Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Minimum Order Quantity: 1 Set
- Price: USD3000-USD12500
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

Product Specification

- Key Selling Points: High Accuracy
- Core Components: Motor, Pump, Other
- Stacker Length: 6m/10m/12m As Required
- Machine Type: Steel/PPGI/zinc
- Operate Style: Fully Automatic
- Frequency: 50Hz
- Stacker Width: 1250mm
- Display: Digital
- Highlight: **High Accuracy Auto Stacker Machine, Auto Stacker Machine Easy Operate**

Product Description

Fully Automatic High Accuracy Stacker For Roofing Sheet Roll Forming Machine With 6m/10m/12m Stacker Length

Product Description:

The operating style of this equipment is fully automatic, which means that it requires minimal human intervention, making it a highly efficient and cost-effective solution for businesses of all sizes. The key selling point of this equipment is its high accuracy, which ensures that the stacking process is perfectly executed every time. This means that the final product is of the highest quality and consistency, which is essential for meeting the demands of today's market.

The Automatic Stacker for Steel Roof is backed by a 1-year warranty, which provides peace of mind and ensures that you get the most out of your investment. This equipment is also designed with high-quality core components, including a motor, pump, and other essential parts that are engineered to withstand the rigors of daily use. This ensures that the equipment remains reliable and efficient over time, reducing the need for costly repairs or replacements.

Whether you are a small or large business, the Automatic Stacker for Steel Roof is an essential piece of equipment that can help you streamline your operations and improve your bottom line. With its fully automatic operation, high accuracy, and durable core components, this equipment is guaranteed to deliver consistent and reliable results every time. So why wait? Invest in the Automatic Stacker for Steel Roofing today and take your business to the next level!

Features:

Product Name: Automatic Stacker Machine

Machine Type: Steel/PPGI/zinc

Display: Digital

Frequency: 50Hz

Operate Style: Fully Automatic

Core Components:

Motor

Pump

Other

Introducing the Steel Roofing Stacker - the perfect auxiliary equipment for your roofing needs. Equipped with a digital display and running on a frequency of 50Hz, this fully automatic machine is designed for efficiency and ease of use. Its core components, including a motor and pump, ensure reliable and consistent performance. Whether you're working with steel, PPGI, or zinc roofing materials, the Steel Roofing Stacker has got you covered.

Technical Parameters:

Display	Digital
Key Selling Points	High-accuracy

Warranty	1 Year
Operate Style	Fully Automatic
Voltage	220V
Machine Type	Steel/PPGI/zinc
Name	Hydraulic Palletizer Stacker
Stacker Length	6m/10m/12m As Required
Core Components	Motor, Pump, Other
Stacker Width	1250mm

Automatic stacker for steel roof, Automatic Stacker, Automatic stacker for steel roof

Applications:

This Automatic Stacker is equipped with a digital display and operates on a frequency of 50Hz. The stacker length is available in 6m, 10m, and 12m as required by the customer. The machine is available in Steel, PPGI, and Zinc options, giving customers a range of choices to select from.

The Automatic Stacker for Steel Roof is designed to stack steel roofs automatically, making it easier and more efficient for workers. Its application occasions and scenarios include warehouses, factories, and other industrial settings where steel roofs are being manufactured. The stacker length can be adjusted to suit the size of the steel roof being manufactured, making it a versatile piece of equipment.

The Automatic Stacker for Steel Roof is backed by a 1-year warranty, giving customers peace of mind knowing that they are getting a quality product. Its automatic functionality makes it a convenient and cost-effective option for businesses, as it reduces the need for manual labor.

Support and Services:

Our Auxiliary Equipment product comes with comprehensive technical support and services. We offer installation and commissioning services to ensure that the equipment is installed and operating correctly. Our team of experts is available for troubleshooting and maintenance support to keep the equipment running smoothly. We also provide training services to ensure that your team is properly trained on the operation and maintenance of the equipment. Additionally, we offer spare parts and upgrades to keep the equipment up-to-date and operating at peak performance.

Packing and Shipping:

Product Packaging:

Durable cardboard box

Bubble wrap for extra protection

Product manual included

Shipping Information:

Ships within 2 business days

Free standard shipping

Expedited shipping available for an additional fee
