

220V Steel / PPGL / Zinc Hydraulic Decoiler Easy Operation 1 Year Warranty

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Decoiler
- Minimum Order Quantity: 1 Set
- Price: USD7000--USD150000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

Product Specification

- Machine Type: Steel/PPGL/zinc
- Frequency: 50Hz
- Voltage: 220V
- Drive: It Is Driven Vertically By Hydraulic Cylinder With Four Guide Pillars.
- Display: Digital
- Warranty: 1 Year
- Usage: Uncoil
- Key Selling Points: Easy To Operate
- Name: Hydraulic Decoiler
- Highlight: **Zinc Hydraulic Decoiler, Hydraulic Decoiler Easy Operation, 220V Hydraulic Decoiler**

Easy Operation 220V Steel/PPGI/Zinc10Tons Hydraulic Decoiler Drive Digital Display

Product Description:

One of the key selling points of this machine is its ease of use. It is designed to be as intuitive as possible, with simple controls that make it easy for even inexperienced operators to use effectively. This makes it an ideal choice for small businesses and workshops that need a reliable and efficient machine without the need for extensive training or experience.

The Auxiliary Equipment product is designed to operate on a 220V voltage, making it compatible with standard power outlets found in most workplaces. It also operates at a frequency of 50Hz, providing a reliable and consistent power source that ensures smooth and efficient operation.

This machine is available in various configurations to suit multiple needs. For instance, it is available as a hydraulic decoiler, which uses a hydraulic cylinder to unwind the material and prepare it for further processing. This configuration is ideal for larger materials that require more power to unwind and handle effectively.

Alternatively, the Auxiliary Equipment product is also available as an electric decoiler. This configuration uses an electric motor to unwind the material, providing a more efficient and cost-effective solution for materials that are smaller or require less power to handle.

In conclusion, the Auxiliary Equipment product is a versatile and reliable machine that is perfect for use in a wide range of industries. Its hydraulic and electric decoiler configurations provide options for a variety of material sizes and types, while its ease of use and standard voltage and frequency make it a practical choice for any workplace.

Features:

Product Name: 10Tons Hydraulic Decoiler with Loading Cart

Display: Digital

Feeding Width: 1250mm

Drive: It Is Driven Vertically By a Hydraulic Cylinder With Four Guide Pillars.

Frequency: 50Hz

Operate Style: Fully Automatic

Electric Decoiler

Electric Decoiler

Electric Decoiler

Technical Parameters:

Drive	Hydraulic Cylinder with Four Guide Pillars
-------	--

Machine Type	Steel/PPGI/Zinc
Usage	Uncoil
Frequency	50Hz
Operate Style	Fully Automatic
Core Components	Motor, Pump, Other
Feeding Width	1250mm
Voltage	220V
Warranty	1 Year
Key Selling Points	Easy to Operate

Applications:

The Hangzhou Maxwell Auxiliary Equipment is a fully automatic machine that is easy to operate. The frequency of the motor and pump is 50Hz, making it efficient and reliable. The core components of this machine are the motor, pump, and other parts that are carefully designed to ensure durability and longevity.

This machine is designed for uncoiling purposes, and it is suitable for various applications. It is perfect for use in the construction industry, where it can be used to uncoil steel coils for roofing and cladding. It is also suitable for use in the manufacturing industry, where it can be used to uncoil metal sheets for different purposes.

The Hangzhou Maxwell Auxiliary Equipment is available in two different models: the hydraulic decoiler and the electric decoiler. You can choose the model that best suits your needs and budget. With a supply ability of 100 sets per month, you can be sure to get your machine within a short time.

Whether you need an electric decoiler or a hydraulic decoiler, the Hangzhou Maxwell Auxiliary Equipment is an excellent choice. It is a product that you can rely on to get the job done. You can pay using T/T or L/C, making it easy to complete your order. Get your Hangzhou Maxwell Auxiliary Equipment today and take your business to the next level.

Customization:

Brand Name: Hangzhou Maxwell

Place of Origin: Zhejiang, China

Certification: CE, ISO9001

Minimum Order Quantity: 1 Set

Packaging Details: Nude Packing In a 40 Feet Container

Delivery Time: 60 workdays

Payment Terms: T/T;L/C

Supply Ability: 100 Set per Month

Core Components: Motor, Pump, Other

Usage: Uncoil

Key Selling Points: Easy To Operate

Drive: It Is Driven Vertically By Hydraulic Cylinder With Four Guide Pillars.

Operate Style: Fully Automatic

Electric Decoiler: This product comes with an electric decoiler for easy uncoiling.

Support and Services:

Our Auxiliary Equipment product comes with comprehensive technical support and services to ensure optimal performance and longevity. Our team of experts is available to assist with installation, operation, and maintenance queries. We also offer training programs to ensure your team is equipped with the knowledge and skills to operate the equipment effectively. In addition, we provide repair and replacement services as needed, using genuine parts to ensure compatibility and reliability. Our goal is to provide reliable and efficient equipment that meets your needs, backed by exceptional customer support and service.
