

Digital Display Fully Automatic Stacker Machine 220V 50Hz For Roof Panel

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Stacker
- Minimum Order Quantity: 1 Set
- Price: USD3000--USD13000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

Product Specification

- Operate Style: Fully Automatic
- Voltage: 220V
- Frequency: 50Hz
- Display: Digital
- Machine Type: Steel/PPGI/zinc
- Warranty: 1 Year
- Core Components: Motor, Pump, Other
- Stacker Length: 6m/10m/12m As Required
- Highlight: **Fully Automatic Stacker Machine,
Automatic Stacker Machine 220V,
Automatic Stacker Machine 50Hz**

Product Description

Digital Display Fully Automatic Stacker For Roof Panel 50Hz Frequency And Steel Machine Type

Product Description:

The Hydraulic Palletizer Stacker has a variety of features that make it the perfect choice for your steel roofing needs. The stacker length can be customized to suit your particular requirements, with options available for 6m, 10m, and 12m. The stacker width is a standard 1250mm, making it suitable for a range of different steel roofing materials.

The digital display on the Hydraulic Palletizer Stacker ensures that you can easily monitor and control the stacking process. This feature makes it a convenient and user-friendly option for your automatic stacking needs.

The sturdy construction of the Hydraulic Palletizer Stacker ensures that it can handle heavy loads with ease. Its durability and reliability make it a long-lasting investment for your business.

Overall, the Hydraulic Palletizer Stacker is an ideal choice for any business that requires an automatic stacker for steel roof products. Its customizable features, sturdy construction, and user-friendly design make it the perfect option for your automatic stacking needs. Choose the Steel Roofing Stacker for a reliable and efficient solution to your automatic stacking requirements.

Features:

- Product Name: Auliliary Equipment
- Name: Hydraulic Palletizer Stacker
- Stacker Width: 1250mm
- Warranty: 1 Year
- Operate Style: Fully Automatic
- Stacker Length: 6m/10m/12m As Required
- Automatic Stacker
- Steel Roofing Stacker
- Automatic stacker for steel roof

Technical Parameters:

Warranty	1 Year
Key Selling Points	High-accuracy
Operate Style	Fully Automatic
Voltage	220V
Core Components	Motor, Pump, Other

Stacker Length	6m/10m/12m As Required
Machine Type	Steel/PPGI/zinc
Stacker Width	1250mm
Frequency	50Hz
Display	Digital

Applications:

These stackers are perfect for use in factories and construction sites where there is a need to stack materials. The Automatic Stacker can be used in many scenarios such as:

Construction Sites: The Automatic Stacker is an excellent tool for construction sites, especially for roofing projects. Steel Roofing Stacker can handle various materials and stack them neatly, saving time and effort for workers.

Manufacturing Industries: The Automatic Stacker is also ideal for manufacturing industries that need to stack materials such as steel, PPGI, and Zinc. The machine is capable of handling large volumes of materials, making it perfect for use in industries that require mass production.

Warehouses: Warehouses are another area where Automatic Stacker can be used. The machine can stack materials neatly and efficiently, making it easy to retrieve them when needed. This saves time and effort for workers who would otherwise have to manually stack the materials.

Hangzhou Maxwell's Automatic Stacker is a CE and ISO9001 certified product. The product's core components include a motor, pump, and other parts that ensure the machine's efficiency and durability. The machine is packaged in Nude Packing in a 40 Feet Container and has a minimum order quantity of 1 set. The delivery time for the machine is 60 workdays, and the payment terms are T/T or L/C.

In conclusion, the Automatic Stacker from Hangzhou Maxwell is an excellent investment for anyone who needs an efficient and accurate machine for stacking materials. Its versatility and high-accuracy make it ideal for use in various scenarios such as construction sites, manufacturing industries, and warehouses. With a supply ability of 100 sets per month, Hangzhou Maxwell's Automatic Stacker is an excellent addition to any workplace.

Support and Services:

The Auxiliary Equipment product technical support and services include:

Assistance with product installation and setup

Troubleshooting and diagnosis of product issues

Repair and replacement of faulty or damaged parts

Product maintenance and cleaning recommendations

Product training and education to ensure proper use and care

Packing and Shipping:

Product Packaging:

The auxiliary equipment will be packaged in a sturdy cardboard box.

The box will be labeled with the product name and SKU code for easy identification.

Inside the box, the equipment will be securely wrapped in bubble wrap or foam to prevent any damage during shipping.

The necessary cables and instructions will also be included in the package.

Shipping:

The product will be shipped via a reputable courier service within 1-2 business days of the order being placed.

The estimated delivery time will depend on the destination, but typically ranges from 3-7 business days.

The customer will be provided with a tracking number so they can follow the progress of their shipment.

If any issues arise during shipping, the customer can contact our customer service team for assistance.
