

Steel And Zinc Automatic Stacker For Roofing Sheet / Tile Roll Forming Machine

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Stacker
- Minimum Order Quantity: 1 Set
- Price: USD3000-USD15000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

Product Specification

- Warranty: 1 Year
- Machine Type: Steel/PPGI/zinc
- Operate Style: Fully Automatic
- Stacker Length: 6m/10m/12m As Required
- Key Selling Points: High-accuracy
- Core Components: Motor, Pump, Other
- Frequency: 50Hz
- Stacker Width: 1250mm
- Highlight: **Steel Automatic Stacker,**
Zinc Automatic Stacker

Product Description

Accuracy Steel And Zinc Automatic Stacker For The Roofing Sheet/Tile Roll Forming Machine

Product Description:

One of the key selling points of this product is its high accuracy. This is achieved through its core components, including the motor, pump, and other components, which are specifically designed to ensure that the product runs smoothly and accurately. This guarantees that you will get the best results every time you use it.

The Automatic Stacker for Steel Roof is fully automatic, making it incredibly easy to use. It only requires a voltage of 220V to operate, so you can use it with ease in your home or workplace. The fully automatic operation means that you can set it up and let it do the work for you, saving you time and effort.

With the Automatic Stacker for Steel Roof, you can rest assured that you are getting a high-quality product that is designed to meet your needs. Whether you are a professional roofer or a DIY enthusiast, this product is perfect for you. Its ease of use, high accuracy, and durability make it a great investment that will last you for years to come.

So why wait? Get your hands on the Steel Roofing Stacker today and see the difference it can make to your roofing needs. Whether you are looking for a reliable and efficient way to stack your roofing materials or need a product that can handle heavy loads, this is the perfect solution for you. Order now and experience the benefits of the Automatic Stacker for Steel Roof!

Features:

Product Name: Auxiliary Equipment

Voltage: 220V

Machine Type: Steel/PPGI/zinc

Core Components: Motor, Pump, Other

Operate Style: Fully Automatic

Frequency: 50Hz

Automatic stacker for steel roof

Steel Roofing Stacker

Automatic stacker for steel roof

Technical Parameters:

Name	Hydraulic Palletizer Stacker
Voltage	220V
Stacker Length	6m/10m/12m As Required
Frequency	50Hz

Key Selling Points	High-accuracy
Display	Digital
Core Components	Motor, Pump, Other
Machine Type	Steel/PPGI/zinc
Stacker Width	1250mm
Operate Style	Fully Automatic

Applications:

The Hangzhou Maxwell Auxiliary Equipment is a must-have for every steel, PPGI, and zinc producer. It is a high-accuracy machine equipped with core components such as a motor, pump, and other essential parts. This product is certified with CE and ISO9001, ensuring that it meets the highest quality standards.

The product is an Automatic Stacker, which is particularly helpful for those in the steel roof industry. The Automatic Stacker for steel roof is designed to stack finished products quickly and efficiently. The stacker length comes in three different options, 6m, 10m, and 12m, depending on the customer's requirements.

The Hangzhou Maxwell Auxiliary Equipment is perfect for various occasions and scenarios. It is highly recommended for use in factories that produce steel, PPGI, and zinc products. The machine is suitable for stacking different types of products, such as steel coils, sheets, and strips.

The product is packed in a 40 feet container and delivered to the customer's location within 60 workdays. The minimum order quantity for this product is one set, and the payment terms accepted are T/T and L/C. The supply ability of the product is 100 sets per month, making it readily available for customers who need it.

Overall, the Hangzhou Maxwell Auxiliary Equipment is a reliable and efficient machine that can help businesses in the steel, PPGI, and zinc industry. Its high-accuracy and automatic features make it a valuable addition to any production line.

Support and Services:

Our Auxiliary Equipment product comes with comprehensive technical support and services to ensure that your equipment is always running smoothly. Our team of experienced technicians can provide remote technical assistance and troubleshooting to quickly address any issues that may arise. We also offer on-site support and maintenance services to keep your equipment in top condition. In addition, we provide training services to ensure that your operators are fully trained and equipped to operate your equipment safely and efficiently. Contact us to learn more about our full range of technical support and services for our Auxiliary Equipment product.
