Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Shutter door
- Minimum Order Quantity: 1 Set
- Price: USD15000-USD35000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Name: Door Window Roll Forming Machine
- Core Components: Pressure Vessel, Motor, Other, Bearing, Gear, Pump, Gearbox, Engine, PLC
- Material: Steel
- Cutting Blade Material: Cr12Mov
- Warranty: 1 Year
- Applicable Industries: Hotels, Garment Shops, Building Material Shops, Manufacturing Plant, Machinery Repair Shops, Food & Beverage Factory, Farms, Restaurant, Home Use, Retail, Food Shop, Printing Shops, Construction Works, Energy & Mining, Food & Beverage Shops, Other, Advert
- Material Of Rollers: NO.45 Fine Steel With Quenching
- Roller Stations: 32stands

Product Description

YX77 Steel Shutter Door Roll Forming Machine With Cr12 Rollers 32 Stand Stations

Product Description:

This Shutter Door Roll Forming Machine is suitable for use in various industries such as hotels, garment shops, building material shops, manufacturing plants, machinery repair shops, food & beverage factories, farms, restaurants, home use, retail, food shops, printing shops, construction works, energy & mining, food & beverage shops, other, and advertising companies. This machine is versatile and can be used in many different applications.

The rolling thickness of this machine is 0.3-0.8mm, which is perfect for producing high-quality shutter doors and windows. The machine is easy to use and requires minimal training to operate. It is also easy to maintain and does not require a lot of maintenance.

This Door Frame Roll Forming Machine is also known as the Australia Style Shutter Door Roll Forming Machine. It is a high-quality machine that is designed to produce high-quality door and window frames. The machine is easy to use and requires minimal training to operate. It is also easy to maintain and does not require a lot of maintenance.

In conclusion, the Shutter Door Roll Forming Machine is a high-quality machine that is designed to produce high-quality door and window frames. It is made of steel, which makes it durable and long-lasting. The main motor power of this machine is 5.5kW, making it powerful and efficient. The roller material used in this machine is Cr12, which is a high-quality material that ensures the quality of the finished product. This machine is suitable for use in various industries and is easy to use and maintain. It is also known as the Australia Style Shutter Door Roll Forming Machine.

Features:

Product Name: Shutter Door Roll Forming Machine

Rolling Thickness: 0.3-0.8mm

Applicable Industries:

Hotels

Garment Shops

Building Material Shops

Manufacturing Plant

Machinery Repair Shops

Food & Beverage Factory

Farms

Restaurant

Home Use

Retail

Technical Parameters:

Main Motor Power	5.5kW
Material	Steel
Control System	PLC
Applicable Industries	Hotels, Garment Shops, Building Material Shops, Manufacturing Plant, Machinery Repair Shops, Food & Beverage Factory, Farms, Restaurant, Home Use, Retail, Food Shop, Printing Shops, Construction Works , Energy & Mining, Food & Beverage Shops, Other, Advertising Company
Roller Stations	14stands
Warranty	1 Year
Rolling Thickness	0.3-0.8mm
Machine Frame	Vertical Arch Frame Structure
Cutting Blade Material	Cr12Mov
Name	Shutter Door Roll Forming Machine

This is a Door Window Roll Forming Machine, also known as a Drywall Roll Forming Machine or Door Frame Roll Forming Production Line.

Applications:

The Door Window Roll Forming Machine is manufactured in Zhejiang, China, and has been certified with both CE and ISO9001. The machine has a minimum order quantity of 1 set and is packaged in nude packing in a 40-foot container. The delivery time for the machine is 60 workdays, and the payment terms are T/T or L/C. The machine has a supply ability of 30 sets per month. The machine is capable of rolling thicknesses of 0.3-0.8mm and features a vertical arch frame structure. The cutting type of the machine is hydraulic cutting, and its core components include a pressure vessel, motor, bearing, gear, pump, gearbox, engine, and PLC. The cutting blade material of the machine is Cr12Mov. The Door Window Roll Forming Machine is suitable for use in a range of industries, including construction, manufacturing, and engineering. It is perfect for use in the production of the bottom strip of door roll forming machine, bottom strip of garage door roll forming machine, door frame roll forming machine, and other similar products.

Support and Services:

Our Door Window Roll Forming Machine is a reliable and high-quality product designed to meet the needs of a variety of manufacturing industries. We offer comprehensive technical support services to ensure that your machine is always operating at peak performance, including:

24/7 phone support

On-site training for operators and maintenance staff

Remote troubleshooting and diagnostics

Regular maintenance and servicing

Replacement parts and repairs

We pride ourselves on providing exceptional customer service and technical expertise to help you get the most out of your Door Window Roll Forming Machine. Contact us today to learn more about our support services.

Packing and Shipping:

Product Packaging:

The door window roll forming machine will be packed in a wooden case to prevent any damage during transportation.

All components will be securely fastened and protected with foam and plastic wrapping.

The wooden case will be labeled with the product name, specifications, and handling instructions.

Shipping:

The door window roll forming machine will be shipped via sea, air, or land transportation depending on the customer's preference and location.

Shipping time and cost will vary depending on the shipping method and destination.

Customers will be provided with a tracking number to monitor the status of their shipment.
