

Hydraulic Cutting Shutter Door Rolling Machine , Bottom Slat Roll Forming Machine

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Shutter door
- Minimum Order Quantity: 1 Set
- Price: USD12000-USD20000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Rolling Thickness: 0.8-1.5mm
- Warranty: 1 Year
- Cutting Type: Hydraulic Cutting
- Applicable Industries: Hotels, Garment Shops, Building Material Shops, Manufacturing Plant, Machinery Repair Shops, Food & Beverage Factory, Farms, Restaurant, Home Use, Retail, Food Shop, Printing Shops, Construction Works, Energy & Mining, Food & Beverage Shops, Other, Advert
- Control System: PLC
- Main Motor Power: 5.5kW
- Machine Frame: Vertical Arch Frame Structure
- Core Components: Pressure Vessel, Motor, Other, Bearing, Gear, Pump, Gearbox, Engine, PLC

Product Description

Shutter Door Bottom Slat Roll Forming Machine Door Frame Roll Forming Machine

Product Description:

The machine comprises various core components such as the pressure vessel, motor, bearing, gear, pump, gearbox, engine, and PLC. All these components are of high quality and are designed to deliver precise and efficient performance. The vertical arch frame structure of the machine ensures that it is stable and sturdy during the production process.

The Shutter Door Bottom Slat Roll Forming Machine is designed to produce high-quality shutter doors that are suitable for various industrial and commercial applications. With this machine, you can produce doors of different sizes and designs, making it ideal for any manufacturing plant that needs to produce customized doors.

The Shutter Door Bottom Slat Roll Forming Machine is easy to operate and requires minimal maintenance, making it an excellent investment for any manufacturing plant. The machine is energy-efficient and comes with various safety features that ensure that the production process is safe and efficient. The machine is also easy to install, and our team of experts will be on hand to assist you with the installation process.

In conclusion, the Shutter Door Bottom Slat Roll Forming Machine is an excellent investment for any manufacturing plant that needs to produce high-quality shutter doors, door frames, and door frame roll forming production lines. With its durable steel construction, stable vertical arch frame structure, and reliable core components, this machine is designed to deliver precise and efficient performance. So, if you are looking for a reliable and efficient shutter door roll forming machine, look no further than this product.

Features:

Product Name: Shutter Door Bottom Slat Roll Forming Machine

Applicable Industries:

Hotels

Garment Shops

Building Material Shops

Manufacturing Plant

Machinery Repair Shops

Food & Beverage Factory

Farms

Restaurant

Home Use

Retail

Food Shop

Printing Shops

Construction Works

Energy & Mining

Technical Parameters:

Cutting Type	Hydraulic Cutting
Applicable Industries	Hotels, Garment Shops, Building Material Shops, Manufacturing Plant, Machinery Repair Shops, Food & Beverage Factory, Farms, Restaurant, Home Use, Retail, Food Shop, Printing Shops, Construction Works , Energy & Mining, Food & Beverage Shops, Other, Advertising Company
Machine Frame	Vertical Arch Frame Structure
Warranty	1 Year
Name	Shutter Door Roll Forming Machine
Roller Material	Cr12
Roller Stations	12 stands
Control System	PLC
Cutting Blade Material	Cr12Mov
Main Motor Power	5.5kW

Applications:

The Door Frame Roll Forming Machine is an electric-powered machine with core components such as pressure vessels, motors, bearings, gears, pumps, gearboxes, engines, and PLCs. The machine's cutting blade is made of Cr12Mov, a high-quality material that ensures precision and durability. The machine is easy to use, and it is suitable for both large and small-scale production. The Door Frame Roll Forming Machine has a minimum order quantity of one set, and it comes in nude packing in a 40 feet container.

The Door Frame Roll Forming Production Line is suitable for various occasions and scenarios. It is ideal for construction companies that specialize in the production of door frames, window frames, and other metal frames. This machine can also be used by metal manufacturers who are looking to expand their product line. The Door Frame Roll Forming Production Line is perfect for those who want to start a new business in the metal frame industry.

The Door Frame Making Machine is versatile, and it can be used to produce different sizes and shapes of door frames. The machine's power source is electric, making it energy-efficient and cost-effective. The Door Frame Making Machine has a warranty of one year, and it has a supply ability of 30 sets per month. The machine's delivery time is 60 workdays, and the payment terms are T/T and L/C.

Support and Services:

Our Door Window Roll Forming Machine is a high-quality product that has been designed to meet the needs of the construction industry. It is easy to use and maintain, and we offer a range of technical support and services to ensure that your machine is always operating at peak performance.

Our technical support team is available 24/7 to answer any questions you may have about the operation of your Door Window Roll Forming Machine. We can help you troubleshoot any issues you may be experiencing and provide advice on how to optimize your machine's performance.

In addition to technical support, we also offer a range of services to help you get the most out of your Door Window Roll Forming Machine. These services include installation, training, and maintenance. Our team of experts can install your machine efficiently and ensure that it is set up to operate at its best. We also provide training to help you and your team use the machine effectively and safely. Finally, we offer maintenance services to keep your machine in top condition and minimize downtime.

Packing and Shipping:

Product Packaging:

The Door Window Roll Forming Machine will be properly packed and secured in a wooden crate to prevent any damage during transportation. All the parts and accessories will be securely placed inside the crate and properly labeled for easy identification.

Shipping:

The Door Window Roll Forming Machine will be shipped via sea freight to the nearest port of the customer's location. The shipping cost will be included in the total price of the product. The customer will be notified of the estimated time of arrival and will be provided with the necessary shipping documents for customs clearance.
