

## 220V Hydraulic Palletizer Stacker With 1250mm Width / Digital Display

Our Product Introduction

### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Stacker
- Minimum Order Quantity: 1 Set
- Price: USD3000-USD13000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

### Product Specification

- Stacker Width: 1250mm
- Frequency: 50Hz
- Display: Digital
- Stacker Length: 6m/10m/12m As Required
- Voltage: 220V
- Name: Hydraulic Palletizer Stacker
- Core Components: Motor, Pump, Other
- Machine Type: Steel/PPGI/zinc
- Highlight: **220V Hydraulic Palletizer Stacker, ISO9001 Hydraulic Palletizer**

## Product Description

### Capacity Hydraulic Palletizer Stacker With 1250mm Digital Display And Custom Lengths

#### Product Description:

The Automatic Stacker for Steel Roof comes with a digital display that allows you to monitor the stacking process with ease, ensuring high accuracy and precision. This feature makes it easier for you to keep track of the production process and avoid wastage of materials.

We understand that your investment is important, which is why we offer a 1-year warranty on our Automatic Stacker for Steel Roof. You can rest assured that your equipment will be protected against any manufacturing defects or malfunctioning parts for a whole year.

One of the key selling points of our Automatic Stacker for Steel Roof is its high-accuracy. This equipment has been designed to ensure that your steel roofing sheets are stacked with utmost precision, resulting in a consistent and uniform output. This feature is particularly important when it comes to maintaining quality control and meeting the high standards of your customers.

The Automatic Stacker for Steel Roof is available in three different lengths - 6m, 10m and 12m, as required. This feature ensures that you have the flexibility to choose the length that best suits your production needs.

Investing in our Automatic Stacker for Steel Roof will not only improve your steel roofing production process but also increase your productivity and overall efficiency. This equipment is the perfect solution for businesses that are looking to streamline their manufacturing process and reduce manual labor.

Get your hands on the Steel Roofing Stacker today and experience the benefits of an automatic stacking process for your steel roofing sheets.

#### Features:

Product Name: Auliliary Equipment

Key Selling Points: High-accuracy

Frequency: 50Hz

Name: Hydraulic Palletizer Stacker

Operate Style: Fully Automatic

Display: Digital

Automatic stacker for steel roof, Automatic stacker for steel roof, Automatic stacker for steel roof

#### Technical Parameters:

Machine Type	Steel/PPGI/zinc
Voltage	220V
Stacker Length	6m/10m/12m As Required
Key Selling Points	High-accuracy

Core Components	Motor, Pump, Other
Stacker Width	1250mm
Warranty	1 Year
Operate Style	Fully Automatic
Name	Hydraulic Palletizer Stacker
Frequency	50Hz

### Applications:

**Steel Roofing Stacker:** The Hydraulic Palletizer Stacker is designed to work with steel roofing and cladding sheets, making it an ideal solution for large-scale roofing projects. Its automatic stacking and palletizing system ensures that the sheets are stacked neatly and securely, reducing the risk of damage during transportation and storage.

**Automatic Stacker:** The product is designed to work automatically, reducing the need for manual labor and increasing efficiency. This makes it a great choice for businesses looking to reduce labor costs and increase productivity.

**Industrial Applications:** The Hydraulic Palletizer Stacker is suitable for a wide range of industrial applications, including manufacturing, warehousing, and logistics. Its high accuracy and reliability make it a great choice for businesses looking to increase efficiency and reduce costs.

**Construction Industry:** The product is also suitable for the construction industry, where it can be used to stack and transport materials such as steel beams, pipes, and other heavy objects. Its digital display and high accuracy make it a great choice for businesses looking to increase safety and efficiency on construction sites.

**CE and ISO9001 Certified:** The product is CE and ISO9001 certified, ensuring that it meets international quality and safety standards. This makes it a great choice for businesses looking for reliable and high-quality equipment.

The minimum order quantity for the Hydraulic Palletizer Stacker is 1 set, and packaging is done in Nude Packing In a 40 Feet Container. Delivery time is 60 workdays, and payment terms are T/T or L/C. The product is available in different machine types including Steel, PPGI, and zinc. It comes with a 1-year warranty, and the supply ability is 100 sets per month.

### Support and Services:

The Auxiliary Equipment product technical support and services include:

[Installation and setup assistance](#)

[Product Troubleshooting](#)

[Repairs and replacement parts](#)

[Product maintenance and cleaning guidance](#)

[Product training and education](#)

Our team of experienced technicians is available to provide assistance and support to ensure that your Auxiliary Equipment product is running smoothly and efficiently.

### Packing and Shipping:

Product Packaging:

[1 Auxiliary Equipment](#)

[Instruction manual](#)

[Warranty card](#)

Shipping:

[Shipping Method: Standard Shipping](#)

[Estimated Delivery Time: 3-7 business days](#)

[Shipping Cost: Free](#)
