

## Hydraulic Cutting Steel Door Frame Roll Forming Machine With Cr12 Roller

### Our Product Introduction

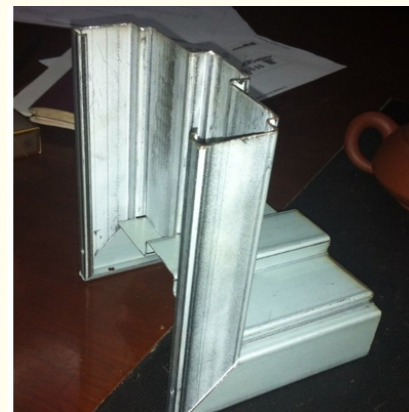

#### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Door Frame
- Minimum Order Quantity: 1 Set
- Price: USD40,000--USD75,000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Material: Steel
- Roller Material: Cr12
- Warranty: 1 Year
- Applicable Industries: Hotels, Garment Shops, Building Material Shops, Manufacturing Plant, Machinery Repair Shops, Food & Beverage Factory, Farms, Restaurant, Home Use, Retail, Food Shop, Printing Shops, Construction Works, Energy & Mining, Food & Beverage Shops, Other, Advert
- Power Source: Electric
- Cutting Blade Material: Cr12Mov
- Core Components: Pressure Vessel, Motor, Other, Bearing, Gear, Pump, Gearbox, Engine, PLC
- Cutting Type: Hydraulic Cutting

Hydraulic Cutting Steel Door Frame Roll Forming Machine With Cr12 Roller Electric Power Source

Product Description:

The Door Window Roll Forming Machine is made from high-quality steel, making it durable and long-lasting. The machine is equipped with several core components including a pressure vessel, motor, bearing, gear, pump, gearbox, engine, and PLC. These components work together to ensure that the machine operates smoothly and efficiently.

The cutting blade material of the Door Window Roll Forming Machine is Cr12Mov, which is a high-quality material that is known for its durability and strength. This material ensures that the machine can produce precise and accurate cuts every time.

The main motor power of the Door Window Roll Forming Machine is 5.5kW, which is a powerful motor that can handle the demands of production. This motor powers the machine and ensures that it can produce rolling shutter doors quickly and efficiently.

The Door Window Roll Forming Machine uses hydraulic cutting technology, which is a precise and efficient cutting method. This cutting method ensures that the machine can produce high-quality rolling shutter doors with clean and precise cuts.

The Door Window Roll Forming Machine is a versatile machine that can produce rolling shutter doors of various sizes and shapes. It is designed to meet the needs of commercial and residential properties and is perfect for use in factories, warehouses, and other industrial settings. With its durable construction and efficient operation, the Door Window Roll Forming Machine is a reliable and long-lasting investment for any business.

Features:

Product Name: Door Window Roll Forming Machine  
Roller Material: Cr12  
Machine Frame: Frame Structure  
Material: Steel  
Main Motor Power: 5.5kW  
Power Source: Electric

Technical Parameters:

Fully automatic roll forming machine Door Frame Making Machine		
1. Formed Material	PPGI,GI,Al	Thickness:0.3-0.8mm Width:1000mm/1250mm(customized)
2. Decoiler	Hydraulic automatic decoiler	Manual decoiler(will give you as free)

<b>3. Main body</b>	Roller station	18 rows(As your requirement)
	Diameter of shaft	80mm solid shaft
	Material of rollers	45# steel, hard chrome plated on the surface
	Machine body frame	350 H steel
	Drive	Chain transmission
	Dimension(L*W*H)	9500*1600*1600(customize)
	Weight	6.5T
<b>4. Cutter</b>	Automatic	cr12mov material, no scratches, no deformation
<b>5. Power</b>	Motor Power	5.5KW
	Hydraulic system power	4.5KW
<b>6. Voltage</b>	380V 50Hz 3Phase	As your requirement
<b>7. Control system</b>	Electric Box	Customized(famous brand)
	Language	English(Support multiple languages)
	PLC	Automatic production of the whole machine. Can set batch, length, quantity, etc.
<b>18. Forming Speed</b>	15-20m/min	The speed is adjustable

### Applications:

The Shutter Roll Forming Machine is a perfect solution for creating high-quality rolling shutter doors. With a minimum order quantity of 1 set, our machines come packed in a 40 feet container and are delivered within 60 workdays. Our payment terms are flexible, with options for T/T and L/C.

Our Shutter Roll Forming Machines are powered by electricity, with a main motor power of 5.5kW. The cutting blade material is made of Cr12Mov, ensuring durability and longevity. The control system is PLC, which ensures accurate and efficient operation.

These machines are suitable for a variety of product application occasions and scenarios. They can be used to create rolling shutter doors for residential buildings, commercial establishments, and industrial warehouses. They can also be used to create garage doors, security doors, and fire doors.

Our machines are easy to operate, and our technical team provides full support during installation and training. With a supply ability of 30 sets per month, we can meet the demands of both small and large-scale businesses.

Investing in a Shutter Roll Forming Machine by Hangzhou Maxwell is a wise decision for any business looking to create high-quality rolling shutter doors. Our machines are built to last and provide excellent value for money. Contact us today to learn more!

### Customization:

### Support and Services:

The Door Window Roll Forming Machine is a high-quality product that is built to last. It is designed to produce doors and windows with precision and speed, ensuring that your production line runs smoothly and efficiently. Our technical support team is available to assist you with any questions or issues you may encounter, and we offer a range of services to keep your machine running optimally.

Our technical support services include:

24/7 phone support

Email support

Remote troubleshooting and diagnostics

On-site repair and maintenance

In addition to our technical support services, we also offer:

Training and education for your operators and maintenance staff

Customization options to meet your specific needs

Upgrades and retrofits to keep your machine up-to-date

Our goal is to provide you with the highest level of customer support and ensure that your Door Window Roll Forming Machine operates at peak performance throughout its lifespan.

### Packing and Shipping:

Product Packaging:

The Door Window Roll Forming Machine will be securely packaged in a wooden crate to prevent any damage during transportation.

Foam padding will be used to protect the machine from any impact or shock.

All necessary accessories and parts will be included in the package.

Shipping:

The Door Window Roll Forming Machine will be shipped via sea or air freight, depending on the customer's preference and location.

The shipping cost will be calculated based on the weight and dimensions of the package, as well as the destination address.  
The estimated delivery time will be provided to the customer once the order is confirmed and payment is received.  
Customers are responsible for any customs duties or taxes that may apply in their country.
