling Points: Easy To Operate

Operate Style: Fully Automatic

Electric Decoiler

Electric Decoiler

Hydraulic Decoiler

Technical Parameters:

Electric Decoiler	
Feeding Width	1250mm
Voltage	220V
Machine Type	Steel/PPGI/zinc
Core Components	Motor, Pump, Other
Frequency	50Hz
Usage	Uncoil
Key Selling Points	Easy To Operate
Warranty	1 Year
Display	Digital
Operate Style	Fully Automatic

Applications:

Our electric and hydraulic decoilers are ideal for uncoiling metal sheets, coils, or strips. They are perfect for a wide range of applications and scenarios, including:

Roofing and wall panel production

Automotive manufacturing

Steel structure construction

Home appliance production

Hardware manufacturing

Our decoilers come in two variants: electric and hydraulic. Both variants are fully automatic with a digital display, making them easy to operate and control. The electric decoiler is suitable for lighter loads, while the hydraulic decoiler can handle heavier loads up to 10 tons. We offer a minimum order quantity

Customization:

Our Electric Decoiler is a popular customization option for this product.

Support and Services:

Our Auxiliary Equipment product comes with comprehensive product technical support and services to ensure optimal performance and longevity. Our team of experts is available to assist you with any technical questions or issues you may have, including installation, configuration, troubleshooting, and maintenance. We also offer training programs to help you get the most out of your equipment and ensure safe and efficient operation.

Our technical support and services include:

24/7 customer support

On-site technical assistance

Remote diagnostics and troubleshooting

Equipment installation and commissioning

Preventative maintenance and repair services

Equipment upgrades and retrofits

Training and certification programs
