

## Metal Galvanized Steel PU Shutter Door Roll Forming Machine / Door Frame Roll Forming Machine

### Our Product Introduction

#### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Shutter door
- Minimum Order Quantity: 1 Set
- Price: USD18000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Core Components: Pressure Vessel, Motor, Other, Bearing, Gear, Pump, Gearbox, Engine, PLC
- Main Motor Power: 7.5kW
- Warranty: 1 Year
- Name: Shutter Door Roll Forming Machine
- Material: Steel
- Roller Stations: 14stands
- Cutting Blade Material: Cr12Mov
- Control System: PLC
- Highlight: **Metal PU Shutter Door Roll Forming Machine, Galvanized Steel PU Shutter Door Roll Forming Machine, Metal Rolling Shutter Forming Machine**

## Product Description

### Metal Galvanized Steel PU Shutter Door Roll Forming Machine Door Frame Roll Forming Machine

#### Product Description:

Powered by electricity, this Drywall Roll Forming Machine is built to last and is made from high-quality steel that is both durable and reliable. The control system of the machine is a PLC system that ensures that the machine operates smoothly and efficiently. This system is user-friendly and can be easily operated by anyone with basic knowledge of the machine.

The Shutter Door Roll Forming Machine is designed to produce high-quality steel shutter doors that are suitable for a wide range of applications. The machine is easy to operate and requires minimal maintenance, making it an excellent investment for any business looking to increase its productivity and profitability. The machine is also designed to be flexible and can be easily adjusted to meet the specific needs of any business or application.

Overall, the Australia-style Shutter Door Roll Forming Machine is an excellent investment for any business that requires high-quality steel shutter doors. Its durable construction, user-friendly operation, and flexible design make it an excellent choice for a wide range of industries and applications. Whether you are looking for a machine for your hotel, garment shop, manufacturing plant, restaurant, or any other business, the Shutter Door Roll Forming Machine is an excellent choice that will help you increase your productivity and profitability.

#### Features:

Product Name: PU Shutter Door Roll Forming Machine

Material: Steel

Warranty: 1 Year

Rolling Thickness: 0.6-1.0mm

Applicable Industries:

Hotels

Garment Shops

Building Material Shops

Manufacturing Plant

Machinery Repair Shops

Food & Beverage Factory

Farms

Restaurant

Home Use

Retail

Food Shop

Printing Shops

Construction Works

Energy & Mining

Food & Beverage Shops

Other

Advertising Company

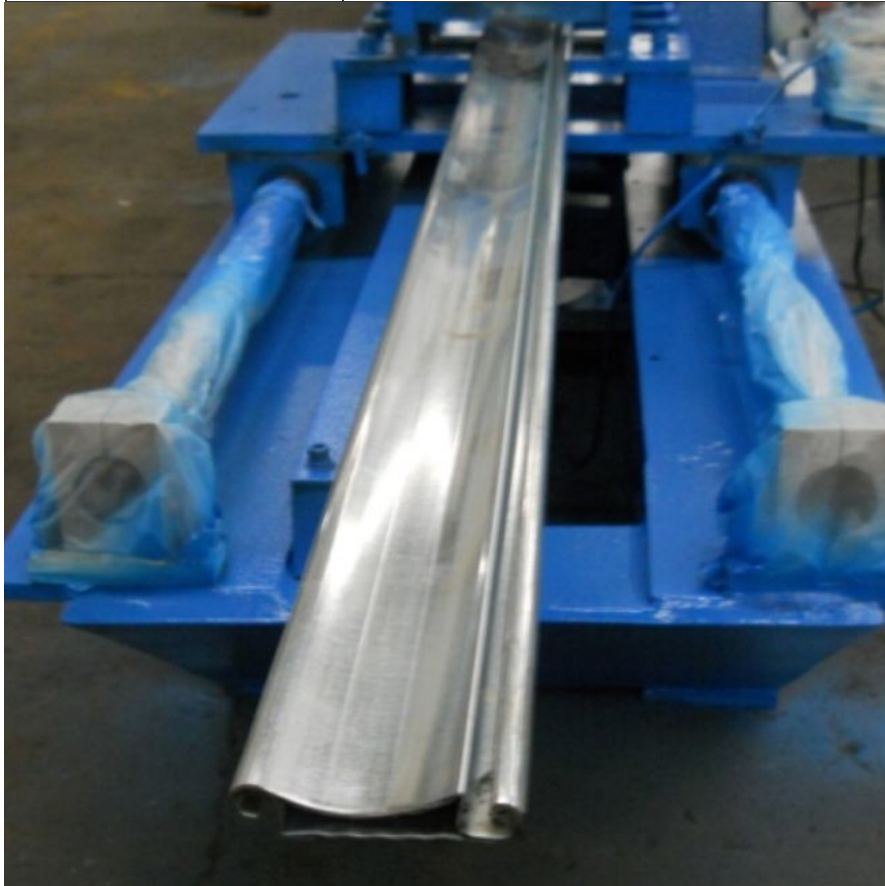

Power Source: Electric

The Door Window Roll Forming Machine is also known as the Door Frame Making Machine.

#### Technical Parameters:

|              |                                      |
|--------------|--------------------------------------|
| Product Name | PU Shutter Door Roll Forming Machine |
|--------------|--------------------------------------|

|                        |  |
|------------------------|--|
| Control System         | PLC  |
| Material               | Steel  |
| Roller Stations        | 14stands   |
| Roller Material        | Gcr15 Bearing Steel With Quench Treatment,HRC58-62 |
| Cutting Blade Material | Cr12Mov  |
| Power Source           | Electric   |
| Machine Frame          | Vertical Arch Frame Structure                      |
| Warranty               | 1 Year   |
| Cutting Type           | Hydraulic Cutting                                  |

### Applications:

The Door Window Roll Forming Machine is a versatile product that can be used in various industries such as hotels, garment shops, building material shops, manufacturing plants, machinery repair shops, food & beverage factories, farms, restaurants, home use, retail, food shop, printing shops, construction works, energy & mining, food & beverage shops, other, and advertising companies. The machine can produce door frames with a rolling thickness of 0.6-1.0mm. The roller material is Cr12.

The Door Frame Making Machine is powered by electricity and has various core components such as pressure vessel, motor, bearing, gear, pump, gearbox, engine, and PLC. The Door Frame Roll Forming Production Line is a perfect solution for those who are looking for a reliable and efficient way to produce door frames. With the supply ability of 30 sets per month, it is an excellent choice for those who need high-quality door frames in large quantities.

### Support and Services:

The Door Window Roll Forming Machine is a high-quality product designed for the efficient production of door and window frames. Our technical support and services team is available to provide assistance with any issues you may encounter during the installation, operation, and maintenance of the machine. Our services include:

[Installation and setup assistance](#)

[Training on machine operation and maintenance](#)

[Technical troubleshooting and support](#)

[Regular maintenance and repair services](#)

[Upgrades and customization options](#)

We are committed to ensuring that our customers receive the best possible support and services to maximize the performance and lifespan of their Door Window Roll Forming Machine.

### Packing and Shipping:

The Door Window Roll Forming Machine will be packed in a wooden case to ensure safe transportation. The machine will be covered with a protective film to prevent any scratches during transit.

**Shipping:**

Shipping will be arranged via sea or airfreight, depending on the customer's preference. The shipping cost will be calculated based on the destination and mode of transportation chosen by the customer. We will ensure that the machine is shipped in a timely and efficient manner to reach the customer's location as soon as possible.
