

## Steel Electric Hydraulic Decoiler Machine Fully Automatic 50Hz With Digital Display

Our Product Introduction

### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Decolier
- Minimum Order Quantity: 1 Set
- Price: USD4500-USD28000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

### Product Specification

- Display: Digital
- Operate Style: Fully Automatic
- Key Selling Points: Easy To Operate
- Drive: It Is Driven Vertically By Hydraulic Cylinder With Four Guide Pillars.
- Warranty: 1 Year
- Frequency: 50Hz
- Machine Type: Steel/PPGI/zinc
- Voltage: 220V
- Highlight: **Electric Hydraulic Decoiler Machine,  
Hydraulic Decoiler Machine Fully Automatic,

## Product Description

### Steel Electric Hydraulic Decoiler Machine Fully Automatic 50Hz Frequency With Digital Display

#### Product Description:

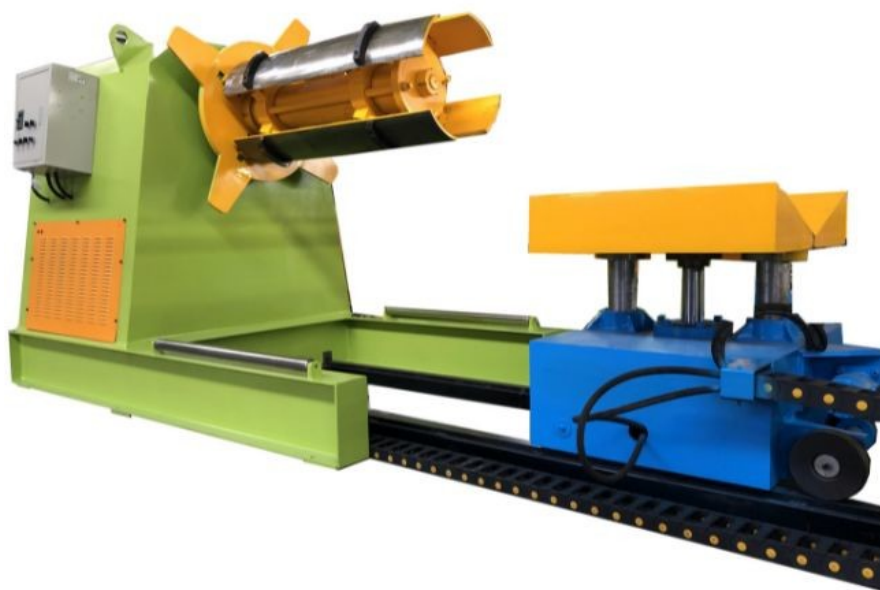

The Auxiliary Equipment product comes with a 1-year warranty, ensuring that any defects or malfunctions that occur within that time period will be covered. This gives users peace of mind when purchasing and using the machine for their business needs.

The voltage of the machine is 220V, providing a stable and consistent power source for the machine to operate smoothly. This means that users can rely on the machine to function properly without any power-related issues.

The machine is equipped with a digital display that provides accurate and real-time information about the status of the machine. This feature allows users to monitor and control the machine's performance, ensuring that it is running at optimal levels and detecting any issues that may arise.

The use of the machine is primarily for uncoiling materials, making it an indispensable tool for industrial and manufacturing settings. The Hydraulic Decoiler is a key component of the machine that enables users to uncoil materials quickly and efficiently, saving time and increasing productivity.

The Auxiliary Equipment product is made up of various core components, including a motor, pump, and other essential parts. These components work together to ensure that the machine operates smoothly and efficiently, providing users with a reliable and long-lasting solution for their uncoiling needs.

#### Features:

Product Name: Hydraulic Decoiler Machine With Loading Cart

Drive: It Is Driven Vertically By Hydraulic Cylinder With Four Guide Pillars.

Machine Type: Steel/PPGI/zinc

Display: Digital

Core Components: Motor, Pump, Other

Feeding Width: 1250mm

#### Technical Parameters:

Key Selling Points:	Easy To Operate
Feeding Width:	1250mm
Machine Type:	Steel/PPGI/zinc
Voltage:	220V
Usage:	Uncoil
Warranty:	1 Year
Core Components:	Motor, Pump, Other
Operate Style:	Fully Automatic
Display:	Digital
Drive:	It Is Driven Vertically By a Hydraulic Cylinder With Four Guide Pillars.
